CSC FORM 4000
OCTOBER 1963

IMPORTANT MESSAGE TO ELIGIBLES

YOU HAVE RECEIVED AN ELIGIBLE NOTICE OF RATING. WHAT DOES THIS MEAN?

IT MEANS THAT: Your name has been placed on the list of persons who have passed this examination, in its proper relative standing. This list of eligibles, or register, is kept by the office whose name and address appears in the lower right-hand corner on the other side of this notice.

IT MEANS THAT: When your name is reached on the register, you will be considered for the type of jobs for which you have qualified, (in the geographical area) covered by the examination. (When a Federal agency requests the Commission to supply the names of eligibles, the names of the three eligibles at the top of the register are certified to the agency for consideration.) The agency appointing officer may choose any one of these three persons, so long as he complies with the Veterans' Preference Act of 1944, as amended.

IT MEANS THAT: Your prospects for getting a job from this examination cannot be predicted. They depend upon how many vacancies may occur to be filled by eligibles, and on your relative standing on the register. Your name will be certified for consideration as it comes within reach and as requests for eligibles are received. (If you are not selected, your name will go back on the register in its proper relative standing, to be considered again when within reach until the register is terminated.)

IT MEANS THAT: YOU MUST INFORM THE OFFICE WHICH ISSUED THIS NOTICE OF RATING OF ANY CHANGES IN YOUR ADDRESS OR IN THE CONDITIONS UNDER WHICH YOU WILL ACCEPT APPOINTMENT. SEND ANY NEW INFORMATION CONCERNING YOUR ADDRESS OR AVAILABILITY TO THE OFFICE WHOSE NAME AND ADDRESS IS SHOWN IN THE LOWER RIGHT-HAND CORNER ON THE OTHER SIDE OF THIS NOTICE, AND REFER TO THE TITLE OF THE EXAMINATION AND THE RATING RECEIVED.

ADDITIONAL INFORMATION

1. Any offer of appointment or inquiry as to availability which you may receive from a Federal agency will show whether you are being considered for a limited temporary, a career-conditional, or a career appointment.

2. If, when you are considered for appointment, you signify that you are not available or you fail to reply to a communication, your name will be removed from the register until you satisfactorily explain your reasons and specify the conditions under which you would be willing to accept any appointment. When you are unable to accept any appointment you should request that your name be suspended from the register until you are again able to acce [illegible] requests for restoration to the register while it is still in use, changes in availability, or transfer of eligibility, will be acted on without further notice to you.

3. If you are now employed by the Federal Government and have received an eligible rating, show this notice to your personnel officer. He should be aware of your eligibility on this examination. THIS DOES NOT RELEASE YOU FROM YOUR RESPONSIBILITY TO KEEP THE OFFICE MAINTAINING YOUR ELIGIBILITY INFORMED OF CHANGES AS MENTIONED ABOVE.

4. A competitor who received an eligible rating may, under certain conditions, have his eligibility transferred from the register of one civil service office to a similar register in another civil service office.

A competitor who wishes to have his eligibility transferred should send his request to the office where his eligibility is maintained.

[illegible] determination will then be made, and the competitor will be notified, as to whether his eligibility can be transferred.

5. A register established from an examination held in order to fill a specific type of position at a stated salary may also be used to fill vacancies in related positions or at a lower salary. When you accept a career-conditional or a career appointment, your name will be removed from all registers established as a result of this examination. Until your name is removed, your willingness to accept a lower salary will not affect your eligibility for positions at a higher salary.

U.S. GOVERNMENT PRINTING OFFICE: 1965 O—794-130

If you are not appointed or the register is not officially terminated earlier, your eligibility from this examination will be in effect for a period of 18 months only unless you submit up-to-date information about your qualifications before that time by letter, Standard Form 57 or Form 57A; however, such information will not be accepted if you have had eligibility for less than 1 year. The date of issue which appears on this "Notice of Rating" is that on which your period of eligibility began.

Date: [illegible]

A preliminary review has been made of the application(s) which you submitted for consideration under Announcement No. 413, Mid-Level Positions in Administrative, Staff, and Technical Services. The experience and training described in your application appear acceptable under the general terms of the announcement. You will be considered for positions for which your experience and training qualify you at grade: GS-11

However, applicants who appear to meet the general announcement requirements for a particular grade level are not thereby qualified for all positions at that grade. When a government agency requests names of eligibles to consider in filling a vacancy, applications showing skills and backgrounds that match the requirements of the job to be filled are carefully reviewed. The best qualified candidates are referred for consideration, ranked in accordance with their relative qualifications with due regard to Veterans Preference.

As you know, applicants may establish eligibility with any two offices maintaining lists under this announcement. In accordance with your request, your eligibility is on the list(s) maintained in the city or cities indicated below:

Washington, D.C.

MEMORANDUM FOR: Chairman, Career Service Board, NPIC

THROUGH : Secretary, Career Service Board, NPIC

SUBJECT : Recommendation for Promotion

1. NAME: Maksymiec, Myroslaw Andrew

2. POSITION TITLE AND PRESENT ASSIGNMENT:

Photog (Gen) occupying Physical Scientist Slot, assigned to the Exploratory Development Laboratory Branch of the Plans and Development Staff.

3. PRESENT GRADE, TIME IN CIA:

GS-7/3, EOD Date November 1961

4. EDUCATION AND TRAINING: High School

5. EXPERIENCE:

Mr. Maksymiec retired as a Master Sergeant in July 1961, after 20 years of Army photographic experience. He worked in PSD/PIB from November 1961 until 15 September 1963. On this date he was assigned to the Exploratory Development Laboratory Branch of the Plans and Development Staff on a 30-day trial basis. This period was extended to January, 1964 at which time the assignment was made permanent.

SUBJECT: Recommendation for Promotion

6. JUSTIFICATION FOR PROMOTION:

Mr. Maksymiec's primary experience has been in practical photography. Since joining the Exploratory Development Laboratory Branch, he has learned the theoretical side of photography and combined this with his already extensive knowledge of the photographic process. He has carried out several investigations which indicate a natural bent for scientific methods. After initial briefings, he requires little, if any, supervision. His maturity is a distinct asset in his work, where extreme attention to detail and good judgement are absolute necessities. He exhibits a willingness to work for the group, no matter the hours, and cooperates and works well with others.

His responsibilities and quality of effort are deserving of more than his current GS-7 status. It is therefore recommended that Mr. Maksymiec be promoted to GS-8.

Mr. Myroslaw Maksymiec

Dear Mr. Maksymiec:

This letter is in response to the comment you made to the Director on Alumni Day, 26 April 1975, concerning a special medallion for NPIC employees who participated in the Cuban missile crisis.

I have had the appropriate records reviewed. The Certificate of Commendation you and other NPIC employees received was awarded by direction of the President in recognition of the meritorious service performed.

It is hoped that the lack of a medallion to accompany this certificate will in no way detract from the contribution you made during this period of crisis.

Sincerely,

/s/ John E. Blake

MEMORANDUM FOR: Director of Personnel

Fred:

1. The facts behind the question raised with the Director by Mr. Maksymec on Saturday, 26 April, are, according to him, as follows.

2. After NPIC had done its fine work during the Cuban missile crisis it appears that two different types of recognition were given. Determinations were made first on certain individuals whose contributions were such that they should receive an Agency medal award. A second group of some 200 were then identified for their level of contribution and received some kind of certificate from the White House signed by the President. Mr. Maksymec was in the latter group and espouses the cause that a "special medallion" should have been given along with the White House certificate. Mr. Bob Gaynor also spoke to me on this matter on Saturday, and has a good recollection on the whole matter.

3. Will you do what you can on the matter and prepare me a letter to be sent to Mr. Maksymec?

MEMORANDUM FOR THE RECORD

SUBJECT: Mr. Myroslaw Maksymiec - Retired Employee

The meeting with Mr. Maksymiec on 6 May 1975 was to satisfy his request to review his official personnel file (this matter was being treated in the manner of a request under the Freedom of Information Act). Location: Main Reception Interview Room at Headquarters Building - 3 p.m.

The duration of the meeting was one (1) hour of which time Mr. Maksymiec used approximately 7 to 8 minutes to quickly thumb-thru the OPF. It is my impression that he was surprised: 1) we were allowing him to see all the material in the file (he described vividly, a 1971 unpleasant encounter with Mr. Echols, the Director of Personnel, who refused to show him a document and would only read to him a small portion from it - this caused his request and subsequent interview with the DCI, Mr. Helms), and 2) at the reality that the file contained nothing actually derogatory (he stated he had seen and signed the fitness reports so these represented nothing unknown).

The major portion of the time was consumed in my listening to his evaluation and assessment of the various supervisors and co-workers at NPIC and their shortcomings. He regaled me with much of his background and history with the military and initial application and entrance on duty with the Agency; his personal acquaintance and relationships with notables - a former American Ambassador to Ethiopia, Joseph Simonson, the Emperor of Ethiopia, several Generals and Congressional personalities, Mr. Helms and Mr. Arthur Lundahl, and his membership in the Explorer Club.

Presently he is Vice President for Sales of the Environmental Coating Industries Corporation located in Annandale, Virginia - the company removes corrosion and stains from surfaces. He offered the company services at the 1974 Alumni session, to clean the stains from the Nathan Hale statue at the front of the building, at a cost of $300. He plans to follow-up on his proposal, since he has not heard anything from the Agency.

He mentioned that Mr. Blake, at the direction of the DCI, (1975 Alumni Day) was to explore and advise him (Maksymiec) of the possibility of striking and issuing a medal to about 200 Agency personnel (of whom he is one) for their participation in certain aspects of the 1962 Cuban crisis.

Our meeting ended with Mr. Maksymiec indicating he had no intention of "going after anybody," but he was curious what was in his file, and that was the basis for asking to see it.

Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

During the past reporting period, Mr. Maksymiec's responsibilities were more pointedly directed towards the requirements of a laboratory technician as described in the position description and less towards his previous utilization as a photographer. A conference was held with him on 15 June to explain the need for this redirection and a memo ATB 147/70 dated 16 June was prepared and furnished to him detailing of performing these duties and was anxious to stop being thought of as a photographer and welcomed the opportunity to move into a more technically oriented activity. The specific duties outlined are listed in Section B of this report.

It was expected that there would be a learning period during which his proficiency would gradually increase in these new responsibilities. However, progress has not been as rapid as had been hoped due to what appears to be a lack of initiative on his part coupled with severe emotional outbursts against his immediate supervisor and other Center personnel. The latest of these occurred on 28 August in which he used abusive language in the presence of other Branch personnel including the Branch Chief against his Section Chief. This necessitated a written letter of reprimand and his transference to direct supervision by the Branch Chief, and as of 5 October 1970, to another Section within the Branch.

The ratings of M in Duties 1 and 2 of Section B reflect primarily the subject's reluctant participation in data collection and his lack of initiative in learning the operation of the microdensitometer. In duties 4, 5, 6, he has required a maximum amount of supervision which has resulted in senior personnel doing the work

COMMENTS OF REVIEWING OFFICIAL

I concur with the rater's comments. We have been making every effort to aid Mr. Maksymiec in becoming an asset to RED as a laboratory technician. To date, there has been little noticeable progress; in fact, the temper outbursts mentioned above indicate a deteriorating condition. Unless this situation improves, it may be necessary to recommend termination action.

As I have stated in previous comments, it's unfortunate that he cannot find a position which takes advantage of his expertise in photography, since this would go a long way to resolving his problems.

themselves. It may be argued that this has not provided him with sufficient first-level supervision to allow him to learn the skills required to perform these duties.

To insure that he is given every opportunity to perform in his new section, written assignments and accomplishments will be submitted on a daily basis.

In line with previous reports, it is still felt that Mr. Maksymiec is essentially mis-assigned as he is an expert photographer and should be assigned in some area where his skill can be utilized to its fullest extent.

NOV 3 21 69

Mr. Maksymiec is basically an excellent photographer who occasionally lends a hand as a D&E Technician. Unfortunately, he must be rated according to his job classification as a D&E Technician, and he suffers accordingly.

In his previous fitness report, he was alerted to the urgent need to direct his interest toward becoming a technician and away from his photographic activities. He has not completely heeded this advice.

Two distinct training activities were advised for assisting him in making the transition: a course of instruction in math necessary to discharging technician's duties, and on the job project work. The former persisted for only a short time, due presumably to his lack of ability and/or interests. He improved very little from this instruction. His assistance on a project for developing an ammonia leak detector was effective, and the project was a success; however, his thin knowledge of the scientific method diminished his appreciation of the concept of experimentally controlled variables. In short, he had to be watched closely to insure that his well-meaning "improvement" did not disrupt the experimental plan. His interest and cooperation in this program were commendable, and his overall project performance was adequate.

Mr. Maksymiec is basically mis-assigned. His abilities and interests lie in the photographic field where he does a very commendable job. However, the Laboratory needs the services of properly trained technicians to assist the physical scientists in their research efforts. Since Mr. Maksymiec's expertise is not in this area, it is again recommended that suitable employment as a photographer be found for him.

Mr. Maksymiec's ability as a staff photographer is un-diminished. His photographic ability is considered by all in the Center as excellent.

It has been pointed out to Mr. Maksymiec that the laboratory does not have a basic requirement or a slot for a photographer, and since he is carried as a D & E technician, he should be more qualified than he is in other aspects of photographic and scientific research other than straight "picture taking", as he does not have the basic foundation either in formal education or experience to perform successfully as a D & E technician. This lack of qualification in this area can be partly explained by two factors: (1.) Mr. Maksymiec's position description was recently changed due to the reorientation of the laboratory's primary mission and function; and (2.) Because of his previous photographic responsibilities he did not have the opportunity to gain the new skills required to fulfill his new duties as a D & E technician. Mr. Maksymiec will have to be re-trained from a photographer into a D & E technician so that he can contribute more to help solve the laboratory assigned tasks.

Mr. Maksymiec still had problems in his relationship with other members of the laboratory during this reporting period. It appears to have been about his concern with his position in the laboratory grade structure and his feeling that he was "ignored" by senior members of the laboratory. Mr. Maksymiec seems to have had a feeling that members of the laboratory including his Chief did not recognize his ability as a photographer and pay suitable deference to his age.

COMMENTS OF REVIEWING OFFICIAL

I concur in the ratings and comments of the rating officer. In the latter part of the rating period the activities of the Exploratory Laboratory were being changed from ad hoc research projects to a directed program of planned investigations against NPIC and community problems. This change in activities reduced the freedom of choice in tasks to be accomplished and increased the demand for versatility in laboratory personnel. The lack of freedom and the assignment of unfamiliar tasks are distasteful to Mr. Maksymiec since he doubts that these activities will provide the personal recognition he has enjoyed for many years as an outstanding photographer.

Maksymiec, Myroslaw | Fitness Report

Section C Continued

He has also had serious disagreements with a summer intern and another member of the laboratory which had to be settled by conferences with the laboratory chief. A major disagreement with the Laboratory Chief took place recently which resulted from his feeling that he had been treated unfairly without consideration for his age, knowledge and training.

As a result of these problems, a series of conferences with Mr. Maksymiec and senior members of the division were held in order to find a possible solution for his problem. Because of these meetings, an in-house training program has been initiated for Mr. Maksymiec. It is hoped that this will do much to alleviate his feelings of repression and make him a contributing member of the laboratory once again.

Section D Continued

In spite of the reduction in need for Mr. Maksymiec's primary skills, he has expressed a desire to continue his present assignment. Therefore, a program of retraining has been instituted to broaden his knowledge and increase his versatility in carrying out laboratory investigations. Mr. Maksymiec is a hard working, dedicated employee and there is every reason to expect that he will try hard to overcome his deficiencies. However, his age, limited education, previous success in photography, and lack of knowledge in scientific methods pose serious obstacles to be overcome. His present attitude is characterized by his own statement, "Show me how, and I will do it."

Mr. Maksymiec continues to excel in his primary duty as staff photographer. He processes his own photography and the finished product is consistently outstanding.

He cooperates most willingly with other members of the staff in assisting them with the practical photographic aspects of their projects.

There have been a few minor personality conflicts on procedural matters related to job assignments between Mr. Maksymiec and both staff and non-staff personnel, which have been reported to his laboratory chief and the executive officer, TDS. It is believed that this is due to his strong desire to excel at his job. This problem has been discussed with Mr. Maksymiec and it is expected that he will avoid such occurrences in the future.

During this reporting period Mr. Maksymiec has satisfactorily completed a night school course in technical reading and writing at Montgomery Junior College and is currently pursuing a course in photography at American University. He is to be highly commended for this continuing effort to train himself for a more responsible position.

Mr. Maksymiec is a valuable member of the EDLB and serves as its senior lab technician. He works closely with other members of the staff and contributes to the success of the laboratory.

His duties require him to maintain and develop many skills in the field of photographics. He carries out these duties and other responsibilities in a professional manner and with a minimum of supervision.

As senior laboratory technician he provides guidance for his junior technician. His ability to train this man in the field of photographic technology is considered superior.

Mr. Maksymiec recently completed a review course in "Basic Grammar." This course pointed out his main difficulties in written expression, and his teacher suggested methods for overcoming these difficulties. As a result of this course and after a consultation with Mr. R. B. Cheatham of the Educational and Psychological Service Bureau, Georgetown University, Mr. Maksymiec plans on taking a special English course at Montgomery Junior College this fall. This course concentrates on the fundamental of reading and writing. When he successfully completes this English course, he expects to continue his education with the ultimate goal of receiving his Bachelor's degree. Mr. Maksymiec is ambitious and hopes to train himself for a more responsible position. He is to be commended for this effort, and he will be given all possible aid within the laboratory to help him fulfill his educational program.

Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Maksymiec continues to support the Exploratory Development Laboratory Branch well as its senior laboratory technician. His duties require him to work closely with the physical scientists and by himself on various projects which require many practical and some theoretical skills.

Mr. Maksymiec works very well with others, follows instructions willingly, and carries out his responsibilities in a professional manner. He requires very little supervision and completes his assignments quickly and competently.

Mr. Maksymiec has made a conscientious effort to overcome his writing deficiency and has greatly improved this necessary skill since his last review. Although there is still room for improvement, it is felt that real progress has been made and improvement will continue in the future with sufficient practice.

Mr. Maksymiec's duties require him to provide guidance to the laboratory's junior technician. His ability to train this man and to help him increase his photographic skills is considered above average. It is felt that he is presently doing the work of a higher grade, so it is recommended that Mr. Maksymiec be promoted to GS-09.

Section II COURSE OBJECTIVES - CONTENT AND METHOD

This course is taught 2 hours a day for 2 weeks. A pretest is given to determine the student's proficiency. The course is conducted through lectures, examples, and exercises; and the evaluation is based on a series of quizzes and a final examination.

The objectives of the course are the review and application of basic grammar principles and fundamental punctuation rules.

Section III METHOD OF EVALUATION

Student achievement is judged on the basis of competence in understanding and applying the principles and rules presented in the course objectives.

Section IV ACHIEVEMENT RECORD

This trainee's rating is marked by an asterisk.

Subject	Poor	Fair	Satisfactory	Excellent
Grammar	3*	3	11	6
Punctuation	5*	9	6	2

EXCELLENT - - Thorough knowledge of material presented and above average performance in meeting course goals.

SATISFACTORY- average knowledge of material presented and adequate performance in meeting course goals.

FAIR- - - - - borderline knowledge of material presented and limited performance in meeting course goals.

POOR- - - - - inadequate knowledge of material presented and unsatisfactory performance in meeting course goals.

Section V COMMENTS

This review course in grammar and punctuation was too advanced for Mr. Maksymiec. He needs an elementary course on the English fundamentals preferably on a tutorial basis before he can adequately apply the rules of punctuation and grammar to his work.

In a personal conference with Mr. Maksymiec, the instructor analyzed his weaknesses in grammar and punctuation and suggested ways in which he might improve his performance in these areas.

EDUCATIONAL AND PSYCHOLOGICAL
SERVICES BUREAU

August 24, 1966

Name: Mr. Myroslaw A. Maksymiec

Mr. Myroslaw A. Maksymiec, age 49, came to this Bureau on August 1, 1966, in connection with the Veterans Administration's educational and vocational counseling program for former servicemen. Mr. Maksymiec is married, has two children, ages five and eight, and is employed by a federal governmental agency as a photographic research technician (GS 09/3). He retired from the United States Army in 1961 in the grade of Master Sergeant after serving for over 20 years with primary duties as an intelligence photographer. His education includes eight years of formal schooling, a high school completion equivalence certificate, and additional courses with the Graduate School, Department of Agriculture, and the United States Armed Forces Institute. Mr. Maksymiec stated that he was interested in further education at the college level in order to improve himself both personally and professionally in a field related to his present vocational activities.

In addition to several conferences with the undersigned, Mr. Maksymiec was administered a battery of educational and vocational tests. This report contains the results of these conferences and tests, the results of which should not be interpreted either as conclusive or final. They should be considered primarily as indications of various psychological factors that should be seriously considered by Mr. Maksymiec in making decisions concerning his educational and vocational goals.

In order to determine Mr. Maksymiec's fields of vocational interest he was given the Kuder Vocational Preference Record. When compared to a representative group of men in the national population, Mr. Maksymiec indicated that his interests are significantly similar to persons who are engaged in computational, scientific, and literary activities. Men who have interests similar to Mr. Maksymiec's are found in various engineering fields, astronomy, seismology, economics, psychology, and technical publications writing. These fields are closely allied to his present occupational endeavors.

On the Educational Interest Inventory, a device that is beneficial to an individual in discovering his interests in various fields of study, Mr. Maksymiec's responses indicated that his study interests are very high in physics; high in engineering, chemistry, earth science, and history and political science; high average in communication, zoology, and mathematics; and average in psychology. The areas in which he showed low to average interest were music, education, industrial arts, agriculture, botany, sociology, literature, art, business administration, and economics.

Name: Myroslaw A. Maksymiec

Mr. Maksymiec also took the Army General Classification Test, Civilian Edition, to find out his overall level of mental ability. His score revealed that he exceeds approximately 78 percent of adults in general mental capacity as measured by this instrument. A safer evaluation of his performance is that he is probably in the upper 25 percent of adults regarding his global intelligence.

On the Michigan Vocabulary Profile Test, an instrument that attempts to measure a person's intellectual interests as well as the amount of information he has retained in various areas of knowledge, Mr. Maksymiec indicated, when compared with college freshmen, that he exceeds approximately 50 percent in his knowledge of human relations, 69 percent in government, and 67 percent in the physical sciences. On the lower side, he does as well or better than 24 percent in his familiarity with commerce, 31 percent in mathematics, and 24 percent in fine arts.

In order to find out Mr. Maksymiec's ability to handle English, a basic necessity for one to perform well in college, he was given the Cooperative English Tests. When compared to college freshmen, he showed that he exceeds from 52 percent to 78 percent in his understanding of vocabulary; from 5 to 17 percent in his ability to comprehend what he reads; from 2 to 11 percent in his speed of comprehension; and from 18 to 36 percent in his overall ability to know and understand what he reads under timed conditions. In his skill to express himself properly in English, he exceeds from 1 to 6 percent of college freshmen. When reading and expression are combined into one score, it may be said that Mr. Maksymiec exceeds from 6 to 12 percent of college freshmen in his overall usage of English.

The results of the above tests indicate that Mr. Maksymiec has made the most of his learning opportunities both within and outside the military service. Although he completed only eight years of school, he has acquired a considerable amount of knowledge by observation, reading, and personal experience. In spite of his broad experiences and acquired knowledge, it will be necessary for him to improve his reading and writing skills in English, however, before he begins college courses. Although he manifests a high interest in engineering and scientific fields, he should probably not consider these fields as majors because of his deficiency in mathematics. It is believed the skills in English can be developed but it is doubtful if the mathematical deficiencies can be overcome sufficiently to major in a scientific area. It is probably advisable, therefore, for Mr. Maksymiec to consider one of the social sciences as a college major. His background in photography and military subjects, combined with a college major in an appropriate social science, would probably provide him with the necessary qualifications to become a geographer or an intelligence analyst in government service.

It is understood that Mr. Maksymiec has enrolled in Montogomery Junior College, Takoma Park, Maryland, for the 1966 fall semester and that he will take a special English course concentrating on the fundamentals of reading and written expression. After he completes this instruction, he might consider working for an associate of arts degree in a social science at this junior college with the ultimate goal of transferring later to a four-year college to work toward a bachelor degree.

I have appreciated knowing and talking with Mr. Maksymiec and I trust he will contact this Bureau if he requires further counseling assistance. My best wishes go with this report in whatever plans Mr. Maksymiec makes concerning his future plans and goals.

Mr. Maksymiec, in serving as the senior laboratory technician, sets a fine example for those whose responsibilities are similar and for the younger professionals for whom he provides photographic laboratory services. As a photographer he possesses rare compositional skills; his photographs of equipment for report and briefing purposes are exceptionally well-crafted, the finishing of surpassing quality. His work is careful, thorough, painstakingly accurate, and professional by all standards.

After more than a year in his present position, he feels more relaxed and self-assured. He asserts his views and ideas more competently and has become an integral and important part of this laboratory's operations. Mr. Maksymiec works exceptionally well with others, accepts responsibility freely and requires a minimum of direction. Most of his assignments come as discretionary orders, with complete freedom to utilize his own talents and inclinations towards the solution of his assigned problems. He continues to improve his capabilities, and is presently enrolled in a Department of Agriculture course in the fundamentals of photographic color processing, at his own request.

Mr. Maksymiec's one major weakness lies in the difficulty with which he writes reports. The ability to communicate ideas and results of investigations clearly, through written reports, is a necessary attribute of laboratory branch members, and Mr. Maksymiec must concentrate extra effort to improve his performance in this regard. During the next reporting period, he will be given assistance to improve his reporting capabilities.

[illegible] comment where applicable on supervisory ability and cost consciousness.

Mr. Maksymiec's background and experience lie in practical photography, about which there is extremely little he does not know. He transferred from PSD/PLB primarily because there was little opportunity to use this experience, and because the advancement potential appeared to be minimal.

From the day of his transfer, Mr. Maksymiec has performed capably. Much of the work has been new to him, requiring him to learn and master many aspects of theoretical photography. He has acquired proficiency in the use of laboratory measuring instruments. He has applied himself and learns rapidly, with good retention. His frame of mind has improved, and this is manifested in a more relaxed, yet completely involved approach to his work. He works well with other and cooperates fully in all group problems. He accepts responsibility and requires direction of effort only in those theoretical areas where he has no experience. When responsible for the expenditure of funds, he exhibits a commendable cost-consciousness.

He recently took examinations for the purposes of completing his High School education, and has attended mathematics classes at Fort Myer. This is an additional indication of the interest and feeling for his job, which is manifested by a consistently proficient level of output. He is a valued member of the Exploratory Development Laboratory Staff.

EXPERIENCE

Mr. Maksymiec retired as a Master Sergeant in July 1961 after 20 years of Army photographic experience. He has been with the Center from November 1961 and with the Exploratory Development Laboratory Branch of the Plans and Development Staff since 15 September 1963. He is the senior technician for the laboratory.

JUSTIFICATION

Mr. Maksymiec's laboratory skills are of the highest professional quality. His duties as the senior laboratory technician require him to work closely with the physical scientists and by himself on various projects which require many practical and some theoretical skills. He conducts experimental laboratory investigations related to the photographic process, develops special techniques, and constructs supporting equipment. He carries out his assignments with little or no supervision and works well with others in the laboratory. He is an important and valued member of the Exploratory Development Laboratory Branch. During the period of international crisis, the Center served as the focal point for the receipt and immediate analysis of intelligence photography and was instrumental in identifying the nature and magnitude of the threat to world peace. Although working under great stress, personnel of the Center were able to carefully analyze and process a massive volume of critical intelligence material, thereby enabling the United States to respond immediately and effectively to the developing threat. The outstanding achievement of the members of the National Photographic Interpretation Center is in keeping with the finest traditions of service to the United States."

All Armed Forces personnel assigned or attached to the Center and performing duty at any time during this period are hereby authorized to wear the emblem or ribbon for the following decoration, as appropriate to their service:

Army - Meritorious Unit Commendation

As Director of Central Intelligence and on behalf of the entire intelligence community as well as the United States Government, I wish to commend you and the personnel under your command for the outstanding work you have been performing, especially during the past four months of the Cuban buildup.

2. Your analysis and interpretation of the Cuban photography and the manner in which you reported your findings to the President, his principal policy advisors, most particularly the Secretary of State and the Secretary of Defense, and the entire intelligence community have been of the highest order.

3. I have full knowledge of the tremendous pressures and long working hours with which NPIC was confronted. I regret that the anonymity required of a professional intelligence agency such as yours prevents public acknowledgment of NPIC accomplishments. You and your people should take great pride in your accomplishments as well as in your ability to perform them without public acclaim.

A&E PROFESSIONAL APPLICANT TESTING REPORT

DATE: 16 November 1961

NAME: MAKSYMIEC, Myroslaw Andrew

PROPOSED ASSIGNMENT: PIC Photographer

DATE AND PLACE TESTED: 7 November 1961, Washington, D. C.

RECRUITER: Capriotti

1. This report presents information that may be helpful in arriving at selection/placement decisions. The comments are necessarily tentative and in terms of general assets and liabilities. A DETAILED DISCUSSION OF A&E INFORMATION IN TERMS OF SPECIFIC CONTEMPLATED ASSIGNMENTS MAY BE ARRANGED BY CALLING X3052.

2. A&E Comments: Mr. Maksymiec performs poorly on various measures of intellectual ability. (He evidently has a foreign language background which may have affected his performance particularly on the verbal tests.) His knowledge of contemporary world-affairs approaches an average rating in comparison with Agency professional personnel. He also performs fairly well on a test of arithmetic problems. He would appear best suited for an essentially technician level position, which presumably the proposed "Photographer" position would be.

3. FOREIGN LANGUAGE APTITUDE:

1. I have known Mr. [illegible] for more than seven years. For approximately two years (1954-1956) during that period he worked under my direct daily supervision in the Office of the Army Attache, American Embassy, Addis Ababa, Ethiopia. Since that time I have maintained periodic contact with Mr. (then M/Sgt E-7) [illegible].

2. Although Mr. [illegible] was primarily the photographer and chief of the photographic laboratory while working with me in Ethiopia, he was also in charge of supply and transportation for the Office of the Army Attache. In addition, he learned to type and was of considerable assistance in helping to get out the many reports the office was required to make.

3. In the field of photography I consider Mr. [illegible] to be one of the outstanding photographers in the Armed Services of the United States. His work with me was consistently superior both from a technical viewpoint and from a photographic result viewpoint. None of the assignments that I gave Mr. [illegible] were routine, nor were they easy. Invariably they involved considerable ability, tenacity, diplomacy, and judgement. His many assignments were carried out by every possible means of transportation - on foot, on mule back, by truck (on almost impassable roads), and by plane. He always accomplished his mission. His detailed captions were uniformly accurate and valuable, clearing up [illegible] the subject [illegible] being covered.

7. I have been informed [illegible] the Pentagon, Mr. MACSYNNE has continued to serve the interests of the United States [illegible] Ethiopian Ambassador to the United States as well as the Ethiopian Army Attache. He has been of service to the Military Assistance Directorate and in that capacity has been especially commended by Brigadier General Henry [illegible] Director of the Institute.

8. While actively attending the U.S. Army War College at Carlisle, Pennsylvania, in 1958-1959, Mr. MACSYNNE was of considerable assistance to me in the detailed preparation of my thesis [illegible] The Organization [illegible] strategic significance to the United States.

9. Based on my personal observations and knowledge, I feel that Mr. MACSYNNE is eminently qualified for specialized work in the field of intelligence. He would be particularly valuable in all phases of photography and in collection, evaluation, or dissemination of intelligence. His investigative ability, particularly in the fields of map reading, geography, order of battle, or technical subjects is outstanding. He has the unique ability to collect and assemble pertinent data and to prepare clear and concise written reports.

10. I have found Mr. MACSYNNE to be [illegible] loyal, forceful, capable and conscientious. He has demonstrated high courage and moral integrity. He is eminently outstanding in his [illegible] field of photography [illegible] peers.

Enclosure No. 1, Page 1

During the period November 1961 to the present, I am employed by the Central Intelligence Agency, located in Washington, D. C.

I lectured, conducted seminar, and advised on the operations of photography, cameras, lighting, printing, processing, and editing.

On an independent basis I performed complex black and white and color, still, and motion picture photographic assignments. Utilized, as appropriate, combinations of cameras, and other gear which included ultra-high speed cameras (1-5 thousand frames per second) plus compatible stroboscope lighting components, varied mirror, filter, and mounting devices.

Advised on the installation and operation of photographic set-up and rendered the technical decisions relative to the required optical, mechanical, and electronic adjustments.

Commendations:

I was awarded the 'Certificate of Commendation' by direction of the President of the United States, for meritorious service with the Central Intelligence Agency, on January 9, 1963.

Works:

'Come Along to Ethiopia' by Joseph Simonson was published in 1968 by T. S. Denison and Co., Inc. Pictures utilized in this historical-pictorial endeavor were my works and credit is given accordingly in the introduction. (Library of Congress 67-28078)

Enclosure No. 2, Page 1

During the period 1957 through 1961, I was employed by the Publications and Services Branch, Office Assistant Chief of Staff for Intelligence, Headquarters, Department of the U. S. Army, Washington, D. C.

Mission

Use, setup, arrangement of photographic equipment, techniques, and processes.

Develop, adapt, and create the foregoing in order to be responsive to unprecedented situations that require photographic equipment for situations of extreme conditions. (Weather, radiation, explosion, etc.). Create training films to deal with specific subjects.

Conduct training classes in basic and advanced photography, motion picture, and laboratory procedures.

Operations

I was responsible for the direction of technician/specialist photographers, concerned with reproduction of film using the most advanced Eastman-Kodak, Bell and Howell, and Houston Fearless printing and processing equipments.

During this phase there was a demand for high production and extreme accuracy in a minimum of time. My responsibilities required me to adapt to changing conditions under adverse conditions to achieve objectives that were required in a matter of hours.

I developed workload schedules based on task/mission requirements, available manpower, and the degree of skill available. The changing tasks and mission objectives required a maximum ability on my part to train personnel to meet the requirements of operating officials.

I established and conducted training classes in the operation and maintenance of equipment.

I developed workload schedules based on task/program/mission requirements, priorities, available manpower, and the degree of skill available.

Broke down each task into specific operations and handling elements, established a sequence of operations compatible to economical, efficient, and timely reproduction of motion picture film. I applied labor standards by utilization of labor standard data to each work increment to be performed.

I was responsible for determining the overall manpower requirements, equipment, materials, etc., necessary to accomplish the objectives of the organization under my jurisdiction.

I maintained progress chart status of all assigned task, program, established priorities, and directed technician in proper sequence to prevent production delays, work stoppage, and disruption of work schedule.

I reviewed quality and quantity of work produced by means of sampling, inspection, etc.

Accomplishments - Commendations

(1) Awarded 'Certificate of Appreciation', Department of Defense, Military Assistance Institute.

> "As the termination of your active service draws near, I desire to express my personal appreciation for the splendid service you have rendered the Military Assistance Institute during the past two and one-half years. Whenever you were called upon to serve as a guest briefer for Officers assigned to duty with the MAAG-Ethiopia, you cheerfully accepted this responsibility, in addition to your regularly assigned military duties.
>
> Your expert knowledge of the culture, geography, history, and living problems in this area was extremely beneficial to U. S. Military personnel stationed with the MAAG.
>
> The successful manner in which you presented these subjects, (illustrated with colored slides of scenes professionally photographed by you) materially aided our students to adjust themselves to conditions encountered in living in an unfamiliar country and in becoming productive at an early date after arrival at their new station.

The attached Certificate of Appreciation is but a minor expression of our thanks to you for your efforts. The staff and faculty of the Institute join me in wishing you every success."

(2) Fitness Report

"I have known Mr. MYROSLAW A. MAKSYMIEC for more than seven years. For approximately two years (1954-1956) during that period he worked under my direct daily supervision in the Office of the Army Attache, American Embassy, Addis Ababa, Ethiopia. Since that time I have maintained periodic contact with Mr. (then M/Sgt E-7) MAKSYMIEC.

Although Mr. MAKSYMIEC's primary job was photographer and chief of the photographic laboratory while working with me in Ethiopia, he was also in charge of supply and transportation for the Office of the Army Attache.

In the field of photography I consider Mr. MAKSYMIEC to be one of the outstanding photographers in the Armed Services of the United States. His work with me was consistently superior both from a technical viewpoint and from a photographic result viewpoint. None of the assignments that I gave Mr. MAKSYMIEC were routine, nor were they easy. Invariably they involved considerable ability, tenacity, diplomacy, and judgment. He always accomplished his mission. His detailed captions were usually accurate and valuable, showing a keen insight into the subject (human or machine) being covered.

His work in photography was so outstanding that at one time at Addis Ababa, at a request from TIME - LIFE Magazines, I consented for Mr. MAKSYMIEC to complete a photographic report commenced by Mr. Alfred Eisenstadt, one of the outstanding photographers in the U. S. Several pages of pictures taken by Mr. MAKSYMIEC appeared with the article in LIFE Magazine. His work also was commended personally by the U. S. Ambassador to Ethiopia and by the Emperior Haile Selassie I, who awarded him a gold medal.

Enclosure No. 2, Page 4

Mr. MAKSYMIEC's many skills include outstanding technical ability in every phase of operations in a photographic laboratory.

I have been informed that while working in Washington, at the Pentagon, Mr. MAKSYMIEC has continued to serve the interests of the United States. He has been a lecturer at the Military Assistance Institute, and in that capacity has been officially commended by Brigadier General Henry C. Newton, Director of the Institute.

While I was attending the U. S. Army War College at Carlisle, Pennsylvania in 1958-1959, Mr. MAKSYMIEC was of considerable assistance to me in the detailed preparation of my thesis: "The Greater Somaliland Movement, a study in the strategic significance to the United States".

Based on my personal observation and knowledge, I feel that Mr. MAKSYMIEC is eminently qualified for specialized work in the field of intelligence. He would be particularly valuable in all phases of photography, and in collection, evaluation, or dissemination of Intelligence. His investigative ability, particularly in the fields of map reading, geography, order of battle, or technical subjects is outstanding. He has the unique ability to collect and assemble pertinent facts and to prepare clear and concise written reports."

Enclosure No. 3, Page 1

During the period 1954 through 1956, I was assigned by Army Attache System, G2 Intelligence, Department of the Army, to conduct, direct, establish photographic center and perform specific photographic assignments in Ethiopia, Africa.

Mission and Tasks

During this period I directed and participated in photography of selected areas, equipments, training film, and selected subjects.

I modified and planned the installation of photographic equipments that were faced with situations of excessive heat in some instances and of severe low temperatures in others. These conditions were also subject to abnormal influences.

It was essential that I had a thorough familiarity with the mission objectives that would permit me to plan the photographic recording and reporting on film within a minimum of interference with program operating sequences. This required me to participate with operating officials, engineers, scientists, as a member of the team in order to define the capabilities and limitation of cameras and equipment to the total planning of the specific program. This broad knowledge permitted me to utilize my abilities, imagination, and creative ability to fully develop the photographic aspects.

I determined the kind of film, position, camera coverage, background, etc.

I developed the workload schedules based on mission requirements, priorities, manpower, and the degree of ability available.

I reviewed quantity and quality of work performed by means of visual inspection and by discussions with team leaders, particularly where problem areas existed or the mission was one with unusual scope and objectives.

I was responsible for the procurement of photographic equipment and supplies necessary for the assigned mission. This responsibility also included the repair and maintenance of all equipments in use.

I maintained progress charts for all tasks, programs, missions, that indicated the status of installation, filming, reproduction actions for each task/program.

I directed the reproduction phases of the foregoing filming as indicated in Enclosure No. 2.

Artistic Segments

I exercised artistic and creative ability in using photography as a means of communication of information, historical, splendor, etc., to fulfill educational, military, international objectives.

I exercised control of the settings, actions of the event to be photographed. I suggested actions/behavior of principals; selected backgrounds; rehersed actions prior to photographing events.

Training

I conducted orientation and briefing courses for U. S. personnel in basic-advanced photography and basic-advanced laboratory techniques.

(2) Letter of Appreciation - State Department to Department of the Army:

"Whether this is unusual or whether you can appropriately pass this letter on to officials concerned in the Department of Defense I do not know. But I do want to write the strongest sort of commendation of the work of Master Sergeant Myroslaw A. Maksymiec. Sergeant Maksymiec was associated in the Office of the Army Attache here in Addis Ababa, particularly for the purpose of photographic coverage.

It would please me if you would be able to forward this letter of mine to appropriate officials in the Defense Department. I know that Colonel John D. Townsend, who was the Army Attache here during practically all of Sergeant Maksymiec's service, would agree with me both in my estimate of the Sergeant's usefulness and efficiency and in seeing to it that this letter of commendation be endorsed in the Defense Department.

At the present time Sergeant Maksymiec is assigned in the photography laboratory in the Pentagon. Undoubtedly he is making a fine contribution there. I do know that he was of vast importance to our total American operation here in Ethiopia, not only military, while he was stationed with the Army Attache in Addis Ababa. He is a competent, cooperative, and persistent workman in attaining desired goals. His photographic output is way above average, both in quantity and quality. The Army Attache system, based on my observation of Sergeant Maksymiec's work in Ethiopia, stands in very great debt to him."

(3) Letter of Appreciation. Corps of Engineers, U. S. Army Map Service to Department of Army - Intelligence:

"During his recently completed tour of duty in the office of the Army Attaché, Ethiopia, M/Sgt. Myroslaw A. Maksymiec, was able to make an outstanding contribution to the Engineer intelligence and photography holdings on that country. The material he acquired and gave to the Engineers for reproduction was of quality and quantity far exceeding that which has normally been received from similar sources.

Considering the nature of the country in which M/Sgt. Maksymiec served, the material acquired could only have been obtained as a result of an enterprising, ~~persistent~~, and determined effort on his part.

A great number of the photographs taken by M/Sgt. Maksymiec have been retained by the Engineers to be used in Engineer intelligence studies. Favorable comments following his debriefing were due largely to the accurate and current information supplied by him.

Since satisfaction of Engineer requirements undoubtedly constituted only part of the overall duties of the Attache, Ethiopia, M/Sgt. Maksymiec's alertness and enthusiasm towards collection of materials of Engineer interest are greatly appreciated. He has made an invaluable contribution to the Engineer Intelligence and mapping effort.

It is requested that this letter be made a part of M/Sgt. Maksymiec's official records."

During the period 1950 through 1953, I was the Supervisory Photographer for Chief of Photographic Laboratory for the Department of the Army, Office of the Army Attache, American Embassy, London, England.

Mission

Direct the technical operations of Technical Photographers and Photographic Laboratory Technicians. Operations included all of European Theater.

Training

I conducted regular seminars on all aspects of photography and photo laboratory techniques for personnel assigned to the European Area.

Operations

I performed the basic operations as indicated in Experience 18-3 - Mission-Tasks and Artistic Segments. In addition to the foregoing I supervised specialists and technicians' efforts in high volume reproduction of film that averaged over a million feet (black/white/color) of motion picture film.

Equipment utilized was the latest Eastman-Kodak, Bell and Howell, and Houston Fearless printing and processing equipment.

In directing this effort I worked in close coordination with motion picture producers in the planning and organizing the photographic aspects of specific task/program. It was my duty to plan work and secure esthetically perfect photographs that will permit achieve attainment of task/program objectives. This required the ability and judgment in varying processes, also in the utilization of equipment that transcended the normal processes and procedures in order to produce effects that would spotlight the task/program objectives which the photograph was designed to produce.

[illegible]

1. [illegible] in reference [illegible] I would like to [illegible] (1) [illegible] (2) [illegible] for the promotion action taken in the cases of [redacted] [redacted] [illegible] as you know I consider [illegible] merit this recognition of their service and contribution.

2. In connection with (3) [redacted] whose recommended promotion from grade GS-13 to [illegible] approved by the KUDOVE Career Service, I consider, as we discussed in Washington during October, that the equities in favor of [illegible] [redacted] are quite strong. I have discussed the Board's action with [redacted] and while he has accepted it with his usual unfailing and commendable well-disciplined decency, he cannot, of course, help but feel a certain disappointment and this action cannot help but raise grave doubts in his mind [illegible] exactly what future in KUBARK he can look forward to. Although [redacted] has not himself made any request or comment that [illegible] action be taken concerning his promotion, I would like to submit for your consideration the following comments concerning him. [redacted] is in fact an excellent and a valuable officer. While it is quite true that he in all probability will never be among the very small percentage of outstandingly competent officers in KUDOVE, I consider him well above the average and certainly a more valuable officer in many ways than the average GS-13 [illegible] or KUBARK as a whole. This judgment is based not on [redacted] personal traits which are exceptional but on his consistent day-to-day contribution to the operations and administration of the Base and with the full realization of the fact that quite properly KUBARK promotions presently are being granted on much stricter standards than in the past. While [redacted] will never be completely at his best in the direct handling of [illegible] of agent cases, he has shown far more competence at this than most [illegible] officers and there are numerous responsible positions in [illegible] organization that he is capable of filling more than adequately. [redacted] as you know is a mature, experienced individual who has held responsible positions in the past and who handles himself quite well both inside and outside [illegible]. He was recently ([illegible] September 19[illegible]) commended by

Dick Helms

[redacted] [illegible] and this was a well-deserved recognition not only of his performance in connection with the operation but as a reflection of his consistent performance since he was assigned here in August 19[illegible]. The recommended promotion of [redacted] was first submitted on [illegible] January 19[illegible] and was warmly concurred in by COS. Further, while as you know I do not believe that time in grade should ever be a controlling factor in any promotion, I [illegible] that [redacted] [illegible] and conscientious service with KUBARK and the fact that he has been in his present grade for almost [illegible] years substantially increase the equities in favor of his promotion at this time. Considering the above factors and [illegible] particularly our [illegible], which I believe is well-warranted, [illegible] [redacted] as a superior officer when compared with officers of that level.

breakdown in [illegible] as well as the demonstrated fact that he is seriously [illegible] [illegible] to his [illegible] value to the organization. I would like to urge that the action of the Career Service Board in [redacted]'s case be reconsidered at this time.

3. If you agree and if you consider it appropriate I would appreciate your resubmitting this case immediately to the Career Service Board with a strong request that their disapproval action be reversed. If you do not concur or if you feel that this is not a sound move for tactical or other reasons, I would appreciate your advice as to acceptable timing on resubmitting the recommendation of [redacted]'s promotion. As a matter of interest, I would appreciate some indication of the reasoning of the [illegible] Career Service Board in disapproving [redacted]'s promotion.

4. It is suggested that COS may desire to comment separately on this case.

Promotion of • REDSOX

1. Recommendation is made hereby for the promotion of Subject from grade GS-13 to grade GS-14. Subject was assigned to MOB as Chief of the Soviet Operations Section in February 1951 charged with the overall direction of the REDSOX operational effort into the USSR. In May Subject took over as Chief of the Combined Soviet Operations Base in MOB responsible for the joint ZACANTH-ZACACTUS effort. Into this ever increasing area of operational and executive responsibility Subject has brought a high order motivation, outstanding drive, and excellent operational know-how. His devotion to a task nothing short of monumental and replete with frustrations is worthy of considerable commendation.

2. As Chief, CSOB, Subject is in direct command over approximately 80 ZACANTH and ZACACTUS personnel including a very large training installation at KAT 60 miles away from MOB Headquarters. Most of this personnel has reported at MOB during the past eight months and most of it has been newly recruited and completely inexperienced in the intelligence field. Subject has met the challenge of the problems thus posed, along with those attendant upon a broad operational effort, with commendable success.

3. Subject confronts the future of REDSOX operations with a clear concept of the operational problem and a concise definition of our capabilities in coping with it. If anything, the responsibilities he will have to shoulder will be greater.

1. Mr. David E. Murphy, on the basis of proved capabilities, has been assigned in Washington as Chief of the FDS/Far East Section, to Slot Number 1 of the FDS/Far East Headquarters T/O, after having returned from a field assignment of 25 months' duration at FRU/FEC. Since the inauguration of the REDBIRD program on 1 February 1950, he has served as Chief of the Soviet Operations Section in Japan and prior to that was the chief Soviet operations specialist at FRU/FEC.

2. As Chief of FDS/Far East Section he has final responsibility, subject to the approval of the Chief, FDS, for all FDS operational activities in the Far East and for all FDS operations conducted within that portion of the USSR east of the Ural mountains. In connection with his work he is responsible for the recruitment, training, and overall direction of staff employees assigned to the Far East Section at headquarters and those assigned to the Soviet Operations Section at FRU/FEC as well as for the planning, directing, implementing, and support of all operations indicated above. When the full T/O strength has been reached, there will be a total of 14 staff employees under his supervision.

3. Mr. Murphy is particularly well qualified as Chief, FDS/Far East Section in terms of linguistic ability, knowledge of the USSR, wartime and post-war operational work, and administrative and executive experience as Chief, Soviet Operations Section, FRU/FEC. His performance during the time he has been in FDS has been outstanding in every respect and it is strongly urged that adequate recognition of his past work and present capabilities be given by promoting him to the grade of GS-13 authorized for the position he is now holding. Mr. Murphy has been in the grade of GS-12 for two years and three months.

4. Attached is a memorandum from FDZ covering subject's performance as a member of that Division and concuring in the desirability of his promotion.

1. We fully endorse the estimate of Roland L. JEWETT's qualifications and accomplishments set forth in referenced dispatch. However, the Promotion Board is at the present time unable to consider his promotion because of the following:

a. He has been in the grade of CAF-12 since 5 April 1948. This is several months short of the minimum time in grade necessary to be considered for promotion.

b. The grade of CAF-13 generally requires more than one tour of duty with the organization.

TO : OSO Promotion Board Attn: Mr. [illegible]

DATE: 10 May 1949

FROM : Acting Chief, FBZ

SUBJECT: Promotion of Mr. David E. Murphy

Attachment: 1. Dispatch, Tokyo to Chief, FBZ, Subject: Promotion of David E. Murphy, ZJTA-463, dated 21 April 1949

1. Attachment 1. forwards a recommendation for promotion of Mr. David Murphy, intelligence officer, CAF-12, Military Liaison Unit, Tokyo.

2. The Branch fully endorses the estimate of Mr. Murphy's qualifications and accomplishments set forth in Attachment 1. He is one of our most industrious and accomplished case officers. With respect to his promotion at this time the following considerations are pointed out:

a. He has been in the grade of CAF-12 since 5 April 1948. This is five months short of the minimum time in grade necessary to be considered for promotion.

b. While reorganization of our field T/O's in the Far East will come about in the next several months, there is at present no CAF-13 slot in the Tokyo Liaison Unit.

c. To consider Mr. Murphy for promotion as a general intelligence officer of this grade he would have to be considered capable of taking over a branch or division and as a rule proven as a chief of a fairly large field establishment. While the subject may potentially have qualifications for these his experience within the organization has not yet included such assignments.

3. It is recommended that subject not be considered for promotion at this time.

OPF

1. As Mr. David E. Murphy, GS-18, retires on 31 July 1975, he will have completed some 33 years of Federal service, 27 of which have been with the Agency. His record has been an outstanding one in all respects. His accomplishments and the level and range of responsibilities he has exercised fully warrant the award of the Distinguished Intelligence Medal in recognition thereof.

2. Mr. Murphy brought to the Agency from his previous military and civilian experience and study, a knowledge of the Russian language and of the Soviet system. It was in the field of Soviet operations that he rapidly made his mark, first in Japan and then in Germany. His incisive mind, vitality, enthusiasm, imagination, managerial talent and keen analytical ability led to early recognition on the part of his superiors that Mr. Murphy was an outstanding officer with very high potential. By 1954, he had risen to the position of DCOB, Berlin and in 1959 became Chief of that large and important base. He distinguished himself there. In recognition of his abilities and accomplishments he then rose successively to the position of DC/EE Division, C/EE Division, C/SR Division and C/SB Division. Each assignment was one of increasing responsibility and challenge in the direction of efforts of the Clandestine Service and the Agency against our hardest targets. The laudatory fitness reports he received from top Agency management in these assignments clearly reflect the high professional regard in which he was held and convey the judgments of the major significance of the contributions he made to the Agency mission in support of U.S. policy and national security.

3. After revitalizing and redirecting our Soviet program as C/SR and of the enlarged SB Division, Mr. Murphy was appointed COS, Paris in 1968 and served in that position until 1974. His six years in Paris were marked by steady progress in all areas of the missions and objectives assigned to that large and complex station and by the handling of delicate political and internal crisis situations in France effectively and to the benefit of the Agency and the United States. His analyses of the situation in France at times of tension and crisis were particularly remarked upon for their clarity, incisiveness and value to U.S. policy makers. For his leadership of the Paris Station, Mr. Murphy's performance was characterized as "Outstanding" in each of the years of his service there.

CONFIDENTIAL

4. Mr. Murphy returned from France in 1974 and was assigned as a National Intelligence Officer with responsibility to the DCI in the area of Special Activities. He has served in this assignment of high trust and responsibility until his retirement.

5. Mr. Murphy's long, distinguished career has been exceptional in contributing to the mission of the Agency both operationally and substantively. His dedication, drive and intelligence led to high achievement in all of his assignments and to his being entrusted with ever-increasing responsibilities. It is strongly recommended that he be awarded the Distinguished Intelligence Medal in recognition of his outstanding service in the CIA.

COMMENTS OF REVIEWING OFFICIAL

Under Mr. Murphy's leadership the Paris Station became very operationally oriented, concentrating on high priority targets, and much exceptionally fine intelligence and counterintelligence production resulted. I have some doubt that these operational successes - as outstanding as they were - really required the total number of personnel of all categories who were committed to them. Nevertheless, Mr. Murphy made Paris a shining example for all other large stations.

SUBJECT: David E. Murphy

Employee No.: 056700; Grade: GS-18; DOB: 23 June 1921; Chief of Station, Paris; Months under my Supervision: 14; Period under Review: 1 April 1973-1 June 1974.

OVERALL RATING: OUTSTANDING

1. At the end of May 1974, Mr. Murphy will leave Paris after a most successful six-year assignment as Chief of Station. He distinguished himself by having molded this Station into a cohesive, well-disciplined, and highly productive unit. I reiterate my evaluation of Mr. Murphy as, overall, the most effective chief of a major station in the European Division. His earlier fitness reports and his excellent record in Paris attest to this.

2. In the past year under Mr. Murphy's direction, the Paris Station has continued to make significant progress on all major fronts. As examples, I can cite two direct Soviet recruitment attempts, an imaginative effort to get closer to several other primary Soviet targets, a perceptible improvement in our French liaison relationships, a marked increase in both quality and quantity of priority economic intelligence reporting, the acquisition of new sources to cover the French internal scene, and a revitalization of several existing assets into producers of valuable intelligence. Although normally most of the credit for such achievements rests with the individual operations officers concerned, in Mr. Murphy's case he personally becomes involved in each

operation and therefore the cited progress is a direct reflection of Mr. Murphy's talent and skill as a dynamic operational manager. Paris is a sprawling metropolitan area where operating obstacles, particularly those relating to access to ma~~jor ta~~rgets, are further exacerbated by sporadic French scrutiny of our activities. It is therefore all the more noteworthy that the progress made by the Station has been accomplished without any embarrassing flaps through Mr. Murphy's insistence that the highest standards of tradecraft be practiced by Station personnel and by visiting case officers.

3. Mr. Murphy can take considerable personal pride in his record in Paris. His personal concern with all areas of Station activity and his common-sense approach to both operational and administrative matters are indicative of this officer's competence as one of this Agency's most gifted and thoroughly professional senior officers. His wide range of interests, his wealth of operational engagement, his ability to make well-reasoned and prompt decisions, his aggressiveness, and his persuasiveness are all hallmarks of Mr. Murphy's superb performance. Although Mr. Murphy shows a lively impatience with bureaucratic roadblocks and cogently articulates his views on all issues, his correspondence with Headquarters is invariably presented factually and in a dignified and unemotional tone; this I have appreciated and would like to add that Mr. Murphy promptly implements Headquarters guidelines and decisions.

4. Mr. Murphy's performance clearly merits the rating of OUSTANDING.

OVERALL RATING: OUTSTANDING

1. Given the size of the Paris Station and the complexity of its diverse activities, on overall performance Mr. Murphy is rated as the most effective Station Chief in the European Division area. In the period under review, substantial progress has been made against all operational targets. Under Mr. Murphy's tutelage particularly noteworthy accomplishments are noted in the Soviet field against human targets and on a superbly executed technical penetration; in the area of liaison where Mr. Murphy has almost single-handedly developed productive relationships at senior levels and as testament to his efforts, successfully enlisted outstanding liaison support to a delicate CI investigation of primary interest to this Organization; and more recently, Mr. Murphy has effectively harnessed Station resources and assets to collect timely intelligence on economic topics, to move forward in the effort to thwart terrorism, and to furnish valuable reporting on the critical French elections of March 1973. Under his direction, the Station has acquired a number of productive and responsive assets in the past year, while other operational programs have improved upon their high quality/intelligence production record.

2. Mr. Murphy is a thoroughly professional senior intelligence officer who plays a very active role in practically all of the Station's operational activities. His incisiveness and keen analytical talent enable him to

make sound and well-reasoned judgments. It is to Mr. Murphy's credit that all Paris-based operations are run with the highest degree of professionalism and adherence to strict tradecraft procedures. Mr. Murphy has also acquired a wealth of knowledge and background on the local political scene; this is considered a valuable requisite for targeting purposes, for briefings and for maintaining his excellent relations with senior Embassy officers, including the Ambassador.

3. Given his long service in the European area and his grasp of European problems confronting the Division, exchanges with Mr. Murphy both personal and through correspondence have been extremely helpful in formulating Division operational policy.

4. Mr. Murphy clearly merits an overall rating of OUTSTANDING.

OVERALL RATING : Outstanding

My feeling that Dave Murphy has done an outstanding job as Chief of Station, Paris is so amply documented in the preceding Fitness Reports that this final report before I leave the Division need not be lengthily repetitive. It is useful to record, however, that during the last half of this year his Station has been deeply involved in the reporting and analysis of some highly sensitive developments on the French political scene. Much of the analysis of this situation has been handled by Dave himself, and has proven of real significance to our highest level customers. We have briefed a number of ranking officials in Washington on Dave's findings, and they have been uniformly appreciative. Dave therefore deserves credit for alerting Washington to a difficult situation concerning which the U.S. Government has had little or no information except from this Agency's sources.

Mr. Murphy's performance continues to be Outstanding.

NARRATIVE COMMENTS

(Attach additional sheets, if necessary for this section or for reviewing officer's comments.)

I first met Mr. Murphy following the assumption of my present duties at the end of March 1973. Therefore, I am in a position to comment on his performance only during the last seven months covered by this report. During that time, Mr. Murphy's performance has been thoroughly outstanding in every respect. During his years in France, he has developed a real expertise on this country, both in terms of how it functions and with regard to the manner in which France looks at the world.

Mr. Murphy has effectively directed and coordinated a large staff, and I have been particularly gratified at the extent to which his staff coordinates its reporting with other interested elements of the Mission. I am told by my DCM that, based on his experience, the coordination between Mr. Murphy's office and the substantive sections of the Embassy is better at this post than at any post he has known or heard of. This is in large part a direct tribute to Mr. Murphy's leadership.

I find I am calling increasingly on Mr. Murphy's advice in the preparation of Embassy assessments on a broad range of policy issues. His contributions have been perceptive and, by and large, accurate.

I consider Mr. Murphy one of a handful of my closest advisors in the Mission and hold him in the highest regard.

In my opinion, David Murphy has done an outstanding job during the period covered by this report.

I arrived to take up my duties as DCM in this Embassy in December 1971. However, since that time I have served as Chargé on a number of occasions and while, when the Ambassador was present, the Ambassador preferred to deal directly with Mr. Murphy and, as a result I had only collateral dealings with him, I feel I had more than ample opportunity to observe his performance and evaluate it. I can say without hesitation whatsoever that he performed in a superb manner during a particularly difficult period. He deserves top marks not only for his own performance but for the manner in which he directed those operations here in France for which he has had the responsibility.

NARRATIVE COMMENTS

(Attach additional sheets, if necessary for this section or for reviewing officer's comments.)

Mr. Murphy is an outstading officer in every sense. His advice and counsel have been of the utmost value to me and my executive staff throughout this rating period. He has excellent judgement, a quick mind and a thorough knowledge of France and French politics. And he has common sense, as well as a good sense of humor. His personal conduct is impeccable; his behavior, gentlemanly.

Mr. Murphy is widely known and respected in the French official and diplomatic community. His contacts are numerous and useful. He and his wife make an excellent representational team. He speaks excellent French.

Mr. Murphy's relations with other senior officers at the Embassy are cordial and harmonious. He is a good administrator and is well-liked by his subordinates, as well as his collegues.

In sum, I am delighted to have Mr. Murphy on my staff and consider him an officer of the highest calibre.

1. During the reporting period, Mr. Murphy has continued his usual virtuoso performance. The Station has been very heavily occupied in one degree or another against most of the hardest targets, and Mr. Murphy has been fully on top of everything that has gone on.

2. Particularly worthy of note is the manner in which Mr. Murphy has raised the level of our liaison in France, taking advantage among other factors of a change for the better in the leadership of the external service. Although this situation has certainly been favorable, it could not have been exploited so fully had it not been for Mr. Murphy's rare combination of charm, persuasiveness, and a superb professional background.

MONTHS UNDER MY SUPERVISION: 20 months

OVER-ALL RATING : Outstanding

1. Mr. Murphy has been Chief of Station, Paris, for approximately twenty months. During his tenure, this, perhaps the most difficult of all stations, has become a rationally deployed, well-articulated and generally successful organization for perhaps the first time in its history. Intensive efforts are being mounted against virtually all assigned targets with satisfying success, in some cases producing unique results. Liaison relationships, which began to thaw before de Gaulle's departure from Government, are now reasonably cordial and, above all, useful. Most of the credit for the splendid progress that has been made is directly due to Mr. Murphy himself.

2. Dave Murphy is completely oriented toward operational achievement. He has an incisive mind, enormous vitality, and enthusiasm. He is positive, impatient, forceful and articulate. He can absorb and integrate detail, and bring focus on difficult problems. He inspires both colleagues and subordinates to give their best efforts. He is fully responsive to guidance and indeed will often seize the initiative when new courses of action are indicated.

3. It would be difficult to describe the minor miracle that Mr. Murphy has wrought as anything short of outstanding.

PERIOD UNDER REVIEW : 1 April 1968 - 31 March 1969

MONTHS UNDER MY SUPERVISION : 12

OVERALL RATING : Outstanding

1. Long before Mr. Murphy departed for Paris in June 1968, he began preparing himself for this assignment as Chief of Station by reading files, interviewing personnel, and discussing cases. As a result, on arrival in Paris he was already well oriented concerning the Station's problems and had formulated plans for revitalizing it.

2. The entire year in Paris has of course been overshadowed by the Vietnam Peace Conference and a large proportion of the Station's effort has perforce been devoted to supporting the U.S. delegation. The Station has responded exceptionally well to this demand though it has forced a slow-down in normal Station activities.

3. A number of other events have also taken place in France or concerning France which have forced the Station during the past nine months to perform firemen's duty -- the May-June riots which extended into August, the dissolution of the Assembly and re-election of deputies, the Czech crisis beginning 21 August, the December monetary crisis, the Near East crisis, continued student unrest, the President's trip and currently the problems precipitated by DeGaulle's resignation. All of these developments have been covered amazingly well.

4. While the exceptional events enumerated above have forced the Station to concentrate its efforts on the immediate issues, Mr. Murphy nonetheless proceeded with the longer range goals of the Station. He has worked at improving relations with the French Services, personally becoming deeply

13 MAY 1969

involved even in routine liaison activity. Consequently, our relations during the past nine months with the French have improved considerably. This improvement can partially be attributed to a reawakening on the part of the French Government to the Communist and New Left threat (which was brought into focus by the May-June riots) but it was also in large measure due to Mr. Murphy's concerted efforts to cultivate selected officials, initiate substantive discussions and increase our own level of exchange with the Services.

5. Operations against the Communist Party have been reactivated with emphasis on the international aspects of the Party, particularly support of subversion abroad. Operations against the large Soviet and Chinese targets are beginning to move ahead. Production-wise, the take from both unilateral sources and liaison increased significantly during 1968. We expect further increase in 1969.

6. There are still many weak spots in the Paris Station and many refinements and adjustments to be made. But Mr. Murphy has made an exceptional beginning; the Station is moving in the right direction and during this coming fiscal year we should begin to see the worth of the programs which are being so energetically pursued by him. Without question, his performance has been Outstanding.

LANGUAGE TRAINING OBJECTIVES AND METHODS

The general aims of language training are attainment of proficiency in speaking, understanding, reading and writing. The specific objectives are (1) ability to produce and distinguish the sounds of the language; (2) ability to use a stock of basic sentences and expressions; (3) ability to recombine the elements of basic sentences and expressions and to apply them to new situations; (4) ability to comprehend the language spoken at normal speed in various situations; (5) ability to write and read the language commensurate with ability to speak.

Methods used in all courses stress oral drills and free conversation based at first on memorized material and, at a later stage, on varied reading materials. Written and oral tests are given at intervals. Listening to and recording on tapes in the Language Lab is essential for class preparation.

Participant	: David E. Murphy	Office	: C/SB
Year of Birth:	1921	Service Designation:	D
Grade	: GS-18	No. of Students	: 18

COURSE OBJECTIVES, CONTENT AND METHODS

The COS Seminar is aimed to prepare prospective Chiefs and Deputy Chiefs of Station and Chiefs of Base for field assignments. Emphasis was upon the difficulties confronting Chiefs of small or medium-sized installations, since they must handle a peculiarly wide range of problems. Included were case studies serving to remind outgoing chiefs of various operational approaches and techniques, but more time was devoted to policy, coordination, management, reporting, and administrative responsibilities of the Chief of Station, both within CIA and in the government at large, at home and abroad.

The bulk of the course is given in lectures and question periods conducted by officials responsible for the missions, functions, programs, and services discussed. A few key items of suggested reading are included, and bibliographies of suggested reading tailored to the individual's assignment are offered for those who want them.

SECTION B — PERFORMANCE EVALUATION

SUBJECT: Mr. David E. Murphy

1. This report covers the performance of Mr. Murphy as Chief of the SR Division for the past year.

2. The past year has seen a measurable increase in the work load of the SR Division, with no let up in the energetic efforts of the Division to accomplish its mission. A number of new audio operations have come into being and the support rendered the Division by the other area divisions has been a reflection of the success of Mr. Murphy's program to enlist the interest and the energies of the other area divisions in attacking one of our principal targets.

3. Mr. Murphy has now assumed new responsibilities as chief of a substantially enlarged division including the satellites as well as the Soviet Union. This is a tribute to his own outstanding management of his division as well as a recognition of the close operational interrelationship between Soviet and satellite activities.

MEMORANDUM IN LIEU OF ANNUAL FITNESS REPORT
(For the period ending 31 March 1965)

SUBJECT: Mr. David E. Murphy

1. This report is the first full year report of Mr. Murphy's performance as Chief of the SR Division.

2. Perhaps his greatest contribution during this past year has been the energizing of the Division's several components with a consequent very noticeable increase in the efforts of the Clandestine Services as a whole against our Soviet targets. Mr. Murphy's enthusiasm and imagination have been contagious, and we are as a result profiting from his sound approach to the role and mission of his Division. He has fully understood the fact that the SR Division cannot alone discharge the responsibilities of the Clandestine Services for intelligence and counter-intelligence activity against our Soviet requirements, but must harness the interest and the energies of all the area divisions. In this respect, Mr. Murphy is achieving nothing short of remarkable success. His arrangements with DODS are also improving the quality of that Division's work in the SR field, while his general administration of his Division from a managerial point of view has continued to be excellent.

3. The overall evaluation of Mr. Murphy's performance during this past year, including his regard for cost and manpower factors, is outstanding. It is because of the quality of this performance that favorable consideration has been given in principle to the gradual investment of an increasing portion of the manpower assets of the Clandestine Services to his Division. His plans and his accomplishments to date justify confidence that these increases are being well invested and will provide a maximum return.

SUBJECT: Mr. David E. Murphy

1. Mr. Murphy relinquished his duties as Chief, Eastern Europe Division in September 1963 and took over his present responsibilities as Chief of the SR Division at that time. This report covers the period from 1 April 1963 to the present and thus includes comments on his performance as Chief, EE Division and Chief, SR Division.

2. Mr. Murphy combines an extraordinary talent for this work with a considerable and varied experience in it. His previous report indicated that he was turning in an outstanding performance in dealing with the affairs of the EE Division, and he continued this level of his performance in the first six months covered by this report. A general reorganization of senior officers in the Clandestine Services offered the opportunity to put Mr. Murphy in charge of the division which he had long aspired to direct and for which position he was eminently qualified, both linguistically and by field experience. He is showing excellent results in refurbishing the Division and giving it new life and impetus. His considerable energies enable him to give an outstanding performance in managing and directing his Division's affairs while at the same time engaging personally and most actively in a number of very important Divisional cases. His competence includes awareness of the need for keeping his costs down and getting the maximum from his manpower. He is showing imagination and initiative and is probably the best qualified and best prepared officer ever to head the Division.

SUBJECT: Fitness Report - Mr. David E. Murphy

1. This memorandum is in lieu of the Fitness Report Form on Mr. Murphy and covers the period from 1 April 1962 through 31 March 1963, during which Mr. Murphy has served as Chief of the Eastern Europe Division.

2. After a long series of assignments dating from April 1948 and involving duty at Tokyo, Yokosuka, Karlsruhe and Berlin where he served as Chief of Base of that important installation, Mr. Murphy returned to Headquarters in August 1961 as Deputy Chief of the EE Division and became Chief of that Division in June 1962. I should like to quote from the fitness report on Mr. Murphy written at the time he was assuming his new responsibilities as Chief of EE Division: "There is every reason to believe that Mr. Murphy will manage the EE Division in the same outstanding manner with which he won the ungrudging respect of the Berlin community as the leader of American intelligence in that area." A previous fitness report covering his first year as Chief of Base, Berlin is equally laudatory.

3. In his responsibility for streamlining and improving the effectiveness of his Division in both its headquarters and overseas postures, Mr. Murphy has been energetic and imaginative. He is an authority on the situation in West Germany but particularly in Berlin and has played a highly useful role in government councils on these problems. He has excellent working knowledge of Russian, French and German, and his operational experience as a result

of his field assignments is truly *extensive*.

4. In conducting the affairs of his Division during this past year, Mr. Murphy has without question borne out the prediction that he would turn in an outstanding performance. He has done this and continues to do it.

MEMORANDUM FOR: Director of Personnel

SUBJECT: David E. Murphy

1. Murphy's performance since he became COB Berlin last summer must be almost as well known to Headquarters as it is to me. His projected assignment as Deputy Chief EE, then the realization that his continuation in Berlin is essential, and later still his detail to the Paris conference as the KUBARK referent on Berlin all recognize different aspects of his remarkably high qualifications.

2. As COB Berlin he is a worthy successor to William K. Harvey; he is fully on top of the job. This was expected, but in addition he has shown an astonishing virtuosity in the field of coordination, in which his pioneering work has set a fine example for the rest of KUBARK overseas. In a few months he learned more about the totality of American intelligence in Berlin than anyone would have supposed possible; then he used his knowledge with great diplomatic skill to bring about one improvement after another. The successful reform of the Marienfelde situation followed his suggestions, with the whole community willingly cooperating once he had demonstrated the advantages to be gained. He knows more of both the big picture and the small details of Army operations than the Army's own local commander (to say nothing of all higher echelons) and with this knowledge has already improved the Army's product, for example in providing detailed briefs which the Army system is not geared to supply. His grasp of the whole subject, his ability either to generalize usefully or to go into deep detail as appropriate, his speed and thoroughness in attacking the many problems are all demonstrated in the series of brilliant memoranda which have come from him for many months. In addition I have several times witnessed his impressive skill in negotiation, in bilateral discussion with one or other colleague in Berlin, in meetings of the ICCB, in presentations before the [illegible], and in particularly delicate dealings with Maj. General Van Natta. It is quite clear that he has won the ungrudging respect of the whole community as the leader of American intelligence in Berlin.

IF YES, EXPLAIN FULLY: While I do not consider that Subject is better suited for any other type of position than the one he now holds and the one that has been recommended for his next assignment, it should be pointed out that he is an unusually versatile officer capable of performing with distinction any one of a wide range of [redacted] assignments, both in the field and at Headquarters.

Section C, Paragraph 2 (Specific Duties):

	Rating No.
Duty No. 1: Directs as Branch Chief a large (30 officers and clerical employees) operational branch engaged in all phases of Soviet operations including handling some of the most complex and valuable such operations [redacted] C/A has.	6
Duty No. 2: Serves as Chief of Operations, Deputy Base Chief, and frequently Acting Chief of Base, BOB.	6
Duty No. 3: Directly runs agents in espionage and counter-espionage cases.	6
Duty No. 4: Plans, implements, directs and analyzes Soviet CE operations of the most complex character.	7
Duty No. 5: Conducts liaison with other Bases and units of C/A [redacted] and with other U.S. agencies.	5
Duty No. 6: Trains and develops younger officers on a supervisory and tutorial basis.	6

Section C, Paragraph 3 (Narrative Description):

Subject is C/A without question one of the most outstanding operations officers in [redacted] He is distinguished by his drive, the incisiveness of his approach to operational and other problems, the depth of his operational understanding, the soundness of his operational judgment, and his broad, almost unique, knowledge of Soviet matters, particularly in the counter-espionage field. He is a brilliant CE officer, an outstanding agent handler, and an excellent executive, and has fully demonstrated his capabilities in all of these fields during the almost four years he has been assigned to BOB. These abilities, plus his unusual language capabilities and his broad and detailed area knowledge, make Subject, in my opinion, one of the most valuable, versatile and effective officers in [redacted]. CIA The only weaknesses I have noted in Subject during the almost four years that I have been completely and intimately familiar with his work on a daily basis, are a tendency at times to be too impatient with other officers particularly those who do not begin to measure up to his very high standards of performance, and an occasional tendency to be somewhat undiplomatic in his handling of personnel. It should be clearly pointed out, however, that neither of these factors are of sufficient importance or weight to, in any material way, decrease the effectiveness of Subject's consistently fine performance and are, in my opinion, merely the inevitable corollary of Subject's great drive and intense dedication to his profession. It also should be pointed out that while Subject is an exacting supervisor, he is never unreasonable nor in any sense dictatorial, and he has demonstrated the capacity of quickly developing and retaining the full loyalty, cooperation and respect of the officers with whom he works. It is, I think, significant also that the respect which other officers hold for Subject increases in direct proportion to the level of professional competence and experience which these officers attain.

In assessing Subject's performance and capabilities, it should be pointed out that he has been officially recommended for promotion from grade GS-15 to grade GS-16 and that he has been officially recommended to succeed the present incumbent as Chief of Base, BOB. Further comments concerning Subject in this connection are contained in EGBT-1003 dated 28 September 1958, the covering dispatch to this Fitness Report which should be read in conjunction therewith.

ATTACHMENT TO FITNESS REPORT (PART II) POTENTIAL

Section E, Paragraph 13:

•• This report in addition to being an Annual efficiency report should be read as a recapitulation and full analysis of Subject's performance since his assignment to BOB in December 1954 and of his present capabilities and future potential in support of the official recommendation that he be promoted from grade GS-15 to grade GS-16 and that he be made Chief of Base, BOB, upon the departure of the present incumbent.

Section G, Paragraph 4:

CIA

Subject has clearly demonstrated the potential for becoming a most senior [redacted] executive. He is fully capable now of directing with full effectiveness a large, complex field Base or Station and, with the minimum of familiarization, capable of performing any one of a number of senior executive positions at Headquarters. I consider Subject to be one of that very small handful of most capable [redacted] CIA officers who should ultimately occupy the key executive positions in [redacted]

DDP

Section H, Paragraph 1:

Subject does not need additional training. It has been recommended that he be made Chief of Base, Berlin, for his next assignment. Upon the completion of that assignment he should, in my opinion, return to Headquarters and, if possible, assigned as Deputy Chief of a foreign area division with the view to his becoming Chief of such division at the appropriate time, or occupying another suitable position of similar stature within [redacted]. DDP After a reasonable Headquarters' assignment within this framework he should, however, be reassigned to the field as Chief of a major [redacted] station where his great abilities in the planning, development, and implementation of espionage and counter-espionage can be brought to bear with maximum impact. In any event, whatever assignment Subject may be given in the future, either at Headquarters or in the field, should involve direct operational and/or operational/supervisory responsibilities. Given the very small CIA number of [redacted] officers who have attained, or are likely to attain, Subject's level of competence, and given Subject's intense personal preoccupation with the operational side of [redacted] work, I do not believe that [redacted] can afford to use Subject on any non-operational or non-operational/supervisory assignment for any length of time.

This section is provided as an aid in describing the individual. Your description should not be considered favorable or unfavorable of itself but acquires its meaning in relation to a particular job or assignment. The descriptive words are to be interpreted literally.

In the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. Each category is divided into three small blocks. This is to allow you to make finer distinctions in your description. Look at the statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

1. A STATUS AND EFFICIENCY REPORT COVERING EACH CIVILIAN EMPLOYEE IN THE FIELD WILL BE RENDERED BY SUCH EMPLOYEE AND HIS OR HER IMMEDIATE SUPERVISOR ON 1 JUNE OF EACH YEAR ON THIS FORM. EACH EMPLOYEE WILL EXECUTE ITEMS 1 TO 6 INCL. SIGN THE FORM AND DELIVER SAME TO HIS REPORTING OFFICER FOR COMPLETION OF THE EFFICIENCY RATING AND FORWARDING TO WASHINGTON HEADQUARTERS NOT LESS THAN 10 DAYS AFTER CLOSE OF REPORTING PERIOD.

A. THE REPORTING OFFICER IS DEFINED AS THE EMPLOYEE'S IMMEDIATE SUPERVISOR, IN OTHER WORDS THE PERSON WHO IS PRESUMABLY BEST ACQUAINTED WITH THE EMPLOYEE'S WORKING EFFICIENCY. HOWEVER, DEPENDING UPON CIRCUMSTANCES, THE CHIEF OF STATION MAY NOT WISH TO ENTRUST THE IMMEDIATE SUPERVISOR WITH THIS RESPONSIBILITY. IN ANY CASE, THE CHIEF OF STATION WILL CHANGE OR MODIFY THE RATING OF THE REPORTING OFFICER WHEN SUCH CHANGES OR MODIFICATIONS ARE CALLED FOR. THE CHIEF OF STATION IS ULTIMATELY RESPONSIBLE FOR THE ACCURACY OF FACTS AND STATEMENTS WHICH APPEAR ON THE STATUS AND EFFICIENCY REPORT. IN MANY CASES, ESPECIALLY IN A SMALL UNIT, THE CHIEF OF STATION MAY WISH TO FILL OUT ALL THE REPORTS HIMSELF.

2. IN ADDITION TO THE ANNUAL REPORT, THE FOLLOWING SPECIAL REPORTS, UTILIZING THE SAME FORM, WILL BE RENDERED.

A. UPON COMPLETION OF FIRST NINETY (90) DAYS OF SERVICE AT A STATION.

B. UPON RELIEF OR REASSIGNMENT OF REPORTING SENIOR.

C. UPON DETERMINATION OR RECOMMENDATION THAT AN EMPLOYEE IN A FIELD STATION SHOULD BE REASSIGNED TO ANOTHER STATION OR RETURNED TO U.S. FOR REASSIGNMENT OR OTHER DISPOSITION. SUCH REPORT WILL BE FORWARDED SO AS TO REACH THE WASHINGTON HEADQUARTERS AT THE EARLIEST POSSIBLE DATE AFTER SUCH REASSIGNMENT DETERMINATION IS MADE. IF POSSIBLE, THE REPORT SHOULD BE SENT IN AT LEAST THREE MONTHS PRIOR TO PROPOSED REASSIGNMENT IN ORDER THAT ALL TIME POSSIBLE MAY BE DEVOTED TO APPRAISAL AND EVALUATION. IF CONSIDERATION OF REASSIGNMENT IS BEING GIVEN WITHOUT EMPLOYEE'S KNOWLEDGE, ITEMS 1 TO 6 WILL BE FILLED IN AS FAR AS POSSIBLE BY THE RATING OFFICER WITHOUT REFERRAL TO EMPLOYEE.

3. IN FAIRNESS TO THE INDIVIDUAL BEING RATED AND IN THE INTEREST OF THE GOVERNMENT, THE IMPORTANCE OF CAREFULLY PREPARED AND ACCURATE EFFICIENCY REPORTS CANNOT BE OVERSTRESSED. THE FOLLOWING BASIC PRINCIPLES OF RATING SHOULD ALWAYS BE KEPT IN MIND:

A. ALWAYS BASE YOUR JUDGMENT ON:

(1) WHAT YOU HAVE OBSERVED THE INDIVIDUAL DO OR FAIL TO DO.

(2) TYPICAL PERFORMANCE, NOT ON AN ISOLATED STRIKING INCIDENT.

(3) EXAMPLES RELEVANT TO THE CHARACTERISTIC UNDER CONSIDERATION.

(A) THE EFFICIENCY REPORT IS TO BE USED TO RATE ALL CIVILIAN EMPLOYEES. BUT REPORTING OFFICERS SHOULD BEAR IN MIND THAT DIFFERENT STANDARDS PREVAIL IN DIFFERENT ASSIGNMENTS WHEREAS IT IS NECESSARY, FOR EXAMPLE, THAT AN INTELLIGENCE OFFICER POSSESS INITIATIVE. THIS SAME TRAIT IS NOT ALWAYS DESIRABLE, EXCEPT IN A MINOR WAY, FOR A TYPIST. THE RATINGS AND EVALUATIONS SHOULD BE IN REFERENCE TO THE JOB - THE ACTUAL WORK ASSIGNMENT FOR WHICH THE PARTICULAR EMPLOYEE IS BEING PAID. EVERY EFFORT SHOULD BE MADE TO ARRIVE AT A JUST ESTIMATE OF THE QUALITIES OF THE PERSON REPORTED ON FOR THE PERIOD COVERED BY THE REPORT. AVOID EXAGGERATIONS AND SUPERLATIVES. THEY DETRACT FROM THE VALUE OF A REPORT AND ARE UNFAIR TO OTHERS.

B. BIASED OPINIONS BASED ON PERSONAL LIKES AND DISLIKES MUST BE SCRUPULOUSLY AVOIDED. IT SHOULD BE BORNE IN MIND THAT THE PREPARATION OF EFFICIENCY REPORTS IS AN IMPORTANT FUNCTION OF ALL SUPERVISORS OF EMPLOYEES, AND THE ACCURATE AND TRUE EVALUATIONS EXPRESSED THEREIN ARE A DIRECT REFLECTION UPON HIS OWN ABILITY AND QUALIFICATION FOR THE POSITION HE HOLDS.

C. NO REPORTS WILL BE RENDERED COVERING PERIODS OF LESS THAN 90 DAYS OBSERVED SERVICE.

4. REPORTS WILL NORMALLY BE CLASSIFIED CONFIDENTIAL; HOWEVER, THE CLASSIFICATION MAY BE RAISED IF DEEMED ADVISABLE BY RATING OFFICER.

5. REPORTS WILL NEVER BE SHOWN TO THE EMPLOYEE REPORTED ON.

DISPOSITION OF REPORTS

1. REPORTS WILL BE FORWARDED TO THE APPROPRIATE BRANCH CHIEF IN WASHINGTON HEADQUARTERS WITHIN TEN (10) DAYS AFTER THE CLOSE OF THE REPORTING PERIOD.

2. IF THE REPORTING OFFICER IS THE CHIEF OF STATION, REPORTS WILL BE FORWARDED BY HIM TO THE APPROPRIATE BRANCH CHIEF IN WASHINGTON HEADQUARTERS.

3. IF THE REPORTING OFFICER IS NOT THE CHIEF OF STATION, THE REPORT WILL BE REFERRED TO THE NEXT IN COMMAND FOR REVIEW AND FINALLY TO THE CHIEF OF STATION FOR FORWARDING TO WASHINGTON HEADQUARTERS.

4. UPON RECEIPT OF REPORT IN WASHINGTON HEADQUARTERS, THEY WILL BE REVIEWED BY THE BRANCH CHIEFS PROMPTLY AND THEN REFERRED TO THE ASSISTANT EXECUTIVE FOR PERSONNEL FOR RETENSION IN THE PERSONNEL FILE OF THE EMPLOYEE.

A. IF A CHANGE OF PERSONAL STATUS IS REPORTED UNDER SECTION 8, ONE COPY OF SUCH REPORT WILL BE DETACHED AND SENT TO THE SECURITY OFFICE.

Subject's aggressiveness and intense interest in the detail of his work, do at times, make it difficult for employee to work with some individuals on first contact. It was therefore necessary to rate him as only good under 9a. This Reporting Officer feels that this is no particular down-grading in this case because time usually heals any difficulties in this regard. Respect for the individual's abilities tends to override the personality weaknesses particularly with his close associates. This Reporting Officer considers this employee as outstanding in our field because, first, his intense interest, second, his inate ability and knack for the work, his training and background, and his great devotion

MEMORANDUM FOR: Mr. David E. Murphy

SUBJECT : Service in the Clandestine Services Records Committee

1. I wish to take this opportunity to thank you for your service as a member of the CS Records Committee. The contributions which you have made to our deliberations have been of considerable assistance to me and to the CS records program.

2. I believe that effective records and information systems are vital to the success of an intelligence organization and that the Records Committee plays an extremely important role in ensuring that these systems are consonant with more pressing and dramatic operational and policy requirements. The advice, assistance and participation of yourself and other senior officials have enabled us to meet our obligations and make steady improvement in this area. I hope I may continue to count on your suggestions, initiative and advice in this area in the future.

Supplement to Staff Employee Personnel

Action for Integration of DAVID E. MURPHY

Effective 20 March 1968

The purpose of this memorandum is to set forth existing policies of concern to you while integrated and to reiterate certain rights and obligations which derive from your true status as an appointed employee. It is hereby agreed and understood that:

1. As an employee of this organization, at the present grade and salary of GS18-$27,055. per annum, you will accept cover employment with another instrumentality of the Government (hereinafter referred to as "your cover facility") effective as of 20 March 1968. You will, insofar as consistent with your basic responsibility to this organization, abide by all the rules, regulations, practices and policies of your cover facility, in order to appear as a conventional member of that establishment. Your appointment to your cover facility is being effected as a FSR-1 at a salary of $24,944. per annum. You are prohibited, except as specifically authorized herein, from retaining emoluments paid by your cover facility.

2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of 2 Years from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of this organization and the length of your tour of duty, as currently specified, may be unilaterally changed by this organization in order to conform with subsequent changes in the prescribed tour of your cover facility. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed one (1) year of service from the date of your arrival at your overseas post of duty you will be required to reimburse the Government for all of its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of your cover facility. Such travel will be accomplished in conformance with applicable

regulations of your cover facility except when you are directed for operational reasons to perform travel in accordance with the regulations of this organization.

4. Salary and allowances paid by your cover facility shall be retained by you to the extent that they do not exceed the salary and allowance payment due you on the basis of your grade level with this organization. If such cover payments are less than the amount due you, the difference will be paid to you by this organization. If such cover payments exceed the amount due you, the excess amounts will be remitted to this organization at intervals to be designated by the Office of Finance. Computations hereunder will be based on the aggregate gross amounts due and received. That portion of retirement contributions withheld by your cover facility which exceeds the retirement contributions applicable to your organization salary will be deducted from the gross amount of the overpayment. Upon integration, the payroll office of this organization will establish the date on which you would normally receive a regular step increase from your cover facility. Failure to report a grade promotion received from a cover facility does cause errors in processing regular step increases. Regular step increases, incorrectly processed in such manner, should be reported immediately to this organization. To eliminate this problem, any grade promotion received from a cover facility will be reported immediately by you to this organization's payroll office through channels showing both the old and the new rate and the effective date. All salary difference payments and adjustments will be reflected on earnings statements.

5. Your status as an employee of this organization will continue in full force and effect during your period of duty with your cover facility and you will continue to be entitled to all rights, benefits and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

a. Upon integrating into your cover facility you will continue to be covered by the particular retirement system in which you are a participant as an employee of this organization. Salary received from your cover facility and any salary differences payable by this organization will be subject to appropriate retirement contributions.

b. Appropriate Federal income tax withholdings shall be made from taxable income received from both your cover facility and this organization. Additionally, while serving in the United States, withholdings shall also be made for District of Columbia or State income tax, when applicable. You may claim reimbursement for excess income taxes paid on overt tax returns by reason of taxable income from your cover facility exceeding the taxable income due you as an employee of this organization.

c. All annual and sick leave which is accrued to your credit at the time of integration will be transferred to your cover facility. While integrated you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of your cover facility in lieu of the leave benefits of this organization. Upon termination of your integration, your unused annual leave, sick leave, and home leave will be transferred to your credit with this organization and your leave record will be reconstructed as of the beginning of the leave year in which you return to this organization, as explained in the Handbook on Leave for Special Situations. Serving in an integrated capacity does not permit the carryover from one leave year to another of an annual leave balance which exceeds the ceilings authorized by regulations of this organization and the Federal leave law. If security conditions require that your cover facility make a lump-sum payment for accrued annual leave, upon your "resignation" you will be required to pay the gross amount thereof to this organization, including any income taxes withheld by your cover facility in order to receive credit for such annual leave.

6. You will be required to keep forever secret this agreement and all information which you may obtain by reason hereof, unless you are released in writing by this organization from this obligation. Violation of such secrecy may subject you to criminal prosecution under the espionage laws, as amended, and other applicable laws and regulations. The termination of your employment with this organization will not release you from the obligations of any security oath you may be required to take.

TO: Mr. David E. Murphy

1. I would like to take this opportunity, upon the eve of my departure from Berlin, to thank you for the assistance you have given to me.

2. Your constant cooperation with members of my staff and with the other units in this Command has been particularly appreciated. Your advice, which I know was based on intimate knowledge of the intricate problems peculiar to Berlin as well as on your thorough professional competence, was most valuable in developing plans and politics for this headquarters. In addition, the valuable and timely information provided by you has contributed to an important degree to the security of this city. I am certain that my successor will continue to benefit greatly from your assistance.

3. I wish you continued success in your assignment and sincerely hope that someday we will once again have the pleasure of working together.

TO: Mr. William Harvey

APO 742, US Forces

1. As the Commanding Officer of this unit, it gives me particular pleasure to extend my appreciation to Mr. David Murphy and Mr. Liebenau for the able and extremely valuable assistance which they rendered to an operation of this unit on 24 May 1959.

2. Mr. Murphy, when informed on Sunday 24 May that some assistance was needed by this unit, despite the short notice, wholeheartedly and unstintingly rendered advice and logistical support. Because of unforeseen circumstances, certain support was lacking for a particular operation, and Mr. Murphy immediately proferred the necessary aid. In discussing the various phases of the operation, Mr. Murphy was good enough to share his rich experience with representatives of this unit and thus facilitate implementation of the project.

3. Mr. Liebenau's consideration, tact and concern over the security and success of the operation merit praise. Despite the short time allocated to Mr. Liebenau's phase in the operation, he consistently deferred to the wishes of the members of this unit, recognizing that security of the operation was paramount.

4. Such cooperation and spirit of friendliness as exhibited both by Mr. Murphy and Mr. Liebenau are a very welcome new page in the relationship between this unit and your organization. It is a significant step toward the type of coordination and cooperation which will in the last analysis benefit the intelligence community to the detriment of the opposition.

1. Subject employee has been granted a cryptographic clearance effective this date (or 6 February 1955.)

2. Subject has been informed of the granting of clearance and has been briefed concerning cryptographic and related communications security matters.

3. A cryptographic clearance is not a permanent clearance. It will be revoked immediately should the employee fail to maintain the security standards prescribed in CIA Regulation 90-500. A cryptographic clearance alone does not constitute authorization to perform cryptographic duties without the prior approval of the Assistant Director for Communications.

5. When Subject employee no longer requires the clearance because of a change in assignment or duties (e.g. return from overseas assignment, replacement as acting communicator) it is requested that the Communications Security Division (2411 K Building, ext. 3021) be notified so that the clearance may be revoked.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Subject continues to perform his duties as Supervisor of the many complex A&R activities in a competent manner. His knowledge of the technical aspects of his Sections' many functions help to insure a continuation of work flow and his ability to absorb and retain technical data related to his field of endeavor serves as an aid in the presentations of his numerous oral briefings.

One apparent weakness, which he continues to retain, is in his work relations with technical personnel; he has a tendency to drift from main topic under discussion to unrelated subjects, which, while they may be informative, decreases not only the Subject's productive capability, but, also that of the technical personnel.

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Mr. Kimsey possesses a wealth of knowledge in his technical field which, wher skillfully and tactfully utilized, helps to increase the productive capability of his Section's activities.

This thorough knowledge of A&R activities enables him to present his oral briefings in an informative and interesting manner.

Subject has been downgraded in Specific Duty #1 from a "4" to a "3". The basis for the lower rating in this category warrants the following explanation. There have been numerous and reoccuring complaints from personnel under his supervision that he does not display a complete respect for their professional capabilities. This weakness has definitely decreased the morale of the personnel under his supervision. Mr. Marzen, Chief, TSD/GARB, has discussed all areas of weaknesses with the Ratee and pointed out how they affect the overall work aspects of this section of TSD/GARB.

Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Subject continues to perform his duties as Supervisor of [illegible] complex A&R activities in a competent manner. His knowledge of the technical aspects of his Sections' many functions help to insure a continuation of work flow and his ability to absorb and retain technical data related to his field of endeavor serves as an aid in the presentations of his numerous oral briefings.

One apparent weakness, which he continues to retain, is in his work relations with technical personnel; he has a tendency to drift from main topic under discussion to unrelated subjects, which, while they may be informative, decreases not only the Subject's productive capability, but, also that of the technical personnel.

Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Subject is a very competent supervisor from a technical standpoint in that he has a thorough applicable knowledge of the complex [illegible] activities. In many respects this tends to contribute to his main weakness in that he measures the potential of his personnel by his own level of proficiency rather than a team level. This creates a situation whereby he has tendency to perform many functions which he could delegate to his personnel.

SECTION IV

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. The descriptive scales are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale in each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Read each of the statements on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether the phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

KIMSEY, Herman Edward | Dec 1916

Fitness Report Dec 1957 - Jan 1959 -- "...is a very competent supervisor from a technical standpoint in that he has a thorough applicable knowledge of the complex A&R activities. In many respects this tends to contribute to his main weakness in that he measures the potential of his personnel by his own level of proficiency rather than a team level. This creates a situation whereby he has tendency to perform many functions which he could delegate to his personnel." Rater, P. J. Szego. Reviewer, J. F. Marzen.

Fitness Report Jan 1959 - Jan 1960 -- "...thorough technical knowledge of A&R activities qualifies him as a competent Supervisor. Since the last reporting period, he has delegated more responsibilities to personnel under his supervision. This, in effect, has increased the productive capability of his Branch." Rater, P. J. Szego. Reviewer, J. F. Marzen.

Appreciation 1953 from Chief, NSA, for excellent work on Report C-145 performed by TSS personnel. Endorsed by Chief, CARD/TSS.

Commendation 1955 from the field, conveyed by the Career Management Officer, TSS, for efficiency in rendering support to an operation.

INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that this appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee.*—It is the duty of the appointing officer to guard against impersonation and to determine beyond reasonable doubt that the appointee is the same person whose appointment was authorized. The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. If the appointee qualified in a written examination, the signature on this form should be compared with the signature on the declaration sheet, which was signed in the examination room. His physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family.*—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members of family provision does not apply to temporary appointments. Doubtful cases may be referred to the appropriate office of the Civil Service Commission for decision.

MEMORANDUM FOR THE RECORD

SUBJECT : Retirement - James W. McCord, Jr.

1. The retirement of Subject, effected as a result of a memorandum from the Head of his Career Service stating that he is surplus to the needs of the Service and that his retirement will be recommended to the Director under the provisions of the CIA Retirement and Disability System pertaining to involuntary retirement, in no way implies an adverse action. Subject signed an application for retirement of his own volition in order to qualify for an immediate retirement annuity. The liberalized criteria for such separations was established by the Agency to parallel similar actions under the Civil Service Retirement System in accordance with FPM Letter No. 831-23, dated 10 December 1969.

2. Any inquiry received concerning the nature of the separation of Subject from the Agency should be confirmed simply as a retirement.

SUMMARY OF AGENCY EMPLOYMENT

JAMES W. MCCORD, JR.

Service with the Central Intelligence Agency began on 22 August 1951 and continued through 31 August 1970. During his career there was a variety of assignments involving investigations, research and report writing, technical and physical security programs and a two year tour overseas.

As an investigator during the first two years of employment, there was wide involvement in a variety of support activities requiring initiative and ingenuity.

During the seven years engaged in research and report writing, there was much independence of action and success depended on initiative, imagination and resourcefulness in pioneering new areas of interest. Beginning in May 1957, managerial responsibilities began with appointment to a Deputy Chief position of a research staff of some six professional and clerical personnel.

When serving overseas, responsibilities were managerial in nature as Chief of a regional staff of some ten professional and clerical personnel providing a full spectrum of security support.

From August 1964 to June 1965 he attended the Air War College as representative of the Agency.

Since 1965 two vital line positions were held involving the Agency's programs in the technical and physical security fields.

In heading up the technical security division, from 1965 to 1968, he had primary supervisory responsibility for some 40 professional and clerical personnel, preparing the budget and programs for the Agency's technical security program, and managing the obligating of authorized funding to assure that approved programs and goals were met. He was instrumental in guiding the development of new approaches, in establishing new training concepts and in bringing the Agency to a position of recognized leadership in this field.

MEMORANDUM FOR: Mr. John W. Coffey

I want to express my appreciation to you personally and through you to Howard Osborn and the other of your associates who contributed so effectively to the visit of the President on Friday. The arrangements were flawless; the security first-class without being intrusive. I am well aware of the amount of work and planning which went into the successful outcome. I particularly want to commend the good sense and judgment which prevailed throughout. It is easy to push people around. It is difficult to take proper precautions and at the same time make everyone feel as though it were his or her party. Thank you very much. Well done!

MEMORANDUM FOR: DD/PTOS

SUBJECT : Security Support During President Nixon's Visit

1. I have received numerous and highly complimentary comments from the Director, the Executive Director and the Acting Deputy Director for Support for the role this Office played during the visit of President Nixon to the Agency on 7 March 1969. In addition, Mr. Don Gautreau, the Secret Service Agent responsible for protective measures during the visit, told me that he had never met a more highly professional group of personnel than our Security officers. He was impressed with the comprehensive coverage inherent in our protective measures.

2. Our performance on Friday was smooth, efficient and effective and once more is a tribute to our ability to rise to any occasion. This is possible only because of the quality of the effort put forth by each Security Officer who participated. I am very proud of all of you and I would like to particularly commend Jim McCord, Bill Wilkinson and Jim Greene for the work they did in planning our role in the ceremonies. Equally impressive was the performance of Hollis Whitaker and his people in the provision of audio coverage of the event.

3. I would like to have copies of this memorandum placed in the official Personnel File of every individual who participated in making this event such a great success.

Dear Mr. Osborn:

On 8 November 1967, Messrs. James McCord, William Flannery, and William Marcy of your agency provided a most interesting and informative briefing on the subject, "Audio Threat by the Communist Block". Included in this presentation was the display of the latest electronic techniques and technical developments in the area of audio threat.

This presentation was most enlightening and proved to be of keen interest to the Agency NCS Representatives, staff members of the Office of the Manager, NCS and selected key personnel of the Defense Communications Agency.

We very much appreciate the availability of the above mentioned personnel and I should like to commend them on their excellent manner of presentation and thorough knowledge of the subject matter.

MEMORANDUM FOR: **Mr. James W. McCord, Jr.** 8 March 1966

THROUGH : Head of SS Career Service

SUBJECT : Notification of Non-eligibility for Designation as a Participant in the CIA Retirement and Disability System

1. As you may know, we are in the process of reviewing the employment history and current career field of all employees in the Agency to identify those who are eligible for designation as a participant in the new CIA Retirement and Disability System. In this process, the initial review of each case is made by the individual's Career Service. If the Head of his Career Service nominates him for participation in the system, this nomination is reviewed by the CIA Retirement Board which recommends final action to me. However, if the Head of the Career Service advises that the employee does not meet the basic requirements of HR 20-50 for participation, I have accepted this finding without further review by the CIA Retirement Board. This practice has been adopted in the interest of expediting this screening process so that those employees who are eligible to participate in the system may be designated participants as soon as possible.

2. In your case, the Head of your Career Service has advised me that you do not meet the requirements of HR 20-50 for designation as a participant and I have accordingly made the formal determination required by the regulation that you are not eligible for designation. From a review of your record it appears that the decision of your Career Service was based upon the fact that you do not have sufficient time prior to completing 15 years of service with the Agency in which you could complete a minimum of 60 months of qualifying service as required by regulation. My determination that you are not eligible at this time for designation in no way affects your current status under the Civil Service Retirement System, nor does it preclude reconsideration of your eligibility to participate in the CIA System if you should meet the requirements for designation in the future.

3. Should you desire further information concerning the requirements for designation as a participant in the CIA Retirement System, I suggest that you read paragraph e of HR 20-50 and paragraph 5 of the Employee Bulletin dated 30 July 1965, entitled "Public Law 88-643, The Central Intelligence Agency Retirement Act of 1964 for Certain Employees."

4. It is always possible that the records upon which the determination made in your case may have been incomplete or inaccurate regarding your actual employment history with the Agency. If, after studying the materials cited above, you have questions regarding the determination that you are not eligible to participate in the CIA Retirement System, please feel free to contact officials of your Career Service. They are familiar with the details of your case and will gladly discuss them with you. In addition, you may wish to discuss your case with the CIA Retirement Staff located in Room 6E-1319 Headquarters (extension 6001). If such discussions do not resolve any questions you have regarding your eligibility, you may request that your case be formally considered by the Board. However, this request must be made within 30 days of the date of this memorandum.

Dear Mr. Hagan:

Reference is made to your letter dated June 4, 1951.

At the present time I am in the position of finding it necessary in the very near future to make several decisions of considerable financial importance to me. Should your organization be in a position to indicate whether favorable consideration has been given my application, or to indicate by what date you may be in a position to make a decision in that regard, such information would be of very great help to me at this time. As you have been advised earlier, I am interested in the CIA as a career, am willing to accept an assignment either overseas or in this country at your discretion, and at the starting salary you believe commensurate with my past experience.

Any assistance you can furnish concerning the above request will be indeed appreciated.

Very truly yours

James Walter McCord Jr

Mr. James W. McCord, Jr.
7 Winder Court
Rockville, Maryland 20850

Dear Mr. McCord:

It is the practice of the Organization to follow up with former employees six months after their retirement. We hope by such inquiry to obtain information on what our retirees are doing and where they are located, invite suggestions for improving the retirement program and to learn if the Organization might be of some assistance on any post-retirement matters.

We should like very much to hear from you on the above points and on any other topics you think would be useful to us.

For your convenience in replying, we have enclosed a sheet somewhat akin to a form on which we have listed those standard items of information we'd like to have on every retiree. The remainder of the sheet, including the reverse side, is for your comments and suggestions. We shall be most appreciative of your fullest response to this inquiry.

Thank you very much for your cooperation.

Sincerely yours,

Carroll A. Duchay
Personnel Officer

MEMORANDUM FOR: Director of Security

SUBJECT : McCORD, James W., Jr. Emp. Ser. No. 58124
Fitness Report

1. This is an annual fitness report covering the period 1 April 1969 through 31 March 1970. Mr. McCord completed his first full year as Chief, Physical Security Division. During 1969 the Division underwent many changes, a direct result of the personal efforts of this employee. He has shown the initiative to seek out new ways and means to harden the security of our domestic and overseas facilities by tapping all possible technological sources both in and out of Government. His efforts have produced tangible results and in my judgment, our posture in the physical security field is far superior to any of our contemporaries.

2. With the spiraling costs of manpower, Mr. McCord has concentrated on the potential for use of technical devices to replace the human asset. He has made remarkable inroads into this field by way of imagination, ingenuity and drive.

3. Mr. McCord has the quality to inspire his subordinates. He is demanding, but understanding. On more than one occasion he was asked to take under his wing employees who were labeled "problems." Through personal interest and effort, he has salvaged the majority of these individuals to a point where they are performing in a highly satisfactory manner.

4. In the previous fitness report, I alluded to the fact that employee has a tendency to find it difficult to see another person's point of view. This, I feel, is attributable to an innate stubbornness which obviously is difficult to overcome. Mr. McCord is a very

30 APR 1970

principled individual who once convinced he has hit upon the proper course of action will usually yield only by direction. We've discussed this, and I've noted a determined effort on his part to broaden his tolerance for other opinions.

5. Overall, the employee has made a substantial contribution to the Office of Security by his dedication to his job, his tenacious attitude toward upgrading our physical security standards, a curious and inventive mind ever searching for better ways to solve a problem in his area of responsibility, and a cost consciousness in the administration of his division. I rate him an overall "Strong."

Fitness Report

1. This is an annual fitness report covering the period 1 April 1968 through 31 March 1969. During the first period of this report, Mr. McCord served as the Chief, Technical Division/ PTOS and continued to display a very high degree of professionalism in administering the Agency's world-wide Audio Countermeasures (ACM) program. Under his guidance, several new devices and techniques were developed which have helped the Agency and the intelligence community to maintain pace with the sophisticated advances by the opposition in the field of positive audio.

2. Mr. McCord initiated the necessary planning for the activation of the Interagency Training Center (ITC) which provides ACM instruction to all members of the community in the latest of equipment and techniques.

3. On 14 October 1968, he was reassigned to the position of Chief, Physical Security Division. Although he had relatively little experience in this particular field, he has quickly assimilated the necessary details to manage this Agency effort. He has taken steps toward the development and use of the most advanced physical security equipment and techniques to protect the Agency. Under the supervision of Mr. McCord, the Agency Security Command Center operations have been expanded and improved. He has been assigned the responsibility to organize and direct the Security efforts relating to the protection of Agency assets in time of demonstrations, riots, and other civil disturbances. He coordinated the Agency Security effort with the U. S. Secret Service in protection of the President of the United States during his recent visit to the CIA Headquarters.

SECRET

4. Mr. McCord is considered to be economical in his use of equipment, manpower and funds.

5. Perhaps one of the stronger attributes this employee possesses is his ability to organize. In a relatively short time, he has deliberated the Physical Security Division's mission and already taken steps to restructure it within existing manpower limitations to more effectively react to its responsibilities.

6. He inspires his subordinates and has the respect of his superiors. There have been instances, however, when Mr. McCord has exhibited a certain intolerance with individuals who do not agree with his point of view, resulting in some friction in their working relations. There has been much improvement in this regard, and I do not feel it will present any problem in the future.

7. I anticipate this employee will continue to absorb knowledge and experience in the physical security field at the rapid rate he has during his short tenure and am confident his efforts will result in a major contribution to the Office and Agency. I rate Mr. McCord a high "Strong."

Mr. McCord supervises a technical operation with considerable skill. Although not an engineer by training, he has breached the difficult gap of communication between the administrative and technical aspects of his Division. He has maintained a high esprit de corps under difficult conditions which involve the necessity of his personnel to travel extensively throughout the world. Although such duty carries with it numerous family problems, Mr. McCord is able to manage the Division in such a manner as to maintain a high state of morale. Perhaps the most outstanding accomplishments which I attribute to Mr. McCord's fine management of his Division lies in the field of developing useful and esoteric equipment in the counteraudio field. I have a distinct impression that he and his Division are considerably ahead of other Government departments in this area of activity. This fact alone is a high tribute to his management skill. Because of the success in this field, I consider him to be economical in the use of manpower and funds.

During this rating period, the Technical Division has had operational success in the overseas area. I attribute this success to the careful planning and training which the incumbent has accomplished and directed. Further, he has already shown a high degree of skill in planning for a new activity of considerable responsibility which he will undertake during the coming fiscal year. I am highly

Mr. McCord supervises his Division in a vigorous manner. He is capable of instilling enthusiasm and esprit de corps within his organization--a difficult task because of the extensive amount of world-wide travel demanded from his subordinates. This travel is so extensive as to result in personal hardships.

During the rating period, Mr. McCord and two of his employees received the Certificate of Merit. These awards resulted from the vigorous and successful pursual of a technique having great promise in the audio countermeasures field.

Mr. McCord's performance of his liaison and coordination with other components of the intelligence community, which received special mention in his last Fitness Report, is now at a status which warrants a designation of "Strong." He is conscientiously working at the liaison problem in a difficult interdepartmental atmosphere.

Mr. McCord has an excellent grasp of the technical requirements of his position even though he is not an engineer. He has an exceptional environmental knowledge and appreciation. He sets his goals high. He is cost conscious in the field involving expensive equipment, which normally is costly to develop.

Mr. McCord was attending the Air War College during part of the reporting period. He became Chief of the Technical Division/OS on 20 July 1965.

Mr. McCord took hold of this Division with a heartening vigor and enthusiasm. Although not an Engineer, he soon learned enough of the technical business to meet many crash assignments with exceptional skill and judgment. By trying to get these assignments done within set time limits, he sometimes short-circuited a few coordinations in other offices, but this did not seriously detract, in my opinion, from a very proficient job.

While Mr. McCord has not had the Technical Division a sufficiently long time for me to judge his long range performance, I feel he will become an exceptionally proficient Chief. There was insufficient time for me to judge his cost and manpower consciousness.

I concur thoroughly with Mr. Winters' evaluation of Mr. McCord's vigor and enthusiasm, skill and judgment. I would add to this that he has demonstrated extraordinary ingenuity and leadership in supervising the development of several new and valuable techniques in the countermeasures field. However, I would rate him only "Proficient" in Specific Duty Number 6, for I believe that he has not been as effective as he might be in liaison and coordination with other components of the Intelligence Community represented on the Technical Committee. This is unfortunate, for it detracts from his outstanding performance in all other elements of his assigned responsibilities. He must work on improving these relationships and he has been counseled to this effect by his current supervisor.

INSTRUCTIONS

1. Instruction to the Administrative or Personnel Officer

Consult current Administrative Instructions regarding the initiation and transmittal of this report.

2. Instruction to the person evaluated

Since this evaluation will become an important part of your record, you will want to give to it as much care and attention as you would like to have it receive from your Supervisor and the Reviewing Official. With respect to Items 8 and 9, you should include courses of instruction or assignments, either within or outside of the Agency, which you consider pertinent to your career development.

3. Instruction to the Supervisor and the Reviewing Official

a. As the supervisor who assigns, directs and reviews the work of others, you bear primary responsibility for planning and fostering the development of each person under your supervision, commensurate with his capacity, aptitude, knowledge and skills. As an alert supervisor, you judge the people working with you on a job-by-job and day-by-day basis and use this information in carrying out your supervisory responsibilities. Although evaluation is a continuous process, it is necessary periodically to record your observations and recommendations for appropriate action. In preparing the report you should consider the individual's capabilities for further development in his present assignment and his potentialities for more effective utilization in other positions, including work of a more responsible and difficult nature.

b. The following traits are generally regarded as having some bearing on a person's performance and development. Although you are not asked for specific ratings, do not hesitate to refer to these or similar traits in your comments, which should be terse and precise.

COOPERATION
DEPENDABILITY
ACCURACY
SECURITY CONSCIOUSNESS
INITIATIVE
RESOURCEFULNESS
STABILITY UNDER PRESSURE
ABILITY TO OBTAIN RESULTS
JUDGMENT
LEADERSHIP

c. In fairness to the individual and in the interest of the Agency, the importance of carefully prepared and accurate Personnel Evaluation Reports can not be overstressed. The following basic principles of evaluation should be kept in mind:

(1) Base your judgment on

(a) What you have observed the individual do or fail to do.
(b) Typical performance as well as critical incidents.
(c) Examples relevant to the duties under consideration.

(2) Different standards prevail in different assignments. Every effort should be made to arrive at a just estimate of the qualities of the individual as demonstrated during the report period. Avoid exaggerations. They detract from the value of the report and are unfair to others.

(3) BIASED OPINIONS BASED ON PERSONAL LIKES AND DISLIKES MUST BE SCRUPULOUSLY AVOIDED. IT SHOULD BE BORNE IN MIND THAT THE PREPARATION OF EVALUATION REPORTS IS AN IMPORTANT RESPONSIBILITY OF ALL SUPERVISORS AND THEIR CAREFUL PREPARATION IS AN INDICATION OF THE SUPERVISOR'S OWN ABILITY AND QUALIFICATION FOR THE POSITION HE HOLDS.

When he retires 31 August 1970, Mr. James W. McCord, Jr., will have completed 25 years of Government service, 19 years of which were with the CIA in a variety of assignments covering the investigative, counter-intelligence, overseas security support, audio countermeasures and physical security fields within the Security Career Service.

During his early years of employment when assigned to the San Francisco Field Office, Office of Security, August 1951 to May 1953, Mr. McCord assisted in the covert entry and processing through customs of operational personnel from the Far East areas and performed safehouse duties and related tasks designed to ensure the protection and cover of such personnel.

When serving with the Security Research Staff, 1955 to 1962, Mr. McCord worked in direct support of Agency activities abroad of a specialized nature exploiting highly sensitive intelligence source material resulting in the reconstruction of Soviet espionage networks and resolving operational and security leads affecting both the British and United States Governments. The identities, composition and operations of Soviet intelligence services in Europe prior to 1950 and dating back into the 1930's, were reconstructed. Between 1955 and 1960, Mr. McCord was involved in contacting, developing and debriefing these identified and available

former Soviet intelligence personalities. This activity led to close liaison with British and other Western intelligence representatives involving numerous trips to Europe. This liaison activity with representatives of the British MI-5 established a direct channel of communications resulting in a continuous exchange of leads and a flow of operational data over the years of benefit to the Agency.

During the period of his work with the Security Research Staff, in which he served as Deputy Chief from May 1957, Mr. McCord was the Agency's case officer in a number of double agent cases involving Agency staff employees who had been contacted and were being developed for recruitment by the Soviet intelligence service.

From 1962 to 1964, Mr. McCord served overseas as Chief of the Regional Security Support Staff located at Frankfurt, Germany with responsibility for the overall personnel and physical security and audio countermeasures programs applicable to the Stations and Bases of the European area. This assignment was followed by attendance at the Air War College, August 1964 to June 1965.

For the past five years, Mr. McCord has held two vital line positions with world-wide responsibilities involving the Agency's audio countermeasures and physical security programs.

As Chief of the Technical Division from 23 July 1965 to 10 October 1968, Mr. McCord supervised a technical operation with considerable skill. Although not an engineer by training, he spanned a difficult gap between the administrative and technical demands of his responsibilities, guiding the development of useful and esoteric equipment in the counter-audio field to a point where the Agency became the recognized leader among Government departments in this area of activity. This leadership is evidenced by the

establishment of an Inter-Agency Technical Training Center under the Executive Agency of the Technical Division for the Technical Surveillance Countermeasures Committee of the United States Intelligence Board. Much of Mr. McCord's ideas, talents, and imagination went into the creation of this training activity which commenced operations about the time of his reassignment to the Physical Security Division.

Mr. McCord participated with two subordinate employees in the development of x-ray equipment for use by the Technical Division in detecting and locating hostile audio devices implanted in office appurtenances and walls of Agency occupied facilities. The responsibility for ensuring that appropriate protective methods for the safe use of this equipment was also associated with this development. The significance of this achievement was recognized by the Agency when Mr. McCord and his participating colleagues were awarded Certificates of Merit with Distinction in October 1966.

In his current position as Chief, Physical Security Division, Mr. McCord demonstrated his ability to quickly assimilate the necessary details of a field in which he had relatively little experience. He showed initiative in seeking out new ways and means to harden the security of the Agency's domestic and overseas facilities by tapping all possible technological resources, both in and out of Government, to produce for the Agency a posture in the physical security field which is the equal of, if not superior to, those of other elements of the United States Government. Illustrative of this effort is the expansion and improvement of the Agency's Security Command Center relating to the protection of Agency assets in time of demonstrations, riots and civil disturbances.

Throughout his Agency career, Mr. McCord has engaged his curious and inventive mind to search out even better ways to solve problems within his area of responsibility. As a result, his

Agency career is a record of sustained superior performance of duty of high value. The value of his exemplary performance over the years has often been recognized and commended by senior officials of the Agency. It is on this basis that Mr. McCord is nominated for the Certificate of Distinction upon the occasion of his retirement.

CITATION

Mr. James W. McCord, Jr. is hereby awarded the Central Intelligence Agency's Certificate of Distinction.

During his nineteen years of Agency service, both domestic and foreign, Mr. McCord displayed remarkable imagination, ingenuity and effectiveness in the performance of his assigned tasks. His sustained superior performance of duty of high value over the years leaves a marked contribution to the overall mission of the Office of Security and the Agency, particularly in the areas of physical and technical security.

SUBJECT : Quality Step Increase for
Mr. James W. McCord, Jr.

1. Mr. McCord has served as Chief of the Technical Division since 23 July 1965. Through his leadership and fine management of the Division, he and his engineers have developed several new and valuable techniques in the audio countermeasures field. The cost of research and development in these techniques was at a minimum and saved the Government much time and money in increasing the state of the art in audio countermeasures.

2. Mr. McCord supervises his Division in a vigorous manner and instills enthusiasm and esprit de corps within his organization--a difficult task because of the extensive amount of world-wide travel demanded from his subordinates.

3. Through the efforts of Mr. McCord the establishment of an Interagency Training Center for audio countermeasures is proceeding in an orderly basis, and the first courses offered to technical personnel in the intelligence community will begin this fall. The Technical Division, PTOS, serves as the Executive Agent for the operation of such school for the Community.

4. In view of Mr. McCord's sustained high level of performance of duties and the outstanding achievement in the research and development of new hardware and techniques in the audio countermeasures field, it is recommended that Mr. McCord be awarded a Quality Step Increase.

TRAINING REPORT

MANAGERIAL GRID SEMINAR (50 hours) DATES: 23-28 April 1967

Student : James W. McCord, Jr.

Office : OS

Year of Birth: 1924

Service Designation: SS

Grade : 15

No. of Students : 46

EOD Date : August 1951

COURSE OBJECTIVES AND METHOD

Course objectives are to aid participants to: learn the managerial theories contained in the Grid; understand their personal managerial styles in Grid terms; evaluate convictions about managerial values; develop team action skills; increase candidness of communication; strengthen the use of critique for problem-solving and learning; and acquire an appreciation of Organization Culture and Development.

The method of learning offers a challenge to all participants regardless of level or experience. A Grid Seminar is not "taught" in the usual sense. In Grid teams, participants solve complex management problems. Objective solutions are made available. Individual and team performance is repeatedly assessed. Various measuring instruments are used to evaluate effectiveness.

Critique sessions assist each participant to understand how he might change his own behavior to increase his problem-solving effectiveness. Thus managers are not told the best way to manage, but they learn by convincing themselves.

About twenty to thirty hours of study are completed as prework. Insights gained are deepened and personalized during the intensive 50-hour Seminar.

ACHIEVEMENT RECORD

This is a certificate of attendance only. No attempt was made to evaluate student achievement in this course.

SUBJECT : Security Presentation - Support Course

1. The Office of Security presentation at the Warrenton Training Center on 2 March 1967 was extraordinarily well received. Colonel Winters, Commanding Officer, WTC, has informed me of a number of superlative comments by those in attendance.

2. I want to express my appreciation to Messrs. James McCord, Alan Petit, and Carroll Melkerson for their most effective presentation on audio countermeasures. It was a highlight of the program and contributed immeasurably to its success.

3. I'd like to express a special word of thanks to Mr. William Herron, for his splendid support in preparing visual aids for the program on extremely short notice. I am aware that Bill worked long hours over the preceding weekend and virtually all night on one occasion in order to ensure the success of this program, while fulfilling heavy commitments to get audio countermeasures teams into the field.

4. I can be justifiably proud of the success of the presentation, and attribute this success in large part to the extraordinary team effort by the Office of Security components involved. Please extend my personal commendation to Messrs. McCord, Petit, Melkerson, and Herron and advise them that a copy of this memorandum will be placed in their Official Personnel Files.

40.

From early December 1965 through May 1966, Messrs. James W. McCord, Jr., Alan F. Petit, and William M. Marcy of the Technical Division, Office of Security, conceived and developed a unique technique for the use of a small portable X-ray machine which has been placed in extensive use in the Agency's Audio-Countermeasures Program. Experimentation during these months indicated that X-ray combined with a fluoroscopic screen had distinct advantages in terms of time and effort over the considerably more expensive X-ray film and processor. Along with this, they designed an innovation in the form of a fluoroscopic cloth which has the distinct advantage of flexibility over the fluorescent screens currently available on the commercial market.

The combination of the X-ray and the fluorescent cloth make it possible to rapidly scan in "real time" large wall surfaces and furnishings, a capability the Agency has not had before.

The Technical Division has greatly enhanced the world-wide use of this equipment in that they designed and developed a packaging plan whereby using two attache cases they are able to easily transport the X-ray fluoroscopic equipment, wall racks, and motor units making it possible to inconspicuously carry it into offices, residences, and safehouses.

These men have shown initiative, ingenuity and great imagination in the application of fluoroscopic scanning with X-ray.

This technique, much of which required many off-duty hours to develop, has greatly enhanced the Agency's capability to detect clandestine microphones and other devices targeted against the Agency both domestically and overseas.

Mr. McCord was an outstanding member of this AWC class. As a member of the Student entertainment Committee, he early initiated the School into a get-together; ahead of time, he attended to the many details so thoroughly that the social activities were most delightful. Mr. McCord has a most friendly and direct manner of speaking with people. He seemed well-oriented toward the group endeavors. He considerately expressed his deferences toward the students of his seminars, through nice amenities appropriately made as the occasion permitted. In the seminar discussions, his participation was timely and positive, constructive and appropriately introduced so as to further the progress of the group endeavor. He was especially well-informed on the Sino-Soviet struggle for power in Africa. This student's outstanding over-all performance surpassed the high standards expected of the carefully selected members of the AWC.

CONTINUED SERVICE AGREEMENT FOR EMPLOYEES ASSIGNED TO TRAINING THROUGH NON-CIA FACILITIES

1. In consideration of my being assigned by the Central Intelligence Agency to training in Air War College (Course) at Montgomery, Alabama (Name of Facility) beginning August 1964 and ending June 1965, I agree to the following terms and conditions:

a. That, after having completed the training under the program described above, I will continue serving the Central Intelligence Agency (hereinafter the Agency) for a period of not less than 36 months, which period shall be deemed to commence the first workday after completion of the training covered by this agreement, unless I am involuntarily separated from the Agency;

b. That, if I voluntarily leave the Agency before completion of the agreed period of service and do not immediately, as determined by the Agency, enter the service of another Federal agency, I will reimburse the Agency for any additional expenses incurred by it in connection with my training, which expenses are defined to include (1) travel and per diem in lieu of subsistence, (2) transportation of immediate family, household goods and personal effects, packing, crating, temporary storage, drayage, and unpacking, (3) tuition and matriculation fees, (4) library and laboratory services, (5) purchase or rental of books, materials and supplies, (6) the cost of other services or facilities directly related to the training, but excluding salary, pay, or compensation received.

c. That, before voluntarily leaving the Agency to enter the service of another Federal agency during the agreed period of service, I will give the Agency at least ten working days' written notice, during which period it shall have the opportunity to determine whether I am to reimburse it for any additional expenses incurred; that should I fail to give such ten-day notice, or if the Agency notifies me that reimbursement is required, I will, upon demand, promptly reimburse the Agency for the additional expenses determined to be due.

d. That if I do not make prompt voluntary payment for the amount of additional expenses determined to be due under paragraphs b or c of

(NoCord)

this agreement, the Agency may recover such amounts from me or my estate by (1) set-off of accrued salary, pay, compensation, amount of retirement credit, or other amount due me from the Government, and by (2) such other methods as may be provided by law for the recovery of amounts due the Government.

e. That the assignment to training under this agreement does not commit the Government to continue my employment and, further, that I may be released in whole or in part from the terms of this agreement only by action of the Director of Central Intelligence.

9 MAY 1964

Dear Jim:

My tour of duty in Headquarters, United States Army, Europe will terminate in late May when I leave Europe to undertake new duties in Washington, D. C. My association with you and your staff has been a richly rewarding experience, both personally and professionally. The manner in which you have unobtrusively, yet effectively, served as the catalyst which welded together the activities of the many staff and operational agencies which share an interest in our national security, has been a source of continuing inspiration to me. Your efforts have enjoyed my unqualified personal support and have merited the admiration of those members of my staff who have been privileged to associate with you.

You have dramatically demonstrated a capacity for bringing together key personnel of agencies who seek, in the accomplishment of their individual missions, the realization of a common goal, in a manner calculated to preserve the individual integrity of each agency while exploiting those benefits of cohesiveness so essential to maximum effectiveness. Mindful that the application of a prescribed technique without adding the complementing ingredient of your confidence inspiring and persuasive personality would not have achieved the same measure of success, I unhesitatingly ascribe our abundant joint accomplishments to your generous personal contribution.

My future relationships with your associates will always reflect my admiration for the manner in which you have contributed to the attainment of our national aims and the manner in which your personal efforts have precipitated a more significant contribution from the other agencies with which yours has been associated.

Sincerely,

CARL C. TURNER

Dear Mr. Stewart

On the departure of Mr. James W. McCord I wanted you to know of OSI's appreciation for his constant support and cooperation during his tour. He has given us valuable assistance in the performance of our mission.

We appreciate also Mr. McCord's constant efforts to create unity of purpose and action among the many security and counterintelligence agencies in the area. Through his efforts new liaison avenues were opened to OSI which, on several occasions, facilitated the completion of our tasks. His efforts in contingency planning also were noteworthy.

OSI in USAFE will miss Mr. McCord. Please extend our good wishes to him and Mrs. McCord for continued success in their endeavors.

1. The news of your departure to a new station in the USA has been received with regret; your contributions in the intelligence community will be missed. At the same time it is gratifying to learn that you have been selected for such an important assignment of which you are most deserving.

2. I wish to express my appreciation for your efforts in organizing the Frankfurt Security Officers' Conference. I am aware that through your initiative and tenacity this organization expanded in size until all security and intelligence units in the Frankfurt area were represented, thus cementing their combined efforts into one sphere of cooperation. This, I am sure, has contributed immeasurably to the overall security mission of this community.

3. I also wish to specifically thank you for the security lecture you presented to members of my command in England. There have been many favorable comments received from personnel hearing that presentation, to the effect that the lecture indicated a very broad range of knowledge on your part and that it was presented in a truly professional manner.

4. The fine cooperation you have extended to personnel in my S2 Division has been of the greatest assistance to my command and all have voiced their appreciation and satisfaction concerning their association with you. I wish you the best of luck and success in your new endeavor.

COURSE OBJECTIVES - CONTENT AND METHODS

The Operations Support Course emphasizes the role of support personnel in clandestine activities and their responsibility in originating material of a support nature at headquarters and in the field. The Course objectives are to provide the student with (1) an appreciation of the interrelationship between operating functions and support functions; (2) an understanding of some of the basic principles and techniques of Agency operations; (3) a knowledge of procedures, regulations and problems pertinent to the necessary support of operational activities.

a. Phase I covers instruction on organization, functions and responsibilities of the Clandestine Services; basic principles of clandestine activity accompanied by practical exercises; project and agent management; familiarization with defensive and offensive audio surveillance.

About fifty per cent of Phase I consists of lectures, briefings, and discussions; about thirty-five per cent is devoted to field exercises, practical written assignments, practice problems, and observing films as training aids in basic tradecraft. The remainder of the time is devoted to studying and testing.

b. Phase II includes name checks, records procedures, foreign travel, finance and property accounting, dispatch, pouch, cable and message-writing procedures. For this phase, problems have been developed to represent situations as they normally occur at a Class B Station.

About thirty-five per cent of Phase II is composed of lectures, briefings, and discussions; about fifty per cent is devoted to practice problems and practical written assignments. The remainder of the time is devoted to studying and testing.

Reference is made to the attached memorandum dated 1 November 1958, which is the summary excerpted from the report of the operation submitted on that date.

Upon receipt of information, 2 July 1958, that a member of the ~~Soviet~~ Foreign Office in Moscow had mentioned to one of the American Embassy staff members that the Soviets had knowledge of the crew of the missing C-118, Mr. McCord was appointed head of a team of men from Headquarters to proceed immediately to Germany to plan for and debrief the crew of the C-118 in case they were released.

At Wiesbaden, acting upon policy guidance received from Headquarters, Mr. McCord made detailed plans for the interrogation of crew members; prepared news releases and made plans for the handling of the press; arranged for reunion of the crew members with their families; and arranged medical examinations, all with the view toward avoiding publicity or incidents which might reveal Central Intelligence Agency interest in the highly sensitive nature of the plane's flight.

When the crew arrived at Wiesbaden, Mr. McCord directed the over-all interrogations and participated in portions of the interrogation of the crew members himself. He prepared cables and dispatches for Headquarters as well as the over-all report of the debriefing of the crew. He briefed the crew members regarding their conduct before the press. He also assisted in the plans for the return of the crew members to Washington, all of which entailed around-the-clock work.

Upon return to Washington, Mr. McCord directed the detailed debriefing of the crew, covering all aspects of possible compromise of security of CIA personnel, operations, and cover unit activities, as well as various positive intelligence and counter-intelligence matters. Final reports were prepared and Mr. McCord participated in briefings of the DCI, DDCI, and various Air Force and Defense Department officials.

The ingenuity, foresight, planning and guidance exercised by Mr. McCord from the time the team first left for Europe, through the initial debriefing, and then in following through in the debriefings back at Headquarters, resulted in rapid and thorough interview of the crew members, assessment of the compromise to the Agency, and determination of appropriate action needed by the Agency to counter such compromise. His performance in that instance was of the highest degree and did much credit to this Agency in the highly professional manner in which it was performed.

SUBJECT: American C-118 Aircraft Downed in Soviet
Azerbaijan 27 June 1958 by Soviet MIG-17's

On 27 June 1958, a C-118 cargo plane, assigned to the U. S. Air Force in Wiesbaden, was fired on and forced down near Gendarkh, Soviet Azerbaijan. The plane was carrying nine U. S. airmen, three of whom are assigned to this Agency. They are Colonel Dale D. Brannon, Major Robert E. Crans and Major Bennie A. Shupe. The other six men were regular Air Force members assigned to Wiesbaden, Germany. The nine men were en route from Wiesbaden to Teheran and Pakistan on a flight carrying cargo for CIA. Col. Brannon and Major Crans were planning to get off the plane in Teheran had the plane remained on course.

The plane, while en route to Teheran from Nicosia and as a result of bad weather and navigation error, went off its plotted course and crossed into Soviet Armenia. There it was intercepted and fired on by three MIG-17's and caught fire in the left wing. Five of the crew bailed out and the other four rode the aircraft down to a safe landing on a small airstrip at Gendarkh in Soviet Azerbaijan. The crew members who had remained on the plane to its landing got out safely and the plane was burning fiercely when the crew last saw it. The part of the crew that parachuted was surrounded by Soviet peasants, some of whom beat and struck at the crew members. One of the men, Major Bennie Shupe, CIA employee, was taken by the mob to a telephone pole and narrowly escaped hanging before being rescued by the Soviet military.

Major Shupe and the remainder of the crew were turned over to the Soviet military, and after an overnight stay in a Soviet military garrison near Stepanakert were taken to a city believed to be Yevlakh, and then flown to Baku, Russia. There they underwent interrogation by Soviet intelligence officers, at least one of whom had served in the United States, as a Soviet Purchasing Commission employee 1943-45, and later in Canada in 1949-55 as First Secretary of the Soviet Embassy. This RIS officer, Vladimir Bourdine, later served in 1955 as a personal interpreter for Khrushchev in a meeting with Prime Minister Nehru of India. Bourdine interrogated Colonel Brannon of CIA at considerable length during the period 30 June - 3 July 1958, while the crew was imprisoned in the MVD Headquarters building in Baku. Following their individual interrogations, the crew members were required to appear separately before a Commission of Soviet officials at the Baku MVD Headquarters who questioned them about the border violation by the C-118 aircraft, and requested them to sign statements attesting that they had been well-treated and received adequate medical care by the

Soviets. The inquiry by the Commission was perfunctory and did not involve an interrogation in the intelligence sense. The crew was then transported to Astara on the Soviet-Iranian border on 7 July 1958 and turned over to the American Air Attache.

On 2 July 1958 this Agency received information indicating that the Soviets might be considering releasing the nine fliers. Since no date or place of release was indicated, cables were sent to the various peripheral CIA stations around the Soviet border indicating the possibility of impending release. The Air Force agreed to alert its Air Attaches in the same areas of the possibility of impending release. At the same time a team of Agency personnel, including a medical officer, an Air Maritime officer, and two representatives of the Security Office were dispatched to Wiesbaden from Headquarters in anticipation of the release of the fliers. Three hours after the team arrived in Germany, the place of release was learned from the Soviets to be Astara on the Soviet-Iranian border, and a USAFE plane was dispatched that night from Wiesbaden with the Air Maritime team member aboard destined for Teheran to await the turnover of the American fliers at Astara. The fliers were turned over on 7 July 1958, were immediately flown to Wiesbaden, Germany where an initial joint CIA-AF debriefing of them was begun, and where initial press interviews were held, following careful briefing of the crew as to the text and limitations to be observed. Two days later, two members of the crew, one of whom was Major Shupe, a CIA employee, were permitted to give an interview to the Paris representative of Time-Life. Members of the CIA team were present during these press interviews, under appropriate cover arrangements, to furnish guidance to the CIA personnel.

Following the initial debriefing, the entire crew was flown to Washington, D. C. on 18 July 1958, for a more extended debriefing. These debriefings were completed on 6 August 1958 and covered the various aspects of possible compromise of the security of CIA personnel, operational and cover units activities, as well as various positive intelligence and counter-intelligence matters.

The three CIA men aboard the plane were extremely knowledgeable of highly sensitive Agency operational activities and of the identities of numerous CIA personnel. Colonel Brannon, as Commander of the CIA Air Support Operations in Europe, was knowledgeable of CIA operational activities on a world-wide basis, with many of these projects being extremely sensitive. Colonel Brannon and Major Robert Crans each carried briefcases containing classified material, and Brannon carried an address book containing several names, addresses and telephone numbers of CIA personnel and cover units. The two briefcases are believed to have been destroyed by the fire in the aircraft after landing. The address book of Brannon was taken from him by the Soviet peasants on landing and was later turned back to him by the Soviet Commission members at Baku. Neither he nor other members of the crew were questioned about either of the briefcases, their contents, nor about the address book and its contents. We assume that the Soviets have or will process the names in the address book through their Moscow files. Some of the other crew members carried personal notations in their wallets relating to a few other CIA personnel.

We have received no indications that Colonel Brannon or the other crewmen were drugged or otherwise tampered with by the Soviets. Brannon and some of the others did receive shots the first night and second day from the Soviet military for their wounds and burns; however, these shots are believed to have been for legitimate medical reasons.

The substance of the questioning, treatment and techniques of interrogation has been exhaustively explored with all the crew members in the course of the debriefings. In summation, the interrogations of the crew members were superficial and do not appear to have been backed up by close coordination and communication with Moscow for intelligence research purposes. It is possible that the quick acknowledgment by the Soviet Foreign Office of the landing of the C-118 in Soviet territory precluded the MVD from fully exploiting the crew members. Colonel Brannon and Captain Kane were separated from the group and given preferred treatment, apparently with the intention of developing them for information purposes. We are convinced that both men handled themselves extremely well and did not disclose any information concerning the Agency or its activities.

To date we have no indication that the Soviets knew at the time they interrogated the crew men, that the flight of the C-118 was connected with CIA in any way, nor that they knew three of the men aboard were CIA personnel. We do believe that in time the Soviets, through Brannon's address book, which lists the open Agency telephone number EX 3-6115 below his name on the first page, will connect him and possibly others in the address book with CIA. Since the Soviets questioned him about the 7170th Support Group and the 7405th Support Squadron in Wiesbaden, it is therefore presumed that they will associate those units with this Agency.

In addition to this report, debriefings of the crewmen were taped and typed, which will total some 7,000 - 9,000 pages when completed, are being distributed to the CI Staff and other interested components of this Agency as they are completed. Questions were solicited by this Office of all interested components, in order to cover all matters in the debriefings of interest to the Agency. Careful arrangements have been made with the Air Force in order that Agency interests will be adequately protected and proper security will be maintained in the handling of information and reports derived from the debriefings, and so that no compromise of the Agency interest in the flight of the C-118 will be made to the press.

CONCLUSIONS:

A. It is our opinion that the possible compromises arising out of this incident are relatively minor in nature and that no major compromises occurred.

B. That the Soviets "missed" on the true nature of the flight and personnel of the C-118.

C. That the reasons the crew members were given an early release were as follows:

1. Primarily, the Soviet interrogators failed to use all of the leads at their command, particularly Brannon's address book, and failed to break the crewmen through interrogation.

2. The crew did not inadvertently disclose through interrogations, the purpose of their flight, its relation to the Agency and that of three of its crew to CIA.

3. The Soviets apparently failed to check out the names and other data in Brannon's address book through their files prior to release of the crew.

4. No incriminating information or material was immediately recovered from the burned aircraft.

5. Several of the crew destroyed incriminating building passes and notations in their wallets while on their way down in their parachutes, or immediately after landing in their chutes.

6. There were either no leaks or insufficient leaks of incriminating information through any room conversations at Baku among the crew, which may have been monitored by the Soviets, or such conversations as there may have been were not properly interpreted, or interpreted soon enough to tip the Soviets that there was something unusual about the flight or the crew.

7. The crew members were all in uniform and not in mixed civilian and Air Force clothing, which properly established their cover.

8. Sufficient pressures were exercised by Agency, State, Air Force, and Executive action upon the Soviets to effect the release of the crew as soon as possible.

9. A factor that probably had an important bearing was the early acknowledgment by the Soviet Foreign Office of the downing of the aircraft and the attempts by the Soviets in the early stages to make this appear as a deliberate violation of the Soviet air frontier. This tended to take the "play" away from the MVD and military intelligence. In addition, this Government was stepping up the pressure for the release of the nine Army personnel who landed in East Germany in a helicopter, and the Soviets probably had no desire to create a duplicate of this incident.

10. Safeguards taken by the Agency and the Air Force were such that there was no leak to the press, during the crew's internment, of the fact that there was an intelligence connection of the flight and crew of the C-118.

D. That it is not believed, based on the evidence at hand, that the crew was drugged or otherwise tampered with medically.

E. That there are valuable points of guidance from a cover, operations, policy and code of conduct standpoint which can be gathered from experiences of these crewmen in the hands of the Soviets and can aid the Agency and its personnel in any future situation of a similar nature in which the Soviet military and RIS interrogators are encountered.

ACTION TAKEN TO SAFEGUARD AGENCY INTEREST IN THIS MATTER:

A. All possible steps were taken during the period immediately preceding and immediately after the release of the crew to effect the minimum of publicity and to safeguard and limit such publicity as was given out, in order to avoid disclosing the CIA connection of the flight and some of its crew.

B. Throughout the entire debriefing process in Germany and in the U. S., the maximum care has been taken to safeguard the information taken by transcript and classify it so that there would be access to the information therein on a need-to-know basis and by only properly cleared persons.

C. Steps were taken immediately by the German Station after the downing of the C-118 to change the combinations of the safes and locks in the buildings to which the crew had access.

D. The three men from this Agency who were aboard the flight, Brannon, Crane and Shupe, and the aircraft commander, Lyles, are being removed from the German area, being returned to the U. S. The three CIA crewmen are being returned to duty with the Air Force from the Agency.

E. Steps are continuing to be taken to properly safeguard Agency interests and personnel in regard to names of Agency personnel who appeared in Brannon's address book or in other notations appearing in any papers carried by other members of the crew.

RECOMMENDATIONS:

A. Continue to take all possible steps to prevent any disclosure to any unauthorized persons, particularly the press, about the CIA personnel aboard the C-118, or the true nature of the flight.

B. Continue to take all possible steps to change the cover designation of the units appearing in Brannon's address book to prevent any further compromise of these units.

C. Permit no further publicity about the flight itself, in order to minimize the possibility of the press learning of the CIA interest in the flight of the C-118.

D. Carefully follow all matters relating to the International Court of Justice interest in this flight, in order to prevent any compromise of Agency interests.

MEMORANDUM FOR: Director of Central Intelligence

FROM : Deputy Director for Operations

SUBJECT : Consultant Status for -

James Angleton
Raymond G. Rocca
William J. Hood
Newton S. Miler

REFERENCE : HR 20-52 and HHB 20-8

1. Action Requested:

This memorandum requests the Director to approve the use of Messrs Angleton, Rocca, Hood and Miler as Agency Consultants for the period 1 April - 30 September 1975.

2. Background:

a. All four officers retired under the CIARDS system 31 December 1974 and are currently contract employees, contracts to expire 30 March 1975.

b. It is proposed that Subjects' services be retained under consultant status on an intermittent, as-needed basis as determined by Acting Chief, CI Operations, Mr. George T. Kalaris. In view of the long and unique experience of these officers in counter-intelligence, not duplicated in any other personnel, the new Acting Chief, CI Operations will want to have available the benefit of their advice and counsel during the next few months.

CONFIDENTIAL

c. Payment for services as consultant for the period 1 April - 30 September 1975 shall be as follows: in each case the total allowable is one half or less of the difference between 90 percent of their former salaries and their current annuities;

- Mr. Angleton: at a fee of $138.48 per day not to exceed $6,000 for the period;

- Mr. Rocca: at a fee of $138.48 per day not to exceed $3,700 for the period;

- Mr. Hood: at a fee of $138.48 per day not to exceed $3,300 for the period;

- Mr. Miler: at a fee of $138.48 per day not to exceed $5,200 for the period.

3. Positions:

a. It is the position of CI Operations that there is a need for Subjects' services which cannot be met from on-board personnel. Coordination with Domestic Collection Division is not pertinent and has not been effected. Clearance from the Office of Security has been received.

b. The Office of Personnel affirms that on the basis of the information supplied above, this request appears to meet the policy requirements of HR 20-52, Consultants. It accordingly recommends that this request be approved.

c. The Office of General Counsel has reviewed this proposal and has found no evidence of conflict of interest.

4. Recommendation:

It is requested that approval be granted to engage James Angleton, Raymond G. Rocca, William J. Hood, and Newton S, Miler as consultants at a daily fee equal to the top step of a GS-15, which is currently $138.48.

Dear Scotty:

On the occasion of retirement, it has been the custom to send a letter to our employees in appreciation for their services. While your retirement has been stretched a bit by your willingness to help us on the transition to your successor, I do not want the occasion to pass without this recognition.

I sincerely regret the publicity which surrounded your retirement and the circumstances under which it occurred. These should not, however, conceal the fact that you have made a real contribution to your country, to this Agency, and to the intelligence profession in your many years of service. We do appreciate this contribution and wish you the best of satisfaction and enjoyment in the years ahead.

For 28 years Mr. Newton Scott Miler contributed greatly to the Central Intelligence Agency; in earlier years as an operations officer in China activities, starting off in 1947 in Mukden, later Shanghai, Hokkaido, Yokosuka, Subic Bay, Bangkok and Addis Ababa, and in recent years (1964 to 1974) he has specialized in counterintelligence; his ~~particular~~ competence being in the management of sensitive counterintelligence cases of the Agency and of other elements of the US Intelligence Community. An aggressive, independent, articulate officer, he was personally involved in the current conduct and in planning the future of counterintelligence as a function. He has exercised leadership and command in his specialty and has left his imprint on the modus operandi of his field. He has dealt with penetration operations, double agent operations, and in Soviet and Bloc operations targetted against Americans overseas, as well as in disinformation and deception operations. His performance in these has been a model of conception and execution. He has been a hard working and gifted officer who often made self-sacrifices to get his tasks accomplished. On his departure into retirement it is appropriate to award Mr. Miler the Career Intelligence Medal in recognition of his years of superior performance.

MEMORANDUM FOR: Secretary, Clandestine Service
Career Service Board

SUBJECT : Recommendation for Promotion -
Newton Scott MILER

1. This is a recommendation for the promotion for Mr. Miler from Grade GS-16 to GS-17. Details on career background and performance, elaborated in earlier promotions, will not be repeated.

2. Mr. Miler, in the last 18 months, has taken over as Chief of the Operational Group of the CI Staff. He has done an outstanding job in directing the performance of this component. Concurrently, he has implemented significant operational and reporting activity in several sensitive Staff undertakings. He has maintained mutually beneficial exchanges on CI matters with the Federal Bureau of Investigation, with the Department of State, and with other components of the Agency responsible for security matters. The range, quality, as well as the quantity, of Mr. Miler's work, are in the highest professional tradition of the Clandestine Service.

3. Mr. Miler supervises as Group Chief a Deputy and six senior officers, six other officers and six support personnel. His unit covers the whole range of incoming counterintelligence correspondence. The problems on which he and individuals under his direct supervision are called upon daily to render policy assistance and operational guidance include - to name the principal ones - double agent cases, penetrations, audio operations, surveillances, operational and personal security flaps, presidential protection, and divisional and branch program review and planning. Mr. Miler has galvanized the whole effort along these lines and has given creative, affirmative leadership in finding solutions as well as in delineating problems.

SECRET

4. Mr. Miler's performance overall has been outstanding. Furthermore, we regard him as an individual with outstanding potential for counterintelligence in the Agency and in the U.S. intelligence community. We believe Mr. Miler's performance as Operational Group Chief warrants the earliest consideration for promotion to the Grade of GS-17.

26 May 1969 - 20 June 1969

1. By memorandum dated 26 February 1970 Mr. Thomas H. Karamessines, DDP, expressed his appreciation for the work of the Senior Seminar and asked that all the participating officers be so informed. A copy of his memorandum is attached.

2. I would like to add that I thoroughly enjoyed working with each and every member of the Seminar. I am sure you will agree that the experience was interesting and valuable. The congeniality, dedication, and general unanimity of our group on all the major issues were impressive.

MEMORANDUM FOR: Mr. Warren Dean
Mr. Constantine Broutsas

SUBJECT: Clandestine Service Senior Seminar

1. I have been some time getting around to expressing my appreciation to you and through you to the other officers who participated in the Senior Seminar. Maybe it is just as well because, as you probably are aware, a number of the findings of the Senior Seminar have been, in one form or another, acted upon. In some of the cases, action that was already underway was accelerated. In others, the Seminar produced useful insights on the basis of which action was taken.

2. I know that it was a considerable labor for you but I would like you to be aware of the fact that I and the other officers in the Clandestine Service involved in the matters dealt with by the Seminar have been helped greatly by its several findings.

3. It is probable that we will want to do another running of the Seminar later this year. If so, I know that we will benefit from the excellent pilot run which you conducted.

MEMORANDUM FOR: Secretary, CSCS Board

SUBJECT: Recommendation for Promotion - Newton Scott MILER

1. This is a recommendation for promotion for Mr. Miler from Grade GS-15 to GS-16.

2. The career of this officer has been notably marked throughout with relatively important responsibilities for his age. His youth, intense drive, initiative, self-assurance, capacity for work, natural talent for determining the objectives, recognizing the problem, organization of the work to be done, administering and supervising the effort, have long been evident to those for and with whom he has worked. Years of service during which he has steadily matured has resulted in a recognition, by supervisors and subordinate fellow-workers alike of his unusually wide experience, proven soundness of judgement, organizational administrative and executive talent coupled with powers of expression both oral and written and demonstrated capacity for work. He is unquestionably a very outstanding officer.

3. Having entered on duty as a Code Clerk (GS-05) in October 1946 following an A. B. degree in Economics from Dartmouth College in a Navy V-12 Program, he was soon assigned to Shanghai where he remained a short period before a TDY assignment to open the communications station in Seoul, Korea. He was assigned to Mukden and Antung, Manchuria from April 1947 to June 1949 where despite being barely 21 years of age and an official designation as Code Clerk as Grades GS-5/7, he conducted Agent operations into Korea, USSR and China. He handled liaison with Chinese officers and counter espionage cases with X-2 officers. His talents were recognized and after TDY training at Headquarters, he was assigned to Shanghai as an Intelligence Officer. There he performed as a Case Officer and engaged in stay beyond planning, supervision of other junior Case Officers, and assisted in the evacuation of other CIA officers. Before he was 25 years of age, he established the station and served as Chief of Sapporo, Japan, for some 20 months (1949-51).

SECRET

~~EYES ONLY~~

4. He has successfully engaged in all types of operations - FI, CI, CA including PM and PW, but his principal talents have been in the Counter Intelligence, particularly Counter-Espionage field. His experience includes service as Chiefs of Station, Senior-Case Officer, Senior Staff Officer, and since September 1964, Deputy Chief of the Special Investigations Group of the CI Staff where he has had a major responsibility in the supervision of senior grade Counter Intelligence Officers as well as being personally and directly active in matters of agreat complexity and highest security considerations. In his service in that capacity he has demonstrated his outstanding abilities as a Counter Intelligence officer. He has carried a substantial portion of the work load of his office including supervision of both clerical and officer personnel, liaison with all elements of the Agency and other intelligence and security services of the government as appropriate. It is strongly recommended that he be promoted to Grade GS-16.

MEMORANDUM FOR MR. N. SCOTT MILER

VIA: Director of Central Intelligence

SUBJ: Expression of Appreciation (U)

1.(U) I hereby express my appreciation for service of the highest degree of excellence provided to my office during the past several months. You displayed professional competence that can only be described as exemplary in nature.

2.(U) It is unfortunate that the work on which you performed is of such a nature that it precludes a specific description herein, but that need not detract from the significance of this message of approbation. Of all the attributes displayed, the two most worthy of note are your use of imagination and persistence. These two qualities enabled you to produce results which others had not been able to obtain. Near failure was transformed into success.

3.(U) Not to be ignored is your administrative ability. The marshaling of resources available to you and coordination of the efforts of your available personnel contributed materially to the degree and quality of results obtained as well as the expeditious manner in which you proceeded. Also, selflessness was manifested by your willingness to ignore assigned working hours and press on as long as any hope existed for obtaining results.

4.(C) As you are aware, the results achieved by you have significance beyond the boundaries of the Navy. The full import cannot be completely evaluated at this time but it is known that the lives of many persons will be enriched by your efforts. It is regretted that all persons affected will not have the opportunity to express their thanks to you in person for the part you have played.

5.(U) On behalf of all persons who will benefit from your efforts, and on behalf of the Navy and myself, I again express my deepest appreciation and say to you a most hearty "well done".

6.(U) If it is consistent with the policy of your Agency, it is requested that a copy of this letter be made a part of your official record.

MEMORANDUM FOR: Chief, Africa Division

SUBJECT: Recommendation for Promotion - Newton Scott Miler

1. It is recommended that Newton Scott Miler be promoted from his present grade of GS-14 to GS-15. Miler was assigned to the Africa Division on 9 July 1961 and assumed his present position of Chief of Station, Addis Ababa, in September 1961. He has been in grade since 24 March 1957. In accepting his present assignment Miler assumed responsibility for a very complicated operational program requiring considerable reorientation and modification. In a short time he has been able to give purpose and direction to operations which previously had been the subject of considerable controversy within DD/P. It is worthy of note that Miler has accomplished this with an almost entirely new team, few of whom had any previous experience in African operations.

2. Under normal circumstances, the Supervisor would be inclined to delay a promotion recommendation pending further opportunity to observe first hand the performance of the individual. It is felt that Miler is a justifiable exception to this rule. Prior to his assignment to the Africa Division, Miler had been recommended for promotion by his former Supervisor who is presently Deputy Chief, CI-CE Staff. This man had apparently felt so strongly about Miler's performance that he had suggested that Miler be the one man on the CI-CE staff who should be given a jump promotion to supergrade. If necessary a memorandum supporting the remarks made can be obtained.

3. In addition to the above, the Supervisor has been associated with Miler in a professional relationship since 1946. The only gap in continuity was from the period 1956 to 1959. It is felt, therefore, that the Supervisor's evaluation of Miler's knowledge, ability, experience, and potential bears weight.

Newton Scott Miler

1. It is recommended that Mr. Miler be promoted to Grade 15.

2. During the two years that he has been an officer of the Operations Group of the CI Staff Mr. Miler has demonstrated an exceptional ability to interpret counterintelligence experience and practice in guiding operations in this area throughout the divisions of the DD/P. He has applied field experience gained in one area, combined with expertly informed Headquarters knowledge, to intricate and sensitive problems affecting U. S. security in a variety of geographic areas from the Far East to the Western Hemisphere and Europe with outstanding skill and sureness of judgment. He is aggressive, devotes long hours uncomplainingly to his tasks, and willingly contributes his guidance to officers of less experience. In personal relationships throughout the Clandestine Services he is admired, respected, and well-liked. His recommendations are eagerly sought and contribute in major fashion to increased effectiveness in carrying out the CI mission. It is again strongly recommended that he be promoted to GS-15.

2. Since July 1958 Mr. Miler has been serving in the Soviet/Satellite Branch of the CI Staff, Operations Division. In this position he has made a major contribution to the CI mission in his daily contacts with elements of the DD/P, Office of Training and Office of Security. Mr. Miler has excellent motivation, works long hours, readily accepts responsibility, and is highly effective in expressing his views both orally and in written form. He is resourceful, imaginative, and his operational judgment is superior. The frequency with which his professional advice is sought on an informal and personal basis is clear evidence of the high regard with which he is held by many individuals in the Clandestine Services. I strongly recommend him for promotion to the next higher grade.

INTERNATIONAL COOPERATION ADMINISTRATION
UNITED STATES OF AMERICA OPERATIONS MISSION TO THAILAND
BANGKOK, THAILAND

April 9, 1958

Mr. Theo E. Hall
Chief, Public Safety Division
International Cooperation Administration
Washington 25, D. C.

Re: Newton S. Miler

Dear Theo:

You have by now received our unclassified cable, TOICA 1408, advising of our acceptance of the resignation of Newton S. Miler who has served since December 27, 1956, as Chief of our Criminal Investigation Branch, Public Safety Division, USOM/T. It was with deep regret that I accepted the resignation since his departure on or about April 15, 1958, will be felt very keenly by both the Chief of the Division, Mr. Al DuBois, and myself.

Were it not for the pressing need of stateside medical attention for his wife and the fact that he should be with her during this period, I should have endeavored to prevail on him to take an alternative course of action. However, I am satisfied that there was no alternative and, hence, did accept the resignation effective April 15, 1958, it being noted that he is returning with his family to the States at his own expense.

This letter is to advise you of the facts leading to what would appear to be a sudden resignation. I also want to inform you that Miler's job performance here has, in my estimation, been of high order and can very easily be summarized by stating that he has performed most satisfactorily.

He has shown himself consistently to be tactful, considerate, and objective in his approach to his responsibilities and in the performance of his duties. I have at all times found that his judgment has been sound and mature. He has had warm and mutually satisfying relationship with his opposite numbers in the Thai police.

In furtherance of my statement of my confidence in him, I unhesitatingly designated him as Acting Chief of our Public Safety Division during Mr. DuBois' absence on TDY in Washington for the period March 9 through April 5, 1958. I naturally had continuing personal contact with him during that period and observed his handling of himself in Executive Staff meetings. The various attributes which I cited above were clearly demonstrated during this period and, in fact, his performance during this period permits me to add that I am satisfied with his supervisory abilities.

I would have no hesitancy in recommending his reemployment by ICA if in the future the present family health situation is rectified.

Sincerely,

Thomas E. Naughton
Director

MEMORANDUM FOR: FE Personnel Screening Board 8 July 1953

VIA : FE Personnel

FROM : Chief, FE/2

SUBJECT : Recommendation for Promotion, Newton S. MILER

1. It is recommended that the subject be promoted from GS-12 to GS-13. He is assigned as Chief, CE Unit of FE/2, with responsibility for initiative and guidance of China CE program, spotting and developing leads, advising the operations desks on CI protection of their operations, and maintenance of necessary records and files for the Branch.

2. The subject has been in his present grade since 2 September 1951. During this period he was assigned to FRU/FEC, a case officer responsible for China Independent operations. The attached extract from FRU/FEC Dispatch outlines his duties and performances in this capacity. From March 1953 until the recent assignment to position described in Para 1, he has been acting as case officer in Headquarters, in charge of the STPHOENIX project.

3. Mr. Miler has been employed by the agency since 1946, during which time he has held various operational assignments both in and connected with China. He has developed an excellent background in this work. I have had the opportunity to become familiar with subject's work and consider that he has performed in an excellent manner. It is believed that he is a particularly well qualified operations officer, who is capable of successfully handling additional responsibilities and expanding the scope of the China CE program.

MEMORANDUM

TO : Chief of Mission

FROM: Chief of Operations

SUBJECT: Request for Promotion of N. S. Miler

A. Subject is the Chief, ChiInd Section. During the past 9 months and under his aegis, the Section has grown from a 3 - 4 man section with 2 or 3 additional people in the field, to approximately 10 people at Hqs and 4 to 5 in the field at all times. During this time, he has taken on the tremendous additional responsibility in his section of the primary handling of FRU relations with and support of HT MERLIN, as well as the building of a sound basis of an enlarged FRU sub-station in Hong Kong, in addition to the overall direction of all FRU China Independent operations.

B. Subject requires little supervision or assistance in carrying out his job. He is mature and competent.

C. Subject exercises a maximum of independent action, directing his section and at the same time giving what amounts to on-the-job training to the junior case officers assigned to him.

D. Subject supervises directly the 14-15 individuals mentioned in A above. As such he is responsible for all their work. He has discharged this responsibility, a particularly heavy one in view of the inexperience of his personnel, in an exemplary fashion.

E. Subject is a highly qualified operations officer with demonstrated executive abilities and hard working. He has consistently made a major contribution to the proper functioning of FRU.

CONFIDENTIAL

F. Subject was last promoted on 2 September 1951 from GS-11 to GS-12. He is a definite, career-employee asset to the organization and it is now recommended that he be promoted from GS-12 to GS-13.

STANDARD FORM NO. 64

Office Memorandum • UNITED STATES GOVERNMENT

TO : CID
Thru : COPS
FROM : Chief, FBZ

DATE: 21 June 1948

SUBJECT: Promotion for Newton Scott Miler

1. It is recommended that Mr. Newton Scott Miler, Operations Officer, Mukden, China, ESD station, be promoted from CAF-7 to CAF-9. Mr. Miler has been carrying out the functions and responsibilities of a CAF-9 officer for sometime. Records indicate that he was put in for promotion to CAF-7 August 1, 1947. Through delays caused by the long route from Mukden to Shanghai to Washington and by the reorganization of our promotion policy last winter, Mr. Miler was not promoted until March 2, 1948.

2. He has performed with distinction as an operations officer in Mukden, discovering an important, highly organized North Asian political movement and making operational contact with it. He is in the U.S. on TDY at this time and he is greatly needed in the Mukden operational area to handle the operation referred to and then at Peiping when Mukden is no longer tenable.

3. Mr. Miler feels that he has been in grade longer than the record shows because he was under the impression that action in the field set the date of the new grade. While this is in error, the field practice of giving a detailed notice of what would result from promotion in way of deductions and net pay tended generally to give employees the impression that promotion actions were definite long before they actually were. This paper work has since been stopped.

4. Because this operations officer has performed in an outstanding way, because he is badly needed in the field, and because he has great long term value to the organization and should be encouraged to develop, it is recommended that he be promoted to CAF-9 effective on the completion of his TDY when ready for return to China.

1. Discussion of the attached letter with Captain Howard Olson revelas that the following ESD #44 personnel are officially assigned to Communications Division but actually are doing and for some time have done no Communications work, and have no apparent interest in returning to Communications Division:

William S. Renehan	- Services
Newton S. Miler	- S. I.
Hugh R. Hoover	- Services
Hugh R. Redmond	- S.I.

With the exception of Mr. Hoover, it is requested that transfer of the personnel from Communications Division to the Sections where they are now detailed, as indicated above, be formalized. Mr. Hoover is returning to the United States in December. Such transfers are, according to Captain Olson, acceptable to Colonel Moscrip, and will materially clarify all personnel records.

1. For sometime now, we have had the papers in Washington for the reclassification of Mr. David E. West and Mr. Newton S. Miler.

2. Mr. David West is now stationed in Peiping and is ably performing the duties of a Junior Intelligence Officer. He is responsible for the Harial net which he has very successfully taken over from Mr. Frank Bessac. In addition to this, he is also handling Glonads. It is hoped that his reclassification to a CAF-9 will be forthcoming.

3. Mr. Newton S. Miler, who is presently a CAF-5, is now stationed in Mukden and is performing the duties of a Junior Intelligence Officer. He is handling some North Korean operations from the Mukden station and is rapidly gaining experience. It is hoped that his reclassification to a CAF-7 will be acted upon.

Dear Bob,

Thank you for initiating action on my promotion and for attempting to obtain a transfer. I understand the situation about the transfer and realize that nothing more can be done in the field. Am satisfied, however, since no complications will arise from my being carried on [illegible] books.

Have signed the personal action papers and this is, I hope, a rough draft of a job description.

Collection and dissemination of SI information; establishment and direction of intelligence nets; interrogation of POW's and refugees from Communist areas and North Korea; coordination of intelligence nets being run into North Korea, Communist Manchuria, Dairen and Siberia; at present am directing a CE net in Mukden which will eventually turn into an SI net.

Thanks again, Bob

Dear Scotty

Enclosed please find personal action papers for your promotion. Please sign all four copies and return as soon as possible. Also, please prepare a job description in rough draft. I will have it edited and typed on the form.

A cable was sent to Washington asking for your transfer and promotion and an answer came back advising that it was impossible to transfer personnel from one branch to another in the field. The only place possible would be Washington after you return to the States. They advised that all personnel in the field were assigned to FSRO and that we were free to use personnel in whatever capacity we deemed best and that promotion papers be pouched to Washington for their consideration. This evidently is their policy because Renehan and Hoover have both received raises and are working for Services though originally sent out for Commo work by Washington.

You are doing a good job, keep it up and don't forget to have a good time while Nell is there.

FR. REPORT [illegible] 055431 311074

21 May 1974

MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT: Newton Scott MILER (012773)
Reporting Period 1 February 1973 - 31 January 1974

1. Mr. Miler is a uniquely qualified senior officer who has specialized in counterintelligence. He has particular competence in background and management of sensitive counterintelligence cases of the Agency and of the other elements of the U.S. intelligence community. He is independent and aggressive in viewpoint, articulate, and personally deeply involved in the current conduct and future of counterintelligence as an operating function. He has excellent potential in the exercise of leadership and command in the counterintelligence specialty; in this respect I regard him as being without a peer among the younger officers in the DDO.

2. He has been a most dependable worker and counselor in the reorganization that has taken place in the DDO over the past year. He has been an unfailing source of constructive, forward-looking suggestions and ideas, not only with respect to the problems in his own specialty, but in the work of CIOPS as a whole. He made specific contributions to the formulation of the CIOPS Charter (DON 1-1180) and its organizational implementation (DON 1-1216). As a consequence of the reorganization of CIOPS, he has been designated as an Associate Chief, Counter Intelligence Operations for Operations. In conformity with the indication of Chief, CIOPS he has reorganized his component accordingly and commands resources consisting of 17 officers and junior officers and six clerical personnel [one GS-15, five GS-14s, five GS-13s, three GS-12s, two GS-11s, one GS-08 I.A., one GS-07 clerical, two GS-06s, three GS-05s] through which he covers Penetration operations, Double Agents, Soviet and Bloc operations against Americans overseas, Disinformation and Deception, and Counterintelligence COMINT. He has charged each of his operating sections with appropriate Letters of Instruction. He is meticulously informed of the work going on in each of his charges. Under his guidance and instruction there has been significant and measurable production and results during the past year. His performance of this task has been a model of conception and execution and reflects most favorably on his capacity to exercise command and leadership.

SUBJECT: Newton Scott MILER (012773)
Reporting Period 1 February 1973 - 31 January 1974

3. Mr. Miler is a case specialist in sensitive counterintelligence matters. He has a career accumulation of exposure, recall, and operational insight into past and present activity along these lines with the FBI, State Department, Department of Defense, and the military agencies. He is skilled in the conduct of counterintelligence and security liaison on a senior level with these agencies. It is noteworthy that he has the confidence of the FBI leadership and in the past year he has worked on sensitive counterintelligence cases involving the Soviets and Bloc with the FBI in a highly productive and professional fashion. In addition he has taken the initiative in developing and conducting productive liaison on counterintelligence cases involving Penetration and Disinformation with the British services, MI-5 and MI-6, and the RCMP, the Australian, and the New Zealand security services. Mr. Miler's work with MI-5 and MI-6 has involved the production of studies and the chairing of meetings among liaison specialists in Soviet clandestine agent radio communications. He is a working committee member of the national inter-agency organization dealing with the planning and execution of deception in Double Agent operations, working directly under the Chief, CIOPS in this respect. This task brings him into close and continuing relationship with the appropriate component of the Joint Chiefs of Staff and other interested Federal agencies. Because of his grasp and appreciation of the day-to-day problems of the charter responsibilities of CIOPS, he takes part actively and effectively in the training and doctrinal presentations within and outside the Office of Training (OTR). In particular, he participates in senior-level OTR training activities (the Mid-Career Course) and during the period under review in a special advanced counterintelligence course sponsored jointly by OTR and CIOPS for senior officers of the Office of Special Investigations/Air Force (OSI/AF) and in FBI retraining of its field officers in counterintelligence matters.

4. In addition to his managerial and advisory functions outlined above, Mr. Miler is charged with the management of specific live operations under the direction of Chief, CIOPS. Among other things, he is charged with the handling of a difficult and complex Soviet defector contact. This relationship requires the dedication of very much of his own time, and the presentation of detailed contact reports on a continuing basis and the maintenance of a very high order of personal and professional discipline.

5. It is impossible to say too much in praise-worthy description of the performance of this officer. He is one of the hardest working,

SUBJECT: Newton Scott MILER (012773)
Reporting Period 1 February 1973 - 31 January 1974

most gifted counterintelligence officers, and in the past year he has done a first-rate job with very restricted means and at the expense of continuing personal self-sacrifice. In all of his dealings I have found Mr. Miler to be cost conscious. I rate him Outstanding.

Raymond G. Rocca
Deputy Chief
Counter Intelligence Operations

I certify that I have read the above comments.

1. Mr. Miler directs and supervises the Operations Group of CI Staff consisting of 21 people, 16 of whom are officers. This Group gives staff day-to-day guidance, program support and technical guidance and review to the Clandestine Service's area Divisions and Branches on the Agency's current counterintelligence operations and activity. This Group reviews Agency counterintelligence operational plans, projects and amendments. It judges their technical feasibility and recommends changes and/or approval of such operations and programs.

Mr. Miler supervises personally the activity of his operational personnel in the performance of these duties. He conducts liaison, including specialized reporting and participates in working groups with other U.S. government components, in particular with the FBI, on operations and matters of sensitive counterintelligence and counterespionage as directed by the Chief, CI Staff.

Under the direction of Chief, CI Staff he participates in the Inter-Agency Working Group concerned with operational deception. In the course of his work he formulates CI policies, procedures and guidelines, develops new ideas and approaches and targets for CI operational and research projects that cut across Agency and government lines and require central coordination.

2. Mr. Miler plans, develops and conducts special cases including the handling of live operational sources as directed by C/CI Staff. He takes an active part in the maintenance, development and participation in sensitive, personal level working relations with the intelligence and security representatives of four foreign countries.

3. Mr. Miler is one of our counterintelligence leaders. He has a tremendous capacity for hard work and a willingness to perform the work without reference to time or personal interest. He is an extremely loyal individual. He has an extraordinary memory for operations and an ability to work constructively and usefully with details. He is ambitious, self-confident, a driving leader who is

willing to accept responsibility. He is imaginative and creative in his approach to operations. A practical example of Mr. Miler's work along these lines was his presentation on CIA's role in operational deception at the JCS Strategic Planning Seminar held from 17-21 April 1972.

4. I rate Mr. Miler in the overall performance of his job as Strong.

MEMORANDUM in Lieu of Fitness Report

SUBJECT: Newton Scott MILER
(1 April 1969 - 31 March 1970)

1. During the current rating period Mr. MILER was transferred from his previous position as Deputy Chief of the Special Intelligence Group of the Counter Intelligence Staff to the position of Chief of the Operations Group of the same Staff. This was a new position and as such required unusual skills and vigor to give dimension to the job to be done. Mr. MILER approached his task with imagination and energy. He inherited an incohesive group of capable officers and immediately began the task of trying to define common denominators for their operational activities, to weed out duplicatory and marginal tasks, to establish clearly delineated guidelines and to provide a sense of discipline, all aimed toward giving better counterintelligence guidance and support to the operations of the area divisions and the operational components of the CA Staff. DE 70

2. At the same time Mr. MILER has continued to handle, under the direct guidance of the Chief, Counter Intelligence Staff, a number of extremely sensitive cases to which he has contributed analytically and developmentally. The cases required not only keen operational sense in their handling, but a strong feeling for liaison as many of the cases involved frequent high-level discussion and negotiation with other components of CIA as well as with outside agencies and departments. In fulfilling these responsibilities, Mr. MILER has worked without regard to hours or to his personal convenience. He has assiduously tried to reflect the thinking of the Chief of the CI Staff and to relate it to the operational problems he is handling. He has also given mature, insightful supervision and encouragement to the orientation and development of a Deputy Chief, Operations, another important innovation in the Staff's organization.

3. As a member of the Program Review Panel Mr. MILER contributed fully in examining, reviewing and commenting on the programs of the operating components within the Clandestine Service. He, together

[illegible]

SECRET
EYES ONLY

with other members of the Panel have striven to devise a formula to give management a clear, concise picture of what we intend to do and what we are doing and have done to make those intentions reality.

4. Mr. MILER has maintained contact with a number of key foreign intelligence officials with whom he has worked overseas. His home has been available to them during their visits to the United States.

5. While being able to adjust his own thinking when and as required by a given situation, Mr. MILER has strong personal convictions on operational matters and does not hesitate to advance his opinions or to push for his recommended solutions.

6. Mr. MILER is currently directing an office which includes in its complement one GS-16 and SIX GS-15s. He is also responsible for the career development of EIGHT more junior case officers. The above is in addition to the normal supervision of the remaining group staff. In performing these functions, he is cost-conscious and economizes in the expenditure of government funds and the valuable time of senior officers.

7. Mr. MILER would be the first to admit that many problems remain for him in his current assignment. He would also readily acknowledge that he has not yet been able to clearly define each of these problems or to provide the perfect solution for every one which has been isolated. Progress, however, is being made every day and Mr. MILER clearly demonstrates that his promotion to GS-16 in 1969 was deserved and that it will not be the last which he will merit. This is an officer of high professional integrity and dedication. He is a self-starter, he works and thinks realistically. He speaks his mind when he has something to say - including critical things, yet retains a good sense for the craftsman's side of the CI job. He is not adept just at identifying problems, he finds the solution.

Manner of performance of managerial or supervisory duties must be described, if applicable.

The narrative comments contained in Mr. Miler's previous Fitness Report continue to be applicable. Suffice it to say, for the purposes of this Fitness Report, Mr. Miler proved to be an alert, intelligent and experienced officer who did his best to produce satisfactory results in an area which has proved over the past years to be an extremely difficult area in which to operate.

Mr. Miler satisfactorily performed all supervisory duties, supervising 3 persons within the Station and providing guidance for communications personnel located in a large communications base in Ethiopia. He is cost conscious.

MAIL ROOM

Mr. Miler is an alert, intelligent, and experienced officer who has worked hard to produce results in what has proved over the past years to be an extremely difficult area in which to operate. With some notable exceptions, the station under his direction has failed to surmount these environmental problems and to develop productive operations against high priority targets. This should not be interpreted as meaning that the station has failed to mount new operations; merely that fewer key operations have been mounted than Headquarters would have desired.

Mr. Miler has been rated as adequate in his liaison with the Ambassador and other members of the country team despite the fact that the Ambassador, in a private conversation with Headquarters officers, indicated his dissatisfaction and that of the Deputy Chief of Mission with what the Ambassador described as Mr. Miler's failure to participate in country team activities and his failure to establish a satisfactory working relationship with the Ambassador. On the basis of the Ambassador's comments Mr. Miler might have been given a rating of "Weak" on this point. However, in view of the problems which sometime develop in the field in

coordinating agency operations with the overall policy objectives of the Embassy, the rating officer believes that Mr. Miler must be given the benefit of the doubt on this point.

The station under Mr. Miler's direction has been successful in developing CA operations within the field of labor, and liaison operations have improved considerably in recent months. Mr. Miler has been particularly successful and cooperative in servicing requests for operational support from other field stations. He has provided valuable support and coordination in Africa Division's efforts to penetrate and influence an effective and moderate all-African organization.

Mr. Miler has satisfactorily performed his supervisory duties, supervising nine persons within the station, as well as providing guidance for communications personnel located in a large communications base in Ethiopia. He is cost conscious and fully understands the need for economy.

OFFICE OF PERSONNEL

Subject has been at his present post for about eighteen months. He has been working aginst most difficult targets involving a government and a society enormously frustrating to deal with. In the light of this situation, it can only be said that the results of his efforts have been gratifying. Subject's performance, in any case, has been highly professional. He has succeeded in effecting a great amount of clarity regarding some fairly long-standing and complicated operational activities. He is particularly strong in the CA field. This is Subject's first assignment as a Chief of Station and it is interesting to observe that he possesses a great deal of natural managerial skill. In supervising subordinate personnel he has also considerable competence. Although he has experienced difficulty in the handling of one officer, there is no evidence that Subject has fallen short of doing his duty. Morale at his Station is high. Reference should be made to Subject's highly-developed sense of integrity and intellectual honesty. Another strong and useful attribute is his innate sense for anticipating possible Agency-Embassy problems and to act upon them before they evolve. If there is any weakness in Subject's performance as Chief of Station, it is probably the occasional belated communication to Headquarters. This Branch considers itself fortunate to have Subject in his present position and supports his desire to extend for one year beyond the expiration of his present tour. Subject's promotion during 1962 is further evidence of Headquarters' confidence in him.

Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Subject has had lengthy experience both in field and headquarters operational assignments emphasizing FI and CI objectives. He is particularly mature in applying tradecraft principles and faces operational situations with detachment and balance. Subject approaches and executes his tasks with careful planning and forethought. He is attentive to detail; conscientious to duty. While Subject tends to be somewhat reserved, perhaps cautious, in a strange situation, he displays an even temperament and honesty toward associates and contacts.

This is an unusually qualified officer in experience and ability, uniquely suited to the long range needs of DD/P. During the period covered by this report he was recommended for promotion to GS-15.

A combination of illness shortly after arrival at station and subsequent lengthy royal mourning periods have given Miler less opportunity to show his talents than would otherwise have been expected. However, nothing has occurred in Addis to change the above high evaluation.

4 - PERFORMS DUTIES IN A COMPETENT, EFFECTIVE MANNER.
5 - A FINE PERFORMANCE. CARRIES OUT MANY OF HIS RESPONSIBILITIES EXCEPTIONALLY WELL.

SECTION IV

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. No descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale within each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at the statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

12. IN WHAT RESPECT IS THIS PERSON'S PERFORMANCE ON PRESENT JOB MOST NOTICEABLY GOOD OR OUTSTANDING?

Subject's outstanding qualification is his initiative.

13. ON WHAT ASPECT OF PERFORMANCE SHOULD THIS PERSON CONCENTRATE EFFORT FOR SELF IMPROVEMENT?

Effort should be made to improve his general headquarters techniques. This will tend to occur as he continues in a headquarters position of responsibility. Nothing should be done to limit his initiative and enthusiasm; he is fully capable of recognizing the need for tempering his drive to suit headquarters standards.

14. COMMENT ON THIS PERSON'S ABILITY TO HANDLE GREATER RESPONSIBILITIES NOW OR IN THE FUTURE.

At the conclusion of his headquarters tour, subject will be ready to assume a key position on a large staff, or in a small station. No greater responsibilities should be given subject during the next year, during which time, he will adjust from field to headquarters. As of 1 June 1953 subject became Chief, FE/2 CE.

15. ARE THERE OTHER DUTIES WHICH BETTER SUIT THIS PERSON'S QUALIFICATIONS? (Recommend appropriate reassignment, if possible.)

Subject is presently best suited to CE work. At the close of this tour, consideration should be given to shifting him to positive intelligence operations, the conduct of which will be strengthened by his CE experience.

16. WHAT TRAINING OR ROTATION DO YOU RECOMMEND FOR THIS PERSON?

Before moving to his next assignment, subject should be given all formal training through Phase III, plus certain special TSS courses.

20. COMMENTS: (If necessary, may be continued on reverse side of cover sheet.)

As an exception to the recommendations made in item #15, it is the reviewing officer's opinion that subject may well have a contribution to make in the CE field on a continuing basis. This is based on subject's performance in CE during the period covered by "A" and "B" of item #7 when subject worked under the reviewing official's supervision. It is felt that subject is genuinely interested in CE, and because of the high degree of specialization required subject might probably be encouraged to concentrate on this field.

Section 7 cont'd

B. Staff and liaison duties with four CIA field missions which desired and requested support and assistance for CE activities, positive operations and in connection with PP and PM activities. Duties required offering advice and guidance and organizing procedures within the section and other elements of field headquarters to support other missions.

C. Liaison with non-CIA agencies such as G-2, AFFE and CIC in order to obtain information and cooperation of assistance to section and mission in achieving objectives.

Duties in Headquarters:

A. Creation and organization of a Branch CE section designed to provide a fuller exploitation of the potential against China. Requires the planning and implementation of an overall program and the supervision, guidance and direction of approximately 13 people in order to obtain the best operational results from analyzing, critiquing and developing available and new information.

B. Case officer for a major CIA project which is in the process of definitive reassessment in terms of basic potential, procedures for exploitation and results achieved to date. The project is basically designed to achieve a PM, or resistance, objective but the implementation of the project requires the initial application of techniques and standards which are designed to collect information a positive or FI sense and which require a major CE effort for the protection of the project. Duties require operational and policy guidance to field mission of approximately 90 CIA officers with the attendent duties of critiquing and reviewing activities from the operational and security standpoints, and the supervision of administrative support requirements from the field.

Subject is a highly qualified operations officer with demonstrated executive abilities. His primary shortcoming is his lack of self-discipline as far as his personal self is concerned. This has resulted in subject's inability to observe normal working hours in ~~[illegible]~~ reporting for duty ~~[illegible]~~. It is not meant to infer that subject has been lax in total number of hours devoted to his job, rather he is inclined to set his own schedule, claiming illness as the cause. In considering the above, it should be kept in mind that subject has been in the field over three years, and is overdue for a mental and physical rest. It is reccommended that subject be considered for a Headquarters assignment in a senior operations capacity.

While employee is young in years he has handled his duties in a very satisfactory manner. As Chief of the Sub-station in Hokkaido, his duties have been particularly delicate in the liaison capacity and in jointly mounted operations with the U.S. Army. He is recommended for promotion at this time, the Reporting Officer believes action [illegible] be delayed for an additional six months.

Subject is a highly qualified operations officer with demonstrated executive abilities.
His primary shortcoming is his lack of self-discipline as far as his personal self is
concerned. This has resulted in subject's inability to observe normal working hours in
reporting for duty. It is not meant to infer that subject has been lax in total number
of hours devoted to his job, rather he is inclined to set his own schedule, claiming
illness as the cause. In considering the above, it should be kept in mind that subject
has been in the field over three years, and is overdue for a mental and physical rest.
It is recommended that subject be considered for a Headquarters assignment in a

IN [illegible] WASHINGTON HEADQUARTERS NOT LATER THAN [illegible] DAYS AFTER CLOSE OF REPORTING PERIOD.

A. THE REPORTING OFFICER IS DEFINED AS THE EMPLOYEE'S IMMEDIATE SUPERVISOR. IN OTHER WORDS THE PERSON WHO IS PRESUMABLY BEST ACQUAINTED WITH THE EMPLOYEE'S WORKING EFFICIENCY. HOWEVER, DEPENDING UPON CIRCUMSTANCES, THE CHIEF OF STATION MAY NOT WISH TO ENTRUST THE IMMEDIATE SUPERVISOR WITH THIS RESPONSIBILITY. IN ANY CASE, THE CHIEF OF STATION WILL CHANGE OR MODIFY THE RATING OF THE REPORTING OFFICER WHEN SUCH CHANGES OR MODIFICATIONS ARE CALLED FOR. THE CHIEF OF STATION IS ULTIMATELY RESPONSIBLE FOR THE ACCURACY OF FACTS AND STATEMENTS WHICH APPEAR ON THE STATUS AND EFFICIENCY REPORT. IN MANY CASES, ESPECIALLY IN A SMALL UNIT, THE CHIEF OF STATION MAY WISH TO FILL OUT ALL THE REPORTS HIMSELF.

2. IN ADDITION TO THE ANNUAL REPORT, THE FOLLOWING SPECIAL REPORTS, UTILIZING THE SAME FORM, WILL BE RENDERED:

A. UPON COMPLETION OF FIRST NINETY (90) DAYS OF SERVICE AT A STATION.

B. UPON RELIEF OR REASSIGNMENT OF REPORTING SENIOR.

C. UPON DETERMINATION OR RECOMMENDATION THAT AN EMPLOYEE IN A FIELD STATION SHOULD BE REASSIGNED TO ANOTHER STATION OR RETURNED TO U.S. FOR REASSIGNMENT OR OTHER DISPOSITION. SUCH REPORT WILL BE FORWARDED SO AS TO REACH THE WASHINGTON HEADQUARTERS AT THE EARLIEST POSSIBLE DATE AFTER SUCH REASSIGNMENT DETERMINATION IS MADE. IF POSSIBLE, THE REPORT SHOULD BE SENT IN AT LEAST THREE MONTHS PRIOR TO PROPOSED REASSIGNMENT IN ORDER THAT ALL TIME POSSIBLE MAY BE DEVOTED TO APPRAISAL AND EVALUATION. IF CONSIDERATION OF REASSIGNMENT IS BEING GIVEN WITHOUT EMPLOYEE'S KNOWLEDGE, ITEMS 1 TO 6 WILL BE FILLED IN AS FAR AS POSSIBLE BY THE RATING OFFICER WITHOUT REFERRAL TO EMPLOYEE.

3. IN FAIRNESS TO THE INDIVIDUAL BEING RATED AND IN THE INTEREST OF THE GOVERNMENT, THE IMPORTANCE OF CAREFULLY PREPARED AND ACCURATE EFFICIENCY REPORTS CANNOT BE OVERSTRESSED. THE FOLLOWING BASIC PRINCIPLES OF RATING SHOULD ALWAYS BE KEPT IN MIND:

A. ALWAYS BASE YOUR JUDGMENT ON:

(1) WHAT YOU HAVE OBSERVED THE INDIVIDUAL DO OR FAIL TO DO.

(2) TYPICAL PERFORMANCE, NOT ON AN ISOLATED STRIKING INCIDENT.

(3) EXAMPLES RELEVANT TO THE CHARACTERISTIC UNDER CONSIDERATION.

(A) THE EFFICIENCY REPORT IS TO BE USED TO RATE ALL CIVILIAN EMPLOYEES. BUT REPORTING OFFICERS SHOULD BEAR IN MIND THAT DIFFERENT STANDARDS PREVAIL IN DIFFERENT ASSIGNMENTS WHEREAS IT IS NECESSARY, FOR EXAMPLE, THAT AN INTELLIGENCE OFFICER POSSESS INITIATIVE, THIS SAME TRAIT IS NOT ALWAYS DESIRABLE, EXCEPT IN A MINOR WAY, FOR A TYPIST. THE RATINGS AND EVALUATIONS SHOULD BE IN REFERENCE TO THE JOB - THE ACTUAL WORK ASSIGNMENT FOR WHICH THE PARTICULAR EMPLOYEE IS BEING PAID. EVERY EFFORT SHOULD BE MADE TO ARRIVE AT A JUST ESTIMATE OF THE QUALITIES OF THE PERSON REPORTED ON FOR THE PERIOD COVERED BY THE REPORT. AVOID EXAGGERATIONS AND SUPERLATIVES: THEY DETRACT FROM THE VALUE OF A REPORT AND ARE UNFAIR TO OTHERS.

B. BIASED OPINIONS BASED ON PERSONAL LIKES AND DISLIKES MUST BE SCRUPULOUSLY AVOIDED. IT SHOULD BE BORNE IN MIND THAT THE PREPARATION OF EFFICIENCY REPORTS IS AN IMPORTANT FUNCTION OF ALL SUPERVISORS OF EMPLOYEES, AND THE ACCURATE AND TRUE EVALUATIONS EXPRESSED THEREIN ARE A DIRECT REFLECTION UPON HIS OWN ABILITY AND QUALIFICATION FOR THE POSITION HE HOLDS.

C. NO REPORTS WILL BE RENDERED COVERING PERIODS OF LESS THAN 60 DAYS OBSERVED SERVICE.

4. REPORTS WILL NORMALLY BE CLASSIFIED CONFIDENTIAL; HOWEVER, THE CLASSIFICATION MAY BE RAISED IF DEEMED ADVISABLE BY RATING OFFICER.

5. REPORTS WILL NEVER BE SHOWN TO THE EMPLOYEE REPORTED ON.

DISPOSITION OF REPORTS

1. REPORTS WILL BE FORWARDED TO THE APPROPRIATE BRANCH CHIEF IN WASHINGTON HEADQUARTERS WITHIN TEN (10) DAYS AFTER THE CLOSE OF THE REPORTING PERIOD.

2. IF THE REPORTING OFFICER IS THE CHIEF OF STATION, REPORTS WILL BE FORWARDED BY HIM TO THE APPROPRIATE BRANCH CHIEF IN WASHINGTON HEADQUARTERS.

3. IF THE REPORTING OFFICER IS NOT THE CHIEF OF STATION, THE REPORT WILL BE REFERRED TO THE NEXT IN COMMAND FOR REVIEW AND FINALLY TO THE CHIEF OF STATION FOR FORWARDING TO WASHINGTON HEADQUARTERS.

4. UPON RECEIPT OF REPORT IN WASHINGTON HEADQUARTERS, THEY WILL BE REVIEWED BY THE BRANCH CHIEFS PROMPTLY AND THEN REFERRED TO THE ASSISTANT EXECUTIVE FOR PERSONNEL FOR RETENSION IN THE PERSONNEL FILE OF THE EMPLOYEE.

A. IF A CHANGE OF PERSONAL STATUS IS REPORTED UNDER SECTION 6, ONE COPY OF SUCH REPORT WILL BE DETACHED AND SENT TO THE SECURITY OFFICE.

COMMENT:

Subject's grades speak better than any comments could. There is no question but that he brought more to the course and consequently had less to gain from it than any of his fellow students, which makes his performance the more worthy. His assistance to the instructors with Far East material is much appreciated.

OBJECTIVES AND CHARACTERISTICS OF THE COURSE

TRAINING OBJECTIVES: To provide the student with an understanding of the operational objectives, regulations, and procedures, and the basic policy considerations and operational security standards of the Clandestine Services of CIA sufficient to allow him to perform professionally an initial assignment under supervision within the DD/P organization. Specific objectives of the Major Elements of the Course are these:

A. Organization of the Clandestine Services

1. Mission, objectives, and commitments: The student should be familiar with the general content and source of the directives underlying clandestine objectives and activities, as they might appear in a country plan.

2. Organization and function at Headquarters and abroad: The student should be familiar with the organization, functions, and levels of responsibility of the Area Divisions, the Senior Staff, and the Field Station. He should appreciate the effect of local conditions in determining the organization of a Field Station. He should be familiar with the general nature of the HQ Support Organization, the assistance provided, and the coordination requirements to be met by the Field and the HQ Desk in matters of personnel administration, funding, logistics, communications, and TSS activities.

B. Operational Activities of the Clandestine Services

1. Approaches to operational activity: The student should be familiar with methods of attaining objectives (i.e. liaison, agent assets) and the policy considerations and other factors affecting the choice of particular methods.

MEMORANDUM FOR: Supervisors and Training Officers Concerned

SUBJECT: Training Evaluations for Phase III #2

1. Attached is a training evaluation for one of the students who completed Phase III Course #2.

2. This student participated in the second presentation of the revised five-week curriculum for this course. As the course develops, it is possible to provide more detailed reports of performance, as represented by the nine grades assigned in Section II, "Performance Record."

3. As a consequence of introducing new material, there was considerable delay in returning graded assignments to the students, and some of the later assignments were not graded until after the course was completed. Because of this, students did not have sufficient opportunity to profit from the errors in their earlier performances. This factor should be considered when interpreting the attached report.

MEMORANDUM FOR THE RECORD

SUBJECT : Retirement - Scott Miler

1. The retirement of Subject, effected as a result of a memorandum from the Head of his Career Service stating that he is surplus to the needs of the Service and that his retirement will be recommended to the Director under the provisions of the CIA Retirement and Disability System pertaining to involuntary retirement, in no way implies an adverse action. Subject signed an application for retirement of his own volition in order to qualify for an immediate retirement annuity. The liberalized criteria for such separations was established by the Agency to parallel similar action under the Civil Service Retirement System in accordance with FPM Letter No. 831-23, dated 10 December 1969.

2. Any inquiry received concerning the nature of the separation of Subject from the Agency should be confirmed simply as a retirement.

MEMORANDUM FOR: Secretary, CSCS Board

SUBJECT : Recommendation for Promotion - Newton Scott MILER

1. This is a recommendation for promotion for Mr. Miler from Grade GS-15 to GS-16.

2. The career of this officer has been notably marked throughout with relatively important responsibilities for his age. His youth, intense drive, initiative, self-assurance, capacity for work, natural talent for determining the objectives, recognizing the problem, organization of the work to be done, administering and supervising the effort, have long been evident to those for and with whom he has worked. Years of service during which he has steadily matured has resulted in a recognition, by supervisors and subordinate fellow-workers alike of his unusually wide experience, proven soundness of judgment, organizational, administrative and executive talent coupled with powers of expression both oral and written and demonstrated capacity for work. He is unquestionably a very outstanding officer.

3. Having entered on duty as a Code Clerk (GS-05) in October 1946 following a A.B. degree in Economics from Dartmouth College in a Navy V-12 Program, he was soon assigned to Shanghai where he remained a short period before a TDY assignment to open the communications station in Seoul, Korea. He was assigned to Mukden and Antung, Manchuria from April 1947 to June 1948 where despite being barely 21 years of age and an official designation as Code Clerk as Grades GS-5/7, he conducted Agent operations into Korea, USSR and China. He handled liaison with Chinese officials and counter espionage cases with A-2 officers. His talents were recognized and after

TDY training at Headquarters, he was assigned to Shanghai as an Intelligence Officer. There he performed as a Case Officer and engaged in stay behind planning, supervision of other junior Case Officers, and assisted in the evacuation of other CIA officers. Before he was 25 years of age, he established the station and served as Chief at Sapporo, Japan, for some 20 months (1949-51).

4. No attempt will be made to list here the many and varied assignments and successes he has had in this long and youthful career. He has successfully engaged in all types of operations - FI, CI, CA including PM and PP, but his principal talents have been in the Counter Intelligence, particularly Counter-Espionage field. His experience includes service as Chiefs of Station, Senior Case Officer, Senior Staff Officer, and since September 1964, Deputy Chief of the Special Investigations Group of the CI Staff where he has had a major responsibility in the supervision of senior grade Counter Intelligence Officers as well as being personally and directly active in matters of great complexity and utmost security considerations. In his service in that capacity he has demonstrated his outstanding abilities as a Counter Intelligence officer. He has carried a substantial portion of the work load of his office including supervision of both clerical and officer personnel, liaison with all elements of the Agency and other intelligence and security services of the government as appropriate.

5. His executive ability, thoroughness, usefulness of work product, energy, speed, proficiency, initiative, clarity of written and oral expression, managerial skill, experience, soundness of judgment, selflessness, tact, considerate and objective approach to his responsibilities and performance of duties, astute application of tradecraft, leadership, dependability, resourcefulness and general high professional competence make him an outstanding highly valuable officer to the Agency. It is recommended that he be promoted to Grade GS-16.

SUBJECT: Letter of Appreciation

During the week of July 8 - 12, 1968, the Office of Security held a seminar for selected State Department overseas security officers. Among the multitude of subjects on the agenda, I considered none more important than personnel security. I was, therefore, immensely pleased that Mr. Scott Miler accepted our invitation to speak on "Foreign Intelligence Operations Against U. S. Personnel."

Citing statistics from his extensive research, Mr. Miler impressed us with the magnitude of hostile targeting efforts against Americans overseas. After this informative briefing, he engaged the conferees in a productive exchange of views on solving problems of mutual concern.

I am most grateful to you for permitting Mr. Miler's participation in our Regional Security Officer Seminar and hope that you will extend to him my appreciation for his excellent talk.

MEMORANDUM FOR MR. N. SCOTT MILER

VIA: Director of Central Intelligence

SUBJ: Expression of Appreciation (U)

1.(U) I hereby express my appreciation for service of the highest degree of excellence provided to my office during the past several months. You displayed professional competence that can only be described as exemplary in nature.

2.(U) It is unfortunate that the work on which you performed is of such a nature that it precludes a specific description herein, but that need not detract from the significance of this message of approbation. Of all the attributes displayed, the two most worthy of note are your use of imagination and persistence. These two qualities enabled you to produce results which others had not been able to obtain. Near failure was transformed into success.

3.(U) Not to be ignored is your administrative ability. The marshaling of resources available to you and coordination of the efforts of your available personnel contributed materially to the degree and quality of results obtained as well as the expeditious manner in which you proceeded. Also, selflessness was manifested by your willingness to ignore assigned working hours and press on as long as any hope existed for obtaining results.

4.(C) As you are aware, the results achieved by you have significance beyond the boundaries of the Navy. The full import cannot be completely evaluated at this time but it is known that the lives of many persons will be enriched by your efforts. It is regretted that all persons affected will not have the opportunity to express their thanks to you in person for the part you have played.

5.(U) On behalf of all persons who will benefit from your efforts, and on behalf of the Navy and myself, I again express my deepest appreciation and say to you a most hearty "Well done".

6.(U) If it is consistent with the policy of your Agency, it is requested that a copy of this letter be made a part of your official record.

Supplement to Staff Employee Personnel

Action for Integration of Newton Scott Miler

Effective 20 July 1961

The purpose of this memorandum is to call your attention to existing policies which are particularly material to you while you are integrated and to set forth certain rights and obligations which are incident to your status as an appointed employee. It is hereby agreed and understood that:

1. As an employee of this organization, at the present grade and salary of GS-14 $12,730 per annum, you will accept cover employment with another instrumentality of the Government (hereinafter referred to as "your cover facility") effective as of 20 July 1961. You will, insofar as consistent with your basic responsibility to this organization, abide by all the rules, regulations, practices and policies of your cover facility, in order to appear as a conventional member of that establishment. Your appointment to your cover facility is being effected at FSR-4 and salary of $12,145 per annum. You are prohibited, except as specifically authorized herein, from retaining emoluments paid by your cover facility.

2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of twenty-four months from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of this organization and the length of your tour of duty, as currently specified, may be unilaterally changed by this organization in order to conform with subsequent changes in the prescribed tour of your cover facility. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed one (1) year of service from the date of your arrival at your overseas post of duty, you will be required to reimburse the Government for all of its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of your cover facility. Such travel will be accomplished in conformance with applicable regulations of your cover facility except when you are directed for operational reasons to perform travel in accordance with the regulations of this organization.

4. Salary and (except as provided in paragraph three (3) above) allowances paid by your cover facility shall be retained by you to the extent that they are less than or equal to the salary and allowance payments due on the basis of your grade level with this organization. If such cover payments are less than the amount due, the difference will be credited to your payroll account with this organization. If such cover payments exceed the amount due, the overage will be remitted to this organization at designated intervals, presently ____________________. Computations hereunder will be made on the basis of the aggregate gross due and received provided, however, that in computing remittances for overage Federal and, if applicable, District of Columbia income taxes withheld by your cover facility against the overage may be deducted. To assure timely accuracy in your payroll account with this organization you are expected to immediately report cover facility payroll changes.

5. Your status as an employee of this organization will continue in full force and effect during your period of duty with your cover facility and you will continue to be entitled to all rights, benefits and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

a. Upon integration into your cover facility, you will continue to be covered by the provisions of the Civil Service Retirement Act, as amended, and at your personal expense you will be subject to payroll deductions for retirement purposes (now six and one-half per cent) on the basis of your cover salary or your salary from this organization, whichever is the greater.

b. If you receive taxable income from both your cover facility and this organization, necessary adjustments for Federal, and if applicable, District of Columbia income tax purposes will be made in conformance with instructions received from this organization.

c. Consistent with your cover activity, you will continue to be responsible for compliance with the rules and regulations of this organization.

d. You are not assured upon the completion of your period of duty with your cover facility of any status with your cover based on your services performed with that organization at the request of this organization.

SECRET

e. A portion of your annual leave and all the sick leave which has accrued to your credit at the time of your integration shall be transferred to your cover facility. The remainder of your leave will be held by this organization in escrow pending the completion of your integration. If the sum of your accumulated annual leave with your cover facility and this organization exceeds the maximum accumulation entitlement afforded you under the regulations of this organization, the excess will be forfeited. If possible, such forfeiture will be accomplished by reducing the leave credit in your escrow account with this organization. While integrated, you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of your cover facility in lieu of the leave benefits of this organization. Upon completion of your integration, your accrued annual and sick leave will be transferred to your credit with this organization. If security conditions require that your cover facility make a lumpsum payment for accrued annual leave, you will be required to pay the gross amount thereof to this organization including income taxes withheld by your cover facility.

6. You will be required to keep forever secret this agreement and all other information which you may obtain by reason hereof, unless you are released in writing by this organization from this obligation. Violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations. The termination of your employment with this organization will not release you from the obligation of any security oath you may be required to take.

INTERNATIONAL COOPERATION ADMINISTRATION
UNITED STATES OF AMERICA OPERATIONS MISSION TO THAILAND
BANGKOK, THAILAND

April 9, 1958

Mr. Theo E. Hall
Chief, Public Safety Division
International Cooperation Administration
Washington 25, D. C.

Re: Newton S. Miler

Dear Theo:

You have by now received our unclassified cable, TOICA 1408, advising of our acceptance of the resignation of Newton S. Miler who has served since December 29, 1956, as Chief of our Criminal Investigation Branch, Public Safety Division, USOM/T. It was with deep regret that I accepted the resignation since his departure on or about April 15, 1958, will be felt very keenly by both the Chief of the Division, Mr. Al DuBois, and myself.

Were it not for the pressing need of stateside medical attention for his wife and the fact that he should be with her during this period, I should have endeavored to prevail on him to take an alternative course of action. However, I am satisfied that there was no alternative and, hence, did accept the resignation effective April 15, 1958, it being noted that he is returning with his family to the States at his own expense.

This letter is to advise you of the facts leading to what would appear to be a sudden resignation. I also want to inform you that Miler's job performance here has, in my estimation, been of high order and can very easily be summarized by stating that he has performed most satisfactorily.

He has shown himself consistently to be tactful, considerate, and objective in his approach to his responsibilities and in the performance of his duties. I have at all times found that his judgment has been sound and mature. He has had warm and mutually satisfying relationship with his opposite numbers in the Thai police.

In furtherance of my statement of my confidence in him, I unhesitatingly designated him as Acting Chief of our Public Safety Division during Mr. DuBois' absence on TDY in Washington for the period March 9 through April 5, 1958. I naturally had continuing personal contact with him during that period and observed his handling of himself in Executive Staff meetings. The various attributes which I cited above were clearly demonstrated during this period and, in fact, his performance during this period permits me to add that I am satisfied with his supervisory abilities.

I would have no hesitancy in recommending his reemployment by ICA if in the future the present family health situation is rectified.

Sincerely,

Thomas E. Naughten

[illegible] 3 December 1956

Mr. Newton S. Miler

Dear Mr. Miler:

This is a memorandum of agreement between you and the United States Government in regard to your employment by CIA. It is hereby mutually agreed and understood that:

1. As an employee of CIA, at the present grade and salary of GS-13^3, $9420 per annum, you will accept cover employment in the International Cooperation Administration effective as of 3 December 1956 You will, insofar as consistent with your basic responsibility to CIA, abide by all the rules, regulations, practices and policies of the ICA, in order to appear as a conventional member of that establishment. Your appointment to the ICA is being effected at the class of FSS-3 and salary of ~~$9120~~ 9570 per annum.

2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of two (2) years from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of CIA, and the length of your tour of duty, as currently specified, may be unilaterally changed by CIA in order to conform with subsequent changes in the prescribed tour by ICA. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by the Agency to be beyond your control or if you are terminated for cause either by ICA or CIA before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by the Agency to be beyond your control or if you are terminated for cause either by ICA or CIA before you have completed one (1) year of service from the date of your arrival at your overseas post of duty, you will be required to reimburse the Government for all its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of ICA. Such travel will be accomplished in conformance with applicable regulations of ICA and you will receive and retain the amount paid by ICA without regard to CIA regulations except when you are directed for operational reasons to perform travel in accordance with CIA regulations.

4. It is specifically understood and agreed that as an appointed employee of the Central Intelligence Agency, you are entitled to receive and retain only the salary, allowances and other benefits which are commensurate with your appointed position and salary grade, except as provided in paragraph three (3) above. The compensation that you receive from ICA will be offset against your CIA salary and you will return to CIA not less than quarterly the amount by which in the aggregate your FSS salary, allowances and other pecuniary benefits exceed your CIA salary, allowances and other pecuniary benefits. In accordance with applicable CIA regulations, you will be reimbursed for any increased income tax liability resulting solely from your reporting your ostensible ICA income rather than your actual CIA income.

5. (a) Your status as a CIA employee will continue in full force and effect during your period of duty with ICA, and you will continue to be entitled to all rights, benefits, and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

(1) It is presently contemplated that all annual and sick leave which will have accrued to your credit at the time of integration into ICA will be held by CIA pending your transfer from ICA to CIA. While assigned to ICA, you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of that organization. Upon completion of your integration with ICA, your accrued annual and sick leave will normally be transferred to your credit with CIA. If security conditions require that you be given a lump-sum payment for accrued annual leave, you will be required to pay the gross amount of any lump-sum payment to CIA at the time of your reinstatement including any withholding tax deducted by ICA.

(2) Upon your integration in ICA, you will continue to be covered by the provisions of the Civil Service Retirement Act, as amended, and you will be subject to payroll deductions for retirement purposes (now six and one-half per cent (6-1/2%)) on the basis of your FSS salary or CIA salary, whichever is the greater.

(b) Consistent with your cover activity, you will continue to be responsible for compliance with CIA rules and regulations.

(c) You are not assured upon the completion of your period of duty with ICA of any status with ICA based on your services performed with that organization at the request of CIA.

6. If CIA considers it undesirable for you to continue the use of your ICA cover, your services will be utilized whenever possible in some other appropriate capacity as designated by CIA, unless the circumstances are such as to warrant your termination for cause.

7. Authorized instructions which you receive from CIA in briefing, training or in any other way are a part of this memorandum of agreement and are

incorporated herein to the extent that such instructions are not inconsistent with the terms hereof.

5. You will be required to keep forever secret this agreement and all other information which you may obtain by reason hereof, unless you are released in writing by CIA from this obligation. Violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations. The termination of your employment with CIA will not release you from the obligations of any security oath you may be required to take.

COMMENTS OF INTERVIEWER:

SIGNATURE OF INTERVIEWER

INVESTIGATION REQUESTED BY

Originating Official

DATE

SEC. 37.

In the Spring of 1942 I was questioned by a Postal Inspector about a letter I had mailed approximately one year previous for a Mr. Halren. He was the Display man for Allen and Jemison Hardware Co. in Tuscaloosa, Ala. I had been working with him for some time dressing windows, painting and decorating.

The letter in question was addressed to Mrs. Halren, who was out of town, and supposedly contained some money. I believe it was a dollar. The letter was received but there was no money in it.

I stated that I had known nothing of any money and that I also had had a fellow with me when the letter was mailed. I wrote to Mr. Halren about the incident but never heard from him.

There were apparently no further inquiries as I have heard nothing since the Postal Inspector questioned me.

DATE: **15 March 1971**

FROM : **C/WH/Contracts**

SUBJECT: **Jeremy K. BENADUM, Retirement**

1. Per our telecon this morning, I have sent over to you a copy of the cable from Mexico City (IN 266625) which stated BENADUM had elected not to make the payment as described in our outgoing cable which your office coordinated with on Friday.

2. It is understood that necessary papers will be forwarded from your office to Miss Harrison in the Office of Finance today. I have called Miss Harrison and she advised that upon receipt of the papers from you there would be no difficulty in insuring that BENADUM's actual annuity is computed including the retroactive portion for January and February and included in the check for March.
